

(4) *Positions 4 through 6.* These positions are always numeric. Use a separate series of serial numbers for each type of modification listed in paragraph (c)(3) of this section. Examples of proper numbering for positions 2-6 (the first position will be either "A" or "P") are as follows:

(5) If the contract administration office is changing the contract administration or disbursement office for the first time and is using computer generated modifications to notify many offices, it uses the six position supplementary number ARZ999. If either office has to be changed again during the life of the contract, the supplementary number will be ARZ998, and on down as needed.

(6) Each office authorized to issue modifications shall assign the supplementary identification numbers in sequence. Do not assign the numbers until it has been determined that a modification is to be issued.

(d) *Delivery orders under indefinite delivery contracts, orders under basic ordering agreements, and calls under blanket purchase agreements.* (1) Calls or orders issued by the office issuing the contract or agreement. Use a four position alpha-numeric call or order serial number added to the basic PII number. These shall be identified by using serial numbers beginning 0001 through 9999. When the numeric identifiers run out, use alpha characters in the third and fourth positions. Never use alpha characters in the first and second positions.

(2) Orders placed against another activity's contract or agreement.

(i) If the office placing the order or call is different from the office identified in the basic PII number, assign a serial number to the order or call. The first and second positions contain the call/order code assigned to the ordering office in accordance with 204.7005. Do not use the letters A or P in the first position. The third and fourth positions are a two position serial number assigned by the ordering office. The series will begin with 01. When the numbers exceed 99, the office will assign a uniform series of identifiers containing alpha and/or numeric characters, e.g., Basic #: N00383-91-D-0001 serial #: TU01.

(ii) If an office is placing calls or orders with NIB, NISH, or UNICOR, the office shall identify the instrument with a 13 position supplementary PII number using an F in the 9th position. Modifications to these calls or orders shall be numbered in accordance with paragraph (c) of this section, e.g., Order #: DLA100-91-F-0001 modification #: A00001.

(e) *Modifications to calls or orders.* Use a two position alpha-numeric suffix, known as a call or order modification indicator, to identify a modification to a call or order.

(1) Modifications to a call or order issued by a purchasing office begin with 01, 02, and so on through 99, then B1 through B9, BA through BZ, C1 through C9, and so on through ZZ.

(2) Modifications to a call or order issued by a contract administration office begin with 1A, 1B, and so on through 9Z, followed by A1, A2, and so on to A9, then AA, AB, and so on through AZ.

This subpart prescribes policies and procedures for assigning contract line item numbers.

48 CFR Ch. 2 (10-1-10 Edition)

204.7101 Definitions.

Accounting classification reference number (ACRN) means any combination of a two position alpha/numeric code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

Attachment means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

Definitized item, as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

Exhibit means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

Nonseverable deliverable, as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

Undefinitized item, as used in this subpart, means an item for which a price has not been established in the basic contract or by modification.
