The commuter authority and responsible person(s) also shall hold at least one public hearing on the plan and try to attain accessibility. The plan shall document this public participation, including summaries of the consultation with individuals with disabilities and the comments received at the hearing and during the comment period. The plan also shall summarize the responsible person(s) responses to the comments and consultation.

2) The plan shall establish milestones for the achievement of required accessibility of key stations, consistent with the requirements of this section.

3) The commuter authority and responsible person(s) of each key station identified in the plan shall, by mutual agreement, designate a project manager for the purpose of undertaking the work of making the key station accessible.

Requests for extensions shall provide for completion of key station accessibility within the time limits set forth in paragraph (c) of this section. The FTA Administrator may approve, approve with conditions, modify, or disapprove any request for an extension.
