

and group life insurance systems or any of them by continuing the required employee payments. The employee must make a written election to retain benefits, as applicable, and make arrangements for the required employee payments. An employee who transfers to an international organization is not eligible to participate in the Thrift Savings Plan (TSP) while employed by the international organization even if he or she elects to retain Federal retirement coverage. However, upon re-employment, an employee who elected to retain Federal retirement coverage while employed by the international organization and has made all deposits required for such coverage may make contributions to the TSP which he or she missed as a result of the service with an international organization, and receive make-up agency contributions and lost earnings on the agency contributions, as provided under § 352.311(e).

(c) *Agency responsibility.* For retirement and group life insurance purposes, the employing agency is responsible for determining the applicable rate of pay in accordance with the provisions of section 3583 of title 5, United States Code. The agency is also responsible for collecting, accounting for, and depositing in the respective funds all retirement, health benefits, and group life insurance employee payments required to be made for the purpose of protecting the rights of the employee so transferred; and for accounting for and depositing in the respective funds all agency contributions. The agency must furnish the employee with specific information as to how, when, and where the payments are to be submitted.

(d) *Coverage.* Employee payments are considered to be currently deposited if received by the agency before, during, or within 3 months after the end of the pay period covered by the deposit. If the contributions are not currently deposited, coverage terminates on the last day of the pay period for which the required contributions were currently deposited, subject to a 31-day extension of group life insurance and health benefits coverage as provided in parts 870 and 890 of this chapter and to the conversion benefits provided in parts 870

and 890 of this chapter. Coverage so terminated may not be re-established before the employee actually enters on duty, on the first day in a pay status in an agency. However, terminated retirement, health benefits, and group life insurance coverage must be reinstated retroactively when, in the judgment of OPM, the failure to make the required current deposit was due to circumstances beyond the employee's control and the required payments were deposited at the first opportunity. Coverage under a system other than the Civil Service Retirement System must be reinstated retroactively if the agency which administers the retirement system determines that the failure to make the required current deposit was due to circumstances beyond the control of the employee and the required payments were deposited at the first opportunity.
