

§ 216.164

mammals and their habitat. When detonating explosives, the following mitigation measures must be implemented:

(1) Except as provided under the following paragraph (2), if any marine mammals are visually detected within the designated 3.5 nm (6.5 km) Safety Range surrounding the USS MESA VERDE, detonation must be delayed until the marine mammals are positively resighted outside the Safety Range either due to the animal(s) swimming out of the Safety Range or due to the Safety Range moving beyond the mammal's last verified location.

(2) If a North Atlantic right whale or other marine mammal listed under the Endangered Species Act (ESA) is seen within the Safety Range, detonation must not occur until the animal is positively resighted outside the Safety Range and at least one additional aerial monitoring of the Safety Range shows that no other right whales or other ESA-listed marine mammals are present;

(3) If the sea state exceeds 3 on the Beaufort scale (i.e., whitecaps on 33 to 50 percent of surface; 2 ft (0.6 m) to 3 ft (0.9 m) waves), the visibility is equal to or less than 3 nm (5.6 km), or the aircraft ceiling (i.e., vertical visibility) is equal to or less than 1,000 ft (305 m), detonation must not occur until conditions improve sufficiently for aerial surveillance to be undertaken.

(4) A detonation must not be conducted earlier than 3 hours after sunrise or later than 3 hours prior to sunset to ensure adequate daylight for conducting the pre-detonation and post-detonation monitoring requirements in § 216.165;

(5) If post-detonation surveys determine that an injury or lethal take of a marine mammal has occurred,

(i) the Director, Office of Protected Resources, National Marine Fisheries Service must be notified within 24 hours of the taking determination,

(ii) the FSST procedures and monitoring methods must be reviewed in coordination with the National Marine Fisheries Service, and

(iii) appropriate changes to avoid future injury or mortality must be made prior to conducting the next detonation.

50 CFR Ch. II (10–1–10 Edition)

§ 216.164 Prohibitions.

No person in connection with the activities described in § 216.161(a) shall:

(a) Take any marine mammal not specified in § 216.161(b);

(b) Take any marine mammal specified in § 216.161(b) other than by incidental, unintentional Level A or Level B harassment or mortality;

(c) Take a marine mammal specified in § 216.161(b) if such taking results in more than a negligible impact on the species or stocks or marine mammals;

(d) Violate, or failure to comply with, the requirements of a Letter of Authorization issued under § 216.106.

§ 216.165 Requirements for monitoring and reporting.

(a) The holder of the Letter of Authorization is required to cooperate with the National Marine Fisheries Service and any other Federal, or state or local agency with regulatory authority for monitoring the impacts of the activity on marine mammals. The holder must notify the Director, Office of Protected Resources, National Marine Fisheries Service at least 2 weeks prior to activities involving the detonation of explosives in order to satisfy paragraph (f) of this section.

(b) The holder of the Letter of Authorization must designate at least 6 experienced on-site marine mammal observers (MMOs) onboard the USS MESA VERDE, 2 experienced MMOs onboard the survey aircraft and 2 experienced MMOs onboard the Navy support vessel each of whom has been approved in advance by NMFS, to monitor the Safety Range for presence of marine mammals and to record the effects of explosives detonation on marine mammals that inhabit the Navy's Jacksonville/Charleston Operating Area offshore of Mayport, Florida.

(c)(1) Prior to each detonation for the FSST, an area will be located which has been determined by an aerial survey to contain the lowest marine mammal abundance relative to other areas within the area off Mayport, FL.

(2) The test area must be monitored by aerial and shipboard monitoring for the following periods of time:

(i) 48–72 hours prior to a scheduled detonation (aircraft only),

(ii) on the day of detonation,
