

under the Sector. The Council shall consider this plan in the course of the periodic framework adjustment or specification process and may, if approved, implement it through either of those processes. After Council approval of a Sector, the details of its operation shall be addressed between the Sector and NMFS, although the New England Fishery Management Council may review and provide comment on the proposed details.

(2) The Regional Administrator may withdraw approval of a Sector at any time if he/she, in consultation with the New England Fishery Management Council, determines that Sector participants are not complying with the requirements of an approved operations plan or that the continuation of the operations plan will undermine achievement of fishing mortality objectives of the FMP. Withdrawal of approval of a Sector shall be completed after notice and comment rulemaking, pursuant to the Administrative Procedure Act.

(3) A Sector is required to resubmit its operations plan to the Regional Administrator no later than July 1 of each year, whether or not the plan has changed. Once the submission documents specified under paragraphs (a)(1) and (c)(2) of this section have been determined to comply with the requirements of this section, NMFS may consult with the Council and shall approve or disapprove Sector operations consistent with applicable law.

[73 FR 20131, Apr. 14, 2008]

Subpart E—Management Measures for the Atlantic Surf Clam and Ocean Quahog Fisheries

§ 648.70 Annual individual allocations.

(a) *General.* (1) Each fishing year, the Regional Administrator shall determine the initial allocation of surfclams and ocean quahogs for the next fishing year for each allocation holder owning an allocation pursuant to paragraph (a)(2) of this section. For each species, the initial allocation for the next fishing year is calculated by multiplying the allocation percentage owned by each allocation owner as of the last day of the previous fishing year in

which allocation owners are permitted to permanently transfer allocation percentage pursuant to paragraph (b) of this section (i.e., October 15 of every year), by the quota specified by the Regional Administrator pursuant to § 648.71. The total number of bushels of allocation shall be divided by 32 to determine the appropriate number of cage tags to be issued or acquired under § 648.75. Amounts of allocation 0.5 or smaller created by this division shall be rounded downward to the nearest whole number, and amounts of allocation greater than 0.5 created by this division shall be rounded upward to the nearest whole number, so that allocations are specified in whole cages. These allocations shall be made in the form of an allocation permit specifying the allocation percentage and the allocation in bushels and cage tags for each species. An allocation permit is only valid for the entity for which it is issued. Such permits shall be issued on or before December 15, to allow allocation owners to purchase cage tags from a vendor specified by the Regional Administrator pursuant to § 648.75(b).

(2) The Regional Administrator may, after publication of a fee notification in the FEDERAL REGISTER, charge a permit fee before issuance of the permit to recover administrative expenses. Failure to pay the fee will preclude issuance of the permit.

(b) *Transfers*—(1) *Allocation percentage.* Subject to the approval of the Regional Administrator, part or all of an allocation percentage may be transferred in the year in which the transfer is made, to any person or entity eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a). Approval of a transfer by the Regional Administrator and for a new allocation permit reflecting that transfer may be requested by submitting a written application for approval of the transfer and for issuance of a new allocation permit to the Regional Administrator at least 10 days before the date on which the applicant desires the transfer to be effective, in the form of a completed transfer log supplied by the Regional Administrator. The transfer

Fishery Conservation and Management

§ 648.71

is not effective until the new holder receives a new or revised annual allocation permit from the Regional Administrator. An application for transfer may not be made between October 15 and December 31 of each year.

(2) *Cage tags.* Cage tags issued pursuant to §648.75 may be transferred at any time, and in any amount subject to the restrictions and procedure specified in paragraph (b)(1) of this section; provided that application for such cage tag transfers may be made at any time before December 10 of each year. The transfer is effective upon the receipt by the transferee of written authorization from the Regional Administrator.

(3) *Review.* If the Regional Administrator determines that the applicant has been issued a Notice of Permit Sanction for a violation of the Magnuson Act that has not been resolved, he/she may decline to approve such transfer pending resolution of the matter.

[61 FR 34968, July 3, 1996, as amended at 68 FR 69973, Dec. 16, 2003; 70 FR 2026, Jan. 12, 2005]

§ 648.71 Catch quotas.

(a) *Establishing quotas.* Beginning in 2005, the amount of surfclams or ocean quahogs that may be caught annually by fishing vessels subject to these regulations will be specified for a 3-year period by the Regional Administrator. The initial 3-year specification will be based on the most recent available survey and stock assessments for Atlantic surfclams and ocean quahogs. Subsequent 3-year specifications of the annual quotas will be accomplished in the third year of the quota period, unless the quotas are modified in the interim pursuant to §648.71(b). The amount of surfclams available for harvest annually must be specified within the range of 1.85 to 3.4 m bu (98.5 to 181 m L) per year. The amount of ocean quahogs available for harvest annually must be specified within the range of 4 to 6 m bu (213 to 319.4 m L).

(1) *Quota reports.* On an annual basis, MAFMC staff will produce an Atlantic surfclam and ocean quahog annual quota recommendation paper to the MAFMC based on the latest available stock assessment report prepared by NMFS, data reported by harvesters and processors, and other relevant data, as

well as the information contained in paragraphs (a)(1)(i) through (vi) of this section. Based on that report, and at least once prior to August 15 of the year in which a 3-year annual quota specification expires, the MAFMC, following an opportunity for public comment, will recommend to the Regional Administrator annual quotas and estimates of DAH and DAP within the ranges specified for a 3-year period. In selecting the annual quotas, the MAFMC shall consider the current stock assessments, catch reports, and other relevant information concerning:

(i) Exploitable and spawning biomass relative to the OY.

(ii) Fishing mortality rates relative to the OY.

(iii) Magnitude of incoming recruitment.

(iv) Projected effort and corresponding catches.

(v) Geographical distribution of the catch relative to the geographical distribution of the resource.

(vi) Status of areas previously closed to surfclam fishing that are to be opened during the year and areas likely to be closed to fishing during the year.

(2) *Public review.* Based on the recommendation of the MAFMC, the Regional Administrator shall publish proposed surfclam and ocean quahog quotas in the FEDERAL REGISTER. Comments on the proposed annual quotas may be submitted to the Regional Administrator within 30 days after publication. The Assistant Administrator shall consider all comments, determine the appropriate annual quotas, and publish the annual quotas in the FEDERAL REGISTER each year. The quota shall be set at that amount that is most consistent with the objectives of the Atlantic Surfclam and Ocean Quahog FMP. The Regional Administrator may set quotas at quantities different from the MAFMC's recommendations only if he/she can demonstrate that the MAFMC's recommendations violate the national standards of the Magnuson-Stevens Act and the objectives of the Atlantic Surfclam and Ocean Quahog FMP and other applicable law.

(b) *Interim quota modifications.* Based upon information presented in the quota reports described in paragraph (a)(1) of this section, the MAFMC may
