actual notice of the action (telephone hotlines and USCG broadcasts), or at
the time the inseason action published in the FEDERAL REGISTER is effective,
whichever comes first.

(3) Any action issued under this section will remain in effect until the ex-
piration date stated in the action or until rescinded, modified, or super-
seded. However, no inseason action has any effect beyond the end of the cal-
endar year in which it is issued.

(b) Public comment. If time allows, NMFS will invite public comment prior
to the effective date of any action published in the FEDERAL REGISTER. If
NMFS determines, for good cause, that an action must be filed without afford-
ing a prior opportunity for public comment, public comments on the action
will be received by NMFS for a period of 15 days after filing of the action with
the Office of the Federal Register.

(c) Availability of data. The Regional
Administrator will compile in aggre-
gate form all data and other informa-
tion relevant to the action being taken
and will make them available for pub-
lic review during normal office hours
at the Northwest Region, NMFS. For
actions affecting fisheries occurring
primarily or exclusively in the fishery
management area seaward of Cali-
ifornia, information relevant to the ac-
tion also will be made available for
public review during normal office
hours at the Southwest Region, NMFS.

§ 660.412 EFH identifications and de-
scriptions for Pacific salmon.

Pacific salmon essential fish habitat
(EFH) includes all those water bodies
occupied or historically accessible in
Washington, Oregon, Idaho, and Cali-
ifornia in hydrologic units identified in
Table 1 of this subpart H. Exceptions
include cases in which man-made bar-
riers (dams) identified in Table 1 of
this subpart H represent the upstream
extent of Pacific salmon access. EFH also
includes the marine and estuarine areas
shoreward of state boundaries and the
Exclusive Economic Zone (EEZ) off the
coasts of Washington, Oregon, and Cali-
ifornia north of Point Conception.

(b) Coho salmon (Oncorhynchus
kisutch) EFH includes all streams,
estuaries, marine waters, and other
water bodies occupied or historically accessible to coho in Wash-
ington, Oregon, Idaho, and California, in hydrologic units identified in Table
1 of this subpart H. Exceptions include cases in which man-made barriers
(dams) identified in Table 1 of this subpart H represent the upstream extent
of Pacific salmon access. EFH also includes the marine and estuarine areas
shoreward of state boundaries and the EEZ off the coasts Washington, Oregon,
and California north of Point Conception.

(c) Pink salmon (Oncorhynchus
gorbusha) EFH includes all streams,
estuaries, marine waters, and other
water bodies occupied or historically accessible to pink salmon within Wash-
ington State, in hydrologic units iden-
tified in Table 1 of this subpart H. Ex-
ceptions include cases in which man-
made barriers (dams) identified in
Table 1 of this subpart H represent the upstream extent of Pacific salmon ac-
cess. EFH also includes waters north and east of Cape Flattery, Washington,
including Puget Sound, the Strait of Juan de Fuca and Strait of Georgia.
