most distal extremity. The stem diameter of a living coral specimen shall be determined by measuring the greatest diameter of the stem at a point no less than 1 inch (2.54 cm) from the top surface of the living holdfast.

- (a) Live pink coral harvested from any precious coral permit area must have attained a minimum height of 10 inches (25.4 cm).
- (b) Black coral. Live black coral harvested from any precious coral permit area must have attained either a minimum stem diameter of 1 inch (2.54 cm), or a minimum height of 48 inches (122 cm).

§ 665.666 Closures.

- (a) If the Regional Administrator determines that the harvest quota for any coral bed will be reached prior to the end of the fishing year, NMFS shall publish a notice to that effect in the FEDERAL REGISTER and shall use other means to notify permit holders. Any such notice must indicate the reason for the closure, the bed being closed, and the effective date of the closure.
- (b) A closure is also effective for a permit holder upon the permit holder's actual harvest of the applicable quota.

§ 665.667 Quotas.

- (a) General. The quotas limiting the amount of precious coral that may be taken in any precious coral permit area during the fishing year are listed in §665.667(d). Only live coral is counted toward the quota. The accounting period for all quotas begins July 1, 1983.
- (b) Conditional bed closure. A conditional bed will be closed to all non-selective coral harvesting after the quota for one species of coral has been taken.
- (c) Reserves and reserve release. The quotas for exploratory area, X-P-PI, will be held in reserve for harvest by vessels of the United States in the following manner: (1) At the start of the fishing year, the reserve for the PRIA exploratory area will equal the quota minus the estimated domestic annual harvest for that year. (2) As soon as practicable after December 31 each year, the Regional Administrator will determine the amount harvested by vessels of the United States between July 1 and December 31 of the year

that just ended on December 31. (3) NMFS will release to TALFF an amount of precious coral for each exploratory area equal to the quota minus two times the amount harvested by vessels of the United States in that July 1-December 31 period. (4) NMFS will publish in the FEDERAL REGISTER a notification of the Regional Administrator's determination and a summary of the information on which it is based as soon as practicable after the determination is made.

(d) PRIA exploratory permit area, X-P-PI, has an annual quota of 1,000 kg for all precious coral MUS combined with the exception of black corals.

§ 665.668 Seasons.

The fishing year for precious coral begins on July 1 and ends on June 30 the following year.

§ 665.669 Gold coral harvest moratorium.

Fishing for, taking, or retaining any gold coral in any precious coral permit area is prohibited through June 30, 2013.

Subpart F—Western Pacific Pelagic Fisheries

§ 665.798 Management area.

The western Pacific Pelagic fishery management area includes all areas of fishing operations in the EEZ or on the high seas for any vessels of the United States or persons that:

- (a) Fish for, possess, or transship western Pacific pelagic fishery MUS within the EEZ waters around American Samoa, CNMI, Guam, Hawaii, or PRIA; or
- (b) Land western Pacific pelagic fishery MUS in American Samoa, CNMI, Guam, Hawaii, or PRIA.

§ 665.799 Area restrictions.

- (a) Fishing is prohibited in all notake MPAs designated in this section.
- (b) No-take MPAs. The following U.S. EEZ waters are no-take MPAs:
- (1) Landward of the 50-fathom (fm) (91.5-m) curve at Jarvis, Howland, and Baker Islands, and Kingman Reef; as depicted on National Ocean Survey Chart Numbers 83116 and 83153;
