Commodity Credit Corporation, USDA

§ 1410.2 Definitions.

(a) The definitions in part 718 of this chapter shall be applicable to this part and all documents issued in accordance with this part, except as otherwise provided in this section.

(b) The following definitions shall be applicable to this part:

Agricultural commodity means any crop planted and produced:

(1) By annual tilling of the soil;

(2) On an annual basis by one-trip planters; or

(3) Sugarcane planted or produced in a State.

Annual rental payment means, unless the context indicates otherwise, the annual payment specified in the CRP contract that, subject to the availability of funds, is made to a participant to compensate a participant for placing eligible land in CRP, including any incentive payments that are not specifically cost-shares.

Commercial pond-raised aquaculture facility means, as determined by CCC, any earthen facility from which $1,000 or more of freshwater food fish were sold or normally would have been sold during a calendar year.

Conservation district means a political subdivision of a State, Indian Tribe, or territory, organized pursuant to the State or territorial soil conservation district law, or Tribal law. The subdivision may be a conservation district, soil conservation district, soil and water conservation district, resource conservation district, land conservation committee, or similar legally constituted body.

Conservation plan means a record of the participant’s decisions and supporting information for treatment of a unit of land or water, and includes a schedule of operations, activities, and estimated expenditures needed to solve identified natural resource problems by devoting eligible land to permanent vegetative cover, trees, water, or other comparable measures.

Conservation priority area means an area designated with actual and adverse water quality, wildlife habitat, air quality, or other natural resource impacts related to agricultural production activities or to assist agricultural producers to comply with Federal and State environmental laws or to meet...
other conservation needs, such as for air quality, as determined by the Deputy Administrator. 

Conserving use means a use of land with any rotation requirements as may be specified by the Deputy Administrator: for alfalfa and other multi-year grasses and legumes planted during 1996 through 2001; as summer fallow during 1996 through 2001; and in which the land was previously enrolled in the program (for which the contract expired during the period 1996 through 2001) and where the grass cover required by the CRP contract continues to be maintained as though still enrolled. Where the land use for a year qualifies as a “conserving use” under this definition, then, the land for that year shall, for purposes of eligibility under §1410.6(a)(1) be considered to have been planted to an “agricultural commodity.”

Considered planted means: land devoted to a conserving use or land enrolled in the WBP during the crop year or during any of the 2 years preceding the crop year if the contract expired or will expire during calendar year 2000, 2001, or 2002; cropland enrolled in CRP; or land for which the producer received insurance indemnity payment for prevented planting.

Contour grass strip means a vegetation area that follows the contour of the land that complies with the FOTG and a conservation plan developed under this part.

Contract period means the term of the contract which is not less than 10, nor more than 15 years.

Cost-share payment means the payment made by CCC to assist program participants in establishing the practices required in a contract.

Cropland means land defined as cropland in part 718 of this title, except for land in terraces that are no longer capable of being cropped.

Cropped wetlands means farmed wetlands and wetlands farmed under natural conditions.

Deputy Administrator means the Deputy Administrator for Farm Programs, FSA, the CRP Program Manager, or a designee.

Erodibility Index (EI) is, as prescribed by CCC, used to determine the inherent erodibility (water or wind) of a soil.

Farmed wetlands means land defined as farmed wetlands in part 12 of this title.

Federally-owned land means land owned by the Federal Government or any department, instrumentality, bureau, or agency thereof, or any corporation whose stock is wholly owned by the Federal Government.

Field means a part of a farm that is separated from the balance of the farm by permanent boundaries such as fences, roads, permanent waterways, woodlands, other similar features, or crop-lines, as determined by CCC.

Field Office Technical Guide (FOTG) means the official USDA guidelines, criteria, and standards for planning and applying conservation treatments and conservation management systems. It contains detailed information on the conservation of soil, water, air, plant, animal resources, and cultural resources applicable to the local area for which it is prepared.

Filter strip means a strip or area of vegetation adjacent to a body of water the purpose of which is to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality and of a width determined appropriate for the purpose by the Deputy Administrator.

Highly Erodible Land (HEL) means land determined to have an EI equal to or greater than 8 on the acreage offered.

Infeasible to farm means an area that is too small or isolated to be economically farmed, as determined by the Deputy Administrator.

Landlord means a person who rents or leases acreage to another person.

Local FSA office means the FSA office serving the area in which the FSA
Commodity Credit Corporation, USDA § 1410.2

records are located for the farm or ranch.

Merchantable timber means timber grown for commercial purposes on private non-industrial forest land on which the average tree has a trunk diameter of at least 6 inches measured at a point no less than 4.5 feet above the ground.

Offer means, unless the context indicates otherwise, if required by CCC, the per-acre rental payment requested by the owner or operator in such owner’s or operator’s request to participate in the CRP.

Offeror means an eligible person as determined by CCC who submits an offer of eligible acreage for enrollment into the CRP to enter into a CRP contract.

Operator means a person who is in general control of the farming operation on the farm, as determined by CCC.

Payment period means the 10- to 15-year contract period for which the participant receives an annual rental payment.

Perennial crop means a crop that is produced from the same root structure for two or more years, as determined by CCC.

Permanent vegetative cover means perennial stands of approved combinations of certain grasses, legumes, forbs, shrubs and trees with a life span of 10 or more years.

Permanent wildlife habitat means a vegetative cover with the specific purpose of providing habitat, food, or cover for wildlife and protecting other environmental concerns for the life of the contract.

Practice means a conservation, wildlife habitat, or water quality measure with appropriate operations and management as agreed to in the conservation plan to accomplish the desired program objectives according to CRP and FOTG standards and specifications as a part of a conservation management system.

Present value means the value of a stream of future payments discounted by 5 percent in accordance with Office of Management and Budget Circular A–94 (revised January 2006), Discount Rates To Be Used in Evaluating Time-Distributed Costs and Benefits.

Private non-industrial forest land means, for purposes of §1410.12, lands with existing tree cover that are owned by a private non-industrial forest landowner and which were damaged by hurricanes occurring in calendar year 2005.

Private non-industrial forest landowner means, for purposes of §1410.12, an individual, group, association, corporation, Indian Tribe, other legal private entity, or State School Trust, owning non-industrial private forest land or who receives concurrence from the landowner for making the claim in lieu of the owner, and for practice implementation and who holds a lease on the land for a minimum of 10 years. Corporations whose stocks are publicly traded or owners or lessees principally engaged in the primary processing of raw wood products are excluded from this definition. An owner of land leased to a lessee shall also be excluded who should be excluded under the previous sentence.

Riparian buffer means a strip or area of vegetation adjacent to a river or stream of sufficient width as determined by the Deputy Administrator to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality, which are also intended to provide shade to reduce water temperature for improved habitat for aquatic organisms and supply large woody debris for aquatic organisms and habitat for wildlife.

Soil loss tolerance (T) means the maximum average annual erosion rate specified in the FOTG that will not adversely impact the long-term productivity of the soil.

State means State agencies, departments, districts, county or city governments, municipalities or any other State or local government of the State.

State school trust land means land owned by a State with the explicit purpose of supporting public schools.

State Technical Committee means a committee established pursuant to
§ 1410.3 General description.

(a) Under the CRP, CCC will enter into contracts with eligible participants to convert eligible land to a conserving use during the contract period in return for financial and technical assistance.

(b) A participant must obtain and adhere to a conservation plan prepared in accordance with CRP guidelines, as established and determined by CCC. A conservation plan for eligible acreage must be obtained by a participant and must be approved by the conservation district in which the lands are located unless the conservation district declines to review the plan, in which case the provider of technical assistance may take such further action as is needed to account for lack of such review.

(c) The objectives of the CRP are to cost-effectively reduce water and wind erosion, protect the Nation’s long-term capability to produce food and fiber, reduce sedimentation, improve water quality, create and enhance wildlife habitat, and other objectives including, as appropriate, addressing issues raised in part 610 of this chapter to provide information, analysis, and recommendations to the U.S. Department of Agriculture.

State water quality priority areas means any area so designated by the State committee, in consultation with the State Technical Committee, where agricultural pollutants contribute to water degradation or create the potential for failure to meet applicable water quality standards or the goals and requirements of Federal or State water quality laws. These areas may include areas designated under section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) as water quality protection areas, sole source aquifers or other designated areas that result from agricultural nonpoint sources of pollution. Acreage in these areas may be determined eligible as conservation priority areas.

Technical assistance means assistance in regard to determining the eligibility of land and practices, implementing and certifying practices, ensuring contract performance, and providing annual rental rate surveys. The technical assistance provided in connection with CRP to owners or operators, as approved by CCC, includes technical expertise, information, and tools necessary for the conservation of natural resources on land; technical services provided directly to farmers, ranchers, and other eligible entities, such as conservation planning, technical consultation, and assistance with design and implementation of conservation practices; and, technical infrastructure, including activities, processes, tools, and agency functions needed to support delivery of technical services, such as technical standards, resource inventories, training, data, technology, monitoring, and effects analyses.

Violation means an act by the participant, either intentional or unintentional, that would cause the participant to no longer be eligible for all or a portion of cost-share, incentive, or annual contract payments.

Water Bank Program (WBP) means the program authorized by the Water Bank Act of 1970, as amended, in which eligible persons enter into 10-year agreements to preserve, restore, and improve wetlands.
