all of the following for the commodity specified in paragraph (d) of this section:

(i) Enter into a contract to produce the commodity for processing;

(ii) Agree to produce the crop as part of a program of crop rotation on the farm to achieve agronomic and pest and disease management benefits;

(iii) Report acreage and production of the crop according to §1412.66 and provide evidence of disposition of the crop; and

(iv) File a notice of loss according to §1412.67, if the crop is either prevented from being planted or is impacted by disaster after planting.

(g) If base acres are recalculated while a farm is participating in this Project, the planting and production of a crop of a commodity specified in paragraph (d) of this section on base acres for which a temporary reduction was made under this section will be considered to be the same as the planting and production of the covered commodity or peanuts that was reduced.

(h) Reports will be prepared for Congress to periodically evaluate the supply and price of fresh and processed fruits and vegetables and evaluate if producers of fresh fruits and vegetables are being negatively impacted or existing production capacities are being supplanted.

(i) If DCP payments were issued prior to enrollment in this Project, the participants acknowledge that for the particular year of participation in the Project according to this section, DCP payments will be based on temporarily reduced base acres.

(j) In the event an ACRE program contract was approved either before or after enrollment in this Project according to this section, the ACRE program contract participants acknowledge that for the particular year of participation in the Project according to this section, ACRE payments will be based on the temporarily reduced base acres.

§ 1412.49 Apportionment of long and medium grain rice.

(a) Rice base acres are established pursuant to section 1101 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 7911) in effect on September 30, 2007, specified in §1412.3.

(b) Owners will designate the rice base acres in paragraph (a) of this section into two categories:

(i) Long grain rice, and

(ii) Medium grain rice. Medium grain rice includes short grain rice.

(c) Owners on a farm will elect rice base acres according to paragraph (b) of this section, based on the 4-year average of the percentages of:

(i) Acreage planted on the farm to long grain rice and medium grain rice during the 2003 through 2006 crop years, plus

(ii) Any acreage on the farm that producers were prevented from planting to long grain and medium grain rice during the 2003 through 2006 crop years because of drought, flood, other natural disaster, or other condition beyond the control of the producers.

(d) If long grain or medium grain rice was not planted on the farm in one or more years during the 2003 through 2006 crop years, the percentages of acreage planted in the applicable State to long grain and medium grain rice will be substituted for the “not planted” years on the farm in paragraph (c) of this section.

(e) If an election is not made according to this section, the percentages of acreage planted in the applicable State to long grain and medium grain rice will be determined for the particular year of participation in the Project according to this section.

(f) The purpose of this section is to determine long grain rice base and medium grain rice base on the farm. This section will not increase or decrease the:

(i) Number of base acres on the farm;

(ii) Number of payment acres on the farm; or

(iii) Payment yield on the farm from that for rice under sections 1101 and 1102 of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 7911, 7912), as in effect on September 30, 2007, subject to any adjustment required in this part.
