§ 2902.18 Hand cleaners and sanitizers.

(a) Definitions. (1) Hand cleaners. Products formulated for personal care use in removing a variety of different soils, greases, and similar substances from human hands with or without the use of water.

(2) Hand sanitizers. Products formulated for personal care use in removing bacteria from human hands with or without the use of water. Personal care products that are formulated for use in removing a variety of different soils, greases and similar substances and bacteria from human hands with or without the use of water are classified as hand sanitizers for the purposes of this rule.

(b) Minimum biobased content. The minimum biobased content requirement for all hand cleaners and/or sanitizers shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Hand cleaners—64 percent.
(2) Hand sanitizers (including hand cleaners and sanitizers)—73 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased hand cleaners and sanitizers. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased hand cleaners and sanitizers.

[73 FR 27953, May 14, 2008]

§ 2902.19 Composite panels.

(a) Definitions. (1) Plastic lumber composite panels. Engineered products suitable for non-structural outdoor needs such as exterior signs, trash can holders, and dimensional letters.

(2) Acoustical composite panels. Engineered products designed for use as structural and sound deadening material suitable for office partitions and doors.

(3) Interior panels. Engineered products designed specifically for interior applications and providing a surface that is impact-, scratch-, and wear-resistant and that does not absorb or retain moisture.

(4) Structural interior panels. Engineered products designed for use in structural construction applications, including cabinetry, casework, paneling, and decorative panels.

(5) Structural wall panels. Engineered products designed for use in structural walls, curtain walls, floors and flat roofs in commercial buildings.

(b) Minimum biobased content. The minimum biobased content requirement for all composite panels shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product. The applicable minimum biobased contents are:

(1) Plastic lumber composite panels—23 percent.
(2) Acoustical composite panels—37 percent.
(3) Interior panels—55 percent.
(4) Structural interior panels—89 percent.
(5) Structural wall panels—94 percent.

(c) Preference compliance date. No later than May 14, 2009, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased composite panels. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased composite panels.

(d) Determining overlap with an EPA-designated recovered content product. Qualifying biobased products that fall under this item may, in some cases, overlap with the following EPA-designated recovered content products: Laminated Paperboard and Structural...
