

Subpart T—Cost Principles**§ 3015.190 Scope.**

This subpart makes the allowable costs incurred by the recipient the maximum amount of money a recipient is entitled to receive from USDA. In addition, this subpart identifies the principles to be used in determining allowable costs. These cost principles shall apply to transactions and activities conducted under grants, subgrants, cooperative agreements, cost-type contracts and cost-type subcontracts under grants.

(a) *Allowable costs.* Grant funds may be used only for allowable costs of the activities for which the grant was awarded. This means that the total amount of money that the recipient is entitled to receive from USDA may not exceed the allowable costs incurred by the recipient for those activities.

(b) The following rules apply in computing maximum allowable costs:

(1) *Third party in-kind contributions.* Because they are not allowable costs of the party that receives them, the value of third party in-kind contributions received may not be included in determining maximum allowable costs. However, as provided in Subpart G of this part, third party in-kind contributions may count towards satisfying a cost-sharing or matching requirement of the Federal grant.

(2) *Costs supported by another grant.* Allowable costs incurred by the recipient and supported by another Federal grant (or by a non-Federal grant) awarded to the recipient may not be included in determining maximum allowable costs. The basic intent of this rule is to prevent double compensation. It does not, however, prevent proration of costs that are allowable under two or more awards.

(3) *Costs used to match another Federal grant.* A cost that the recipient uses to meet a cost-sharing or matching requirement of one Federal grant may not count towards determining maximum allowable costs under another Federal grant, unless specifically authorized by a Federal statute.

(4) *Costs supported by general program income.* A grant may not pay for a cost which is supported by general program income earned by the recipient or by a

subrecipient under the grant. Therefore, these costs may not be included in determining maximum allowable costs.

(5) *Use of money due Federal government.* In accordance with § 3015.173, an awarding agency, under certain circumstances, may authorize a recipient to use certain money due the Federal government for allowable costs of the project or programs, instead of returning the money to the Federal Government. Costs supported by the money may not be included as part of the maximum allowable costs charged to USDA.

(6) *Subgrant and contract costs.* The recipient's allowable costs include allowable outlays, if any, to its subrecipients and contractors. If the recipient pays a subrecipient more than the allowable costs incurred by the subrecipient, the excess is not an allowable cost of the recipient and may not be included as part of the maximum allowable costs charged to USDA. However, for cost-type contracts a reasonable fee or profit paid by the recipient to the contractor, in addition to the contractor's allowable costs, may be included in this maximum unless prohibited by the provisions of the grant award.

§ 3015.191 Governments.

(a) OMB Circular No. A-87, and any subsequent amendments to this Circular published in the FEDERAL REGISTER by OMB, shall be used in determining the allowable costs of activities conducted by governments.

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the start of a government's first fiscal year following the amendment's publication in the FEDERAL REGISTER.

§ 3015.192 Institutions of higher education.

(a) OMB Circular No. A-21, including any amendments to the Circular published in the FEDERAL REGISTER by OMB, shall be used in determining the allowable costs of activities conducted by institutions of higher education (other than for-profit institutions).

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the
