

Farm Service Agency, USDA

§ 760.6

only that part of such pay period which is within the application period.

[43 FR 10535, Mar. 14, 1978, as amended by Amdt. 1, 44 FR 36360, July 22, 1979]

§ 760.5 Fair market value of milk.

(a) The county committee shall determine the fair market value of the affected farmer's normal marketings, which, for the purposes of this subpart, shall be the sum of the net proceeds such farmer would have received for his normal marketings in each of the pay periods in the application period.

(b) The county committee shall determine the net proceeds the affected farmer would have received in each of the pay periods in the application period (1) in the case of an affected farmer who markets his whole milk through a milk handler, by multiplying the affected farmer's normal marketings for each such pay period by the average net price per hundred-weight of whole milk paid during the pay period by such farmer's milk handler in the same area for whole milk similar in quality and butterfat test to that marketed by the affected farmer in the base period used to determine his normal marketings, or (2) in the case of an affected farmer whose commercial market consists of direct retail sales to consumers, by multiplying the affected farmer's normal marketings for each such pay period by the average net price per hundredweight of whole milk, as determined by the county committee, which other producers in the same area who marketed their whole milk through milk handlers received for whole milk similar in quality and butterfat test to that marketed by the affected farmer during the base period used to determine his normal marketings.

(c) In determining the net price for whole milk, the county committee shall deduct from the gross price therefor any transportation, administrative, and other costs of marketing which it determines are normally incurred by the affected farmer but which were not incurred because of the removal of his whole milk from the commercial market.

§ 760.6 Information to be furnished.

The affected farmer shall furnish to the county committee complete and accurate information sufficient to enable the county committee or the Deputy Administrator to make the determinations required in this subpart. Such information shall include, but is not limited to:

(a) A copy of the notice from, or other evidence of action by, the public agency which resulted in the removal of the affected farmer's whole milk from the commercial market.

(b) The specific name of the violating substance causing the removal of his whole milk from the commercial market, if not included in the notice or other evidence of action furnished under paragraph (a) of this section.

(c) The quantity and butterfat test of whole milk produced and marketed during the base period. This information must be a certified statement from the affected farmer's milk handler or any other evidence the county committee accepts as an accurate record of milk production and butterfat tests during the base period.

(d) The average number of cows milked during the base period and during each pay period in the application.

(e) If the affected farmer markets his whole milk through a milk handler, a statement from the milk handler showing, for each pay period in the application period, the average price per hundred-weight of whole milk similar in quality to that marketed by the affected farmer during the base period used to determine his normal marketings. If the milk handler has information as to the transportation, administrative, and other costs of marketing which are normally incurred by producers who market through the milk handler but which the affected farmer did not incur because of removal of his whole milk from the market, the average price stated by the milk handler shall be the average gross price paid producers less any such costs. If the milk handler does not have such information, the affected farmer shall furnish a statement setting forth such costs, if any.

(f) The amount of proceeds, if any, received by the affected farmer from the

§ 760.7

marketing of whole milk produced during the application period.

(g) The amount of any payments not subject to refund made to the affected farmer by the milk handler with respect to the whole milk produced during the application period and remove from the commercial market.

(h) To the extent that such information is available to the affected farmer, the name of any pesticide, chemical, or toxic substance used on the farm within 24 months prior to the application period, the use made of the pesticide, chemical, or toxic substance, the approximate date of such use, and the name of the manufacturer and the registration number, if any, on the label on the container of the pesticide, chemical, or toxic substance.

(i) To the extent possible, the source of the pesticide, chemical, or toxic substance that caused the contamination of the whole milk, and the results of any laboratory tests on the feed supply.

(j) Such other information as the county committee may request to enable the county committee or the Deputy Administrator to make the determinations required in this subpart.

[43 FR 10535, Mar. 14, 1978, as amended by Amdt. 1, 44 FR 36360, June 22, 1979]

§ 760.7 Other requirements for affected farmers.

An indemnity payment for milk may be made under this subpart to an affected farmer only under the following conditions:

(a) If the pesticide, chemical, or toxic substance, contaminating the milk was used by the affected farmer, he established each of the following:

(1) That the pesticide, chemical or toxic substance, when used, was registered (if applicable) and approved for use as provided in § 760.2(f);

(2) That the contamination of his milk was not the result of his failure to use the pesticide, chemical, or toxic substance, according to the directions and limitations stated on the label;

(3) That the contamination of his milk was not otherwise his fault.

(b) If the pesticide, chemical, or toxic substance contaminating the milk was not used by the affected farmer, he establishes each of the following:

7 CFR Ch. VII (1-1-10 Edition)

(1) He did not know or have reason to believe that any feed which he purchased and which contaminated his milk contained a harmful residue of a pesticide, a chemical, or a toxic substance or was contaminated by nuclear radiation or fallout.

(2) None of the milk was produced by dairy cattle which he knew, or had reason to know at the time he acquired them, were contaminated with residues of pesticides, chemicals or toxic substances, or by nuclear radiation or fallout.

(3) The contamination of his milk was not otherwise his fault.

(c) The affected farmer has adopted recommended practices for eliminating residues of pesticides, chemicals, or toxic substances or contamination from nuclear radiation or fallout from his milk as soon as practicable following the discovery of the initial contamination.

[43 FR 10535, Mar. 14, 1978, as amended at 47 FR 24689, June 8, 1982]

§ 760.8 Application for payments for milk.

The affected farmer or his legal representative, as provided in §§ 760.25 and 760.29, must sign and file an application for payment on a form which is approved for that purpose by the Deputy Administrator. The form must be filed with the county FSA office for the county where the farm headquarters are located no later than December 31 following the end of the fiscal year in which the loss occurred, or such later date as the Deputy Administrator may specify. The application for payment shall cover application periods of at least 28 days, except that, if the entire application period, or the last application period, is shorter than 28 days, applications for payment may be filed for such shorter period. The application for payment shall be accompanied by the information required by § 760.6 as well as any other information which will enable the county committee to determine whether the making of an indemnity payment is precluded for any of the reasons set forth in § 760.7. Such information shall be submitted
