

§ 948.30

7 CFR Ch. IX (1-1-10 Edition)

§ 948.30 Granting exemptions.

INSPECTION

An area committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

§ 948.40 Inspection and certification.

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond his control or reasonable expectations;

(a) During any period in which the handling of potatoes is regulated pursuant to § 948.20 through § 948.24, inclusive, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal or a Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved of such requirements by § 948.22(b), § 948.23, or § 948.40(b).

(b) That by reason of regulations issued pursuant to § 948.20 or § 948.22, the applicant will be prevented as a producer from shipping or having shipped as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof.

(b) Rules may be issued by the Secretary, upon recommendation of the Colorado Potato Committee requiring inspection on regraded, resorted or repacked lots, or providing for special inspection requirements or relief therefrom. Such rules may provide distinctions, insofar as practical, between handling at shipping point and handling in receiving markets within the production area.

(c) Each such certificate issued shall permit the person identified therein to ship or have shipped the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

(c) Upon recommendation of an area committee and approval by the Secretary, any or all potatoes so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee. Master containers may bear the identification instead of the individual containers within said master container.

§ 948.31 Investigation.

An area committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

§ 948.32 Appeal.

If any applicant for exemption certificates is dissatisfied with the determination by an area committee with respect to his application, he may file an appeal with the committee. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal.

(e) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

RESEARCH AND DEVELOPMENT

§ 948.35 Research and development.

The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and may make available committee information and data to any person, or to any employee of an agency or its agent, authorized by the committee as its agent with the approval of the Secretary, to conduct such projects.

(f) Area committees with the approval of the Colorado Potato Committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of potatoes by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee
