§ 96.9 Casings admitted on disinfection;
sealing; transfer and disinfection.

Foreign animal casings offered for
importation into the United States
which are admitted upon disinfection
shall be handled as follows:

(a) The containers of such casings
shall be sealed on the steamship pier or
other place of first arrival. Four seals
shall be affixed to both ends of each
tierce, barrel, and similar container in
the space where the ends of the con-
tainer enter the staves, by means of
red sealing wax imprinted with the No.
3 Veterinary Services brass brand from
which “INSP’D & P’S’D” and the estab-
ishment number have been removed.

(b) Uncertified animal casings sealed
as above indicated shall be transferred
from the steamship pier or other place
of first arrival to the premises of the
importer or other designated place,
where they shall be disinfected by the
importer under the supervision of an
APHIS inspector before they are of-
f ered for sale. The object of this ruling
is to place full responsibility for dis-
infection of casings on the original im-
porter and to prevent the sale of cas-
ings subject to disinfection by the pur-
chaser.
