§ 435.302 Definitions.

(a) ANSI means American National Standards Institute.

(c) ASTM means American Society of Testing and Measurement.

(d) British thermal unit (Btu) means approximately the amount of heat required to raise the temperature of one pound of water from 59 °F to 60 °F.

(e) Building means any new residential structure:

(1) That includes or will include a heating or cooling system, or both, or a domestic hot water system, and effective energy conservation features will be incorporated into the designs of all new Federal residential buildings for which design for construction began January 3, 2007.

(3) That includes or will include an attached, integral, or freestanding heating or cooling system, or both, and a domestic hot water system that uses energy efficiently.
