Department of Energy

to transmit Restricted Data to the permittee.

§ 1016.11 Cancellation of requests for security facility approval.

When a request for security facility approval is to be withdrawn or cancelled, the DOE Operations Office will be notified by the requester immediately by telephone and confirmed in writing so that processing of this approval may be terminated.

§ 1016.12 Termination of security facility approval.

Security facility approval will be terminated when:

- (a) There is no longer a need to use, process, store, reproduce, transmit, or handle Restricted Data at the facility; or
- (b) The DOE makes a determination that continued security facility approval is not in the interest of national security.

In such cases the permittee will be notified in writing of the determination, and the procedures outlined in §1016.39 of this part will apply.

§ 1016.21 Protection of Restricted Data in storage.

- (a) Persons who possess Restricted Data pursuant to an Access Permit shall store Secret and Confidential documents and material when not in use in accordance with one of the following methods:
- (1) In a locked vault, safe, or safetype steel file cabinet having a 3-position dial-type combination lock; or
- (2) In a dual key, bank safety deposit box: or
- (3) In a steel file cabinet secured by a steel lock bar and a 3-position dialtype changeable combination padlock; or
- (4) In a locked steel file cabinet when located in a security area established under §1016.23 or when the cabinet or the place in which the cabinet is located is under DOE-approved intrusion alarm protection.
- (b) Changes of combination: Each permittee shall change the combination on locks of his safekeeping equipment whenever such equipment is placed in use, whenever an individual knowing the combination no longer re-

quires access to the repository as a result of change in duties or position in the permittee's organization, or termination of employment with the permittee or whenever the combination has been subjected to compromise, and in any event at least once a year. Permittees shall classify records of combinations no lower than the highest classification of the documents and material authorized for storage in the safekeeping equipment concerned.

(c) The lock on safekeeping equipment of the type specified in paragraph (a)(4) of this section shall be replaced immediately whenever a key is lost.

§ 1016.22 Protection while in use

While in use, documents and material containing Restricted Data shall be under the direct control of an appropriately cleared individual, and the Restricted Data shall be capable of being removed from sight immediately.

§ 1016.23 Establishment of security areas.

- (a) When, because of their nature or size, it is impracticable to safeguard documents and material containing Restricted Data in accordance with the provisions of §§ 1016.21 and 1016.22, a security area to protect such documents and material shall be established.
- (b) The following controls shall apply to security areas:
- (1) Security areas shall be separated from adjacent areas by a physical barrier designed to prevent entrance into such areas, and access to the Restricted Data within the areas, by unauthorized individuals.
- (2) During working hours, admittance shall be controlled by an appropriately cleared individual posted at each unlocked entrance.
- (3) During nonworking hours, admittance shall be controlled by protective personnel on patrol, with protective personnel posted at unlocked entrances, or by such intrusion alarm system as DOE may approve.
- (4) Each individual authorized to enter a security area shall be issued a distinctive badge or pass when the number of employees assigned to the area exceeds thirty.
