## § 603.665 Periodic audits of nonprofit participants.

An expenditure-based TIA is an assistance instrument subject to the Single Audit Act (31 U.S.C. 7501-7507), so nonprofit participants are subject to the requirements under that Act and OMB Circular A-133. Specifically, the requirements are those in:

(a) 10 CFR 600.226 for State and local governments; and

## 10 CFR Ch. II (1-1-11 Edition)

(b) 10 CFR 600.126 for other nonprofit organizations.

## § 603.670 Flow down audit requirements to subrecipients.

(a) In accordance with § 603.610, an expenditure-based TIA must require participants to flow down the same audit requirements to a subrecipient that would apply if the subrecipient were a participant.

(b) For example, a for-profit participant that is audited by the DCAA:

(1) Would flow down to a university subrecipient the Single Audit Act requirements that apply to a university participant;

(2) Could enter into a subaward allowing a for-profit participant, under the circumstances described in § 603.650(a), to use an IPA to do its audits.

(c) This policy applies to subawards for substantive performance of portions of the RD&D project supported by the TIA, and not to participants' purchases of goods or services needed to carry out the RD&D.

## § 603.675 Reporting use of IPA for subawards.

An expenditure-based TIA should require participants to report to the contracting officer when they enter into any subaward allowing a for-profit subawardee to use an IPA, as described in § 603.670(b)(2).

(a) With the two exceptions described in paragraph (b) of this section, the contracting officer must require a for-profit firm to purchase real property or equipment with its own funds that are separate from the RD&D project. The contracting officer should allow the firm to charge to an expenditure-based TIA only depreciation or use charges for real property or equipment (and the cost estimate for a fixed-support TIA only would include those costs). Note that the firm must charge depreciation consistently with its usual accounting practice. Many firms treat depreciation as an indirect cost. Any firm that usually charges depreciation indirectly
