

## § 615.5350

(iii) The institution's capital, adverse assets (including nonaccrual and nonperforming loans), allowance for loss, and other ratios compared to the ratios of its peers or industry norms;

(iv) How far an institution's ratios are below the minimum requirements;

(v) The estimated rate at which the institution can reasonably be expected to generate additional earnings;

(vi) The effect of the business changes required to increase capital;

(vii) The institution's previous compliance practices, as appropriate;

(viii) The views of the institution's directors and senior management regarding the plan; and

(ix) Any other facts or circumstances that the FCA deems relevant.

(3) An institution shall be deemed to be in compliance with the surplus and collateral requirements of this subpart if it is in compliance with a capital restoration plan that is approved by the Farm Credit Administration within 180 days following the end of the quarter in which these regulations become effective.

### Subpart L—Establishment of Minimum Capital Ratios for an Individual Institution

SOURCE: 62 FR 4448, Jan. 30, 1997, unless otherwise noted.

#### § 615.5350 General—Applicability.

(a) The rules and procedures specified in this subpart are applicable to a proceeding to establish required minimum capital ratios that would otherwise be applicable to an institution under §§ 615.5205, 615.5330, and 615.5335. The Farm Credit Administration is authorized to establish such minimum capital requirements for an institution as the Farm Credit Administration, in its discretion, deems to be necessary or appropriate in light of the particular circumstances of the institution. Proceedings under this subpart also may be initiated to require an institution having capital ratios greater than those set forth in §§ 615.5205, 615.5330, or 615.5335 to continue to maintain those higher ratios.

(b) The Farm Credit Administration may require higher minimum capital ratios for an individual institution in

## 12 CFR Ch. VI (1–1–11 Edition)

view of its circumstances. For example, higher capital ratios may be appropriate for:

(1) An institution receiving special supervisory attention;

(2) An institution that has, or is expected to have, losses resulting in capital inadequacy;

(3) An institution with significant exposure due to operational risk, interest rate risk, the risks from concentrations of credit, certain risks arising from other products, services, or related activities, or management's overall inability to monitor and control financial risks presented by concentrations of credit and related services activities;

(4) An institution exposed to a high volume of, or particularly severe, problem loans;

(5) An institution that is growing rapidly; or

(6) An institution that may be adversely affected by the activities or condition of System institutions with which it has significant business relationships or in which it has significant investments.

(7) An institution with significant exposures to declines in net income or in the market value of its capital due to a change in interest rates and/or the exercising of embedded or explicit options.

#### § 615.5351 Standards for determination of appropriate individual institution minimum capital ratios.

The appropriate minimum capital ratios for an individual institution cannot be determined solely through the application of a rigid mathematical formula or wholly objective criteria. The decision is necessarily based in part on subjective judgment grounded in Agency expertise. The factors to be considered in the determination will vary in each case and may include, for example:

(a) The conditions or circumstances leading to the Farm Credit Administration's determination that higher minimum capital ratios are appropriate or necessary for the institution;

(b) The exigency of those circumstances or potential problems;
