§ 704.2 Definitions.

Collateralized debt obligation (CDO) means a debt security collateralized by mortgage-backed securities, other asset-backed securities, or corporate obligations in the form of nonmortgage loans or debt. For purposes of part 704, the term CDO does not include:

1. Senior tranches of Re-REMIC's consisting of senior mortgage-and asset-backed securities;
2. Any security that is fully guaranteed as to principal and interest by the U.S. Government or its agencies or its sponsored enterprises; or
3. Any security collateralized by other securities where all the underlying securities are fully guaranteed as to principal and interest by the U.S. Government or its agencies or its sponsored enterprises.

§ 704.3 Corporate credit union capital.

(a) Capital plan. A corporate credit union must develop and ensure implementation of written short- and long-term capital goals, objectives, and strategies which provide for the building of capital consistent with regulatory requirements, the maintenance of sufficient capital to support the risk exposures that may arise from current and projected activities, and the periodic review and reassessment of the

National Credit Union Administration
(b) Requirements for membership capital—(1) Form. Membership capital funds may be in the form of a term certificate or an adjusted balance account.

(2) Disclosure. The terms and conditions of a membership capital account must be disclosed to the recorded owner of the account at the time the account is opened and at least annually thereafter.

(i) The initial disclosure must be signed by either all of the directors of the member credit union or, if authorized by board resolution, the chair and secretary of the board; and

(ii) The annual disclosure notice must be signed by the chair of the corporate credit union. The chair must sign a statement that certifies that the notice has been sent to member credit unions with membership capital accounts. The certification must be maintained in the corporate credit union's files and be available for examiner review.

(3) Three-year remaining maturity. When a membership capital account has been placed on notice or has a remaining maturity of less than three years, the amount of the account that can be considered membership capital is reduced by a constant monthly amortization that ensures membership capital is fully amortized one year before the date of maturity or one year before the end of the notice period. The full balance of a membership capital account being amortized, not just the remaining non-amortized portion, is available to absorb losses in excess of the sum of retained earnings and paid-in capital until the funds are released by the corporate credit union at the time of maturity or the conclusion of the notice period.

(4) Release. Membership capital may not be released due solely to the merger, charter conversion or liquidation of a member credit union. In the event of a merger, the membership capital transfers to the continuing credit union. In the event of a charter conversion, the membership capital transfers to the new institution. In the event of liquidation, the membership capital may be released to facilitate the pay-out of shares with the prior written approval of the OCCU Director.

(5) Sale. A member may sell its membership capital to another member in the corporate credit union's field of membership, subject to the corporate credit union's approval.

(6) Liquidation. In the event of liquidation of a corporate credit union, membership capital is payable only after satisfaction of all liabilities of the liquidation estate, including uninsured share obligations to shareholders and the National Credit Union Share Insurance Fund (NCUSIF), but excluding paid-in capital.

(7) Merger. In the event of a merger of a corporate credit union, membership capital transfers to the continuing corporate credit union. The minimum three-year notice period for withdrawal of membership capital remains in effect.

(8) Adjusted balance accounts:

(i) May be adjusted no more frequently than once every six months; and

(ii) Must be adjusted in relation to a measure, e.g., one percent of a member credit union's assets, established and disclosed at the time the account is opened without regard to any minimum withdrawal period. If the measure is other than assets, the corporate credit union must address the measure's permanency characteristics in its capital plan.

(iii) Notice of withdrawal. Upon written notice of intent to withdraw membership capital, the balance of the account will be frozen (no further adjustments) until the conclusion of the notice period.

(9) Grandfathering. Membership capital issued before the effective date of this regulation is exempt from the limitation of §704.3(b)(8)(i).

(c) Requirements for paid-in capital—(1) Disclosure. The terms and conditions of any paid-in capital instrument must be disclosed to the recorded owner of the instrument at the time the instrument is created and must be signed by either all of the directors of the member credit union or, if authorized by board resolution, the chair and secretary of the board.

(2) Release. Paid-in capital may not be released due solely to the merger,
charter conversion or liquidation of a member credit union. In the event of a merger, the paid-in capital transfers to the continuing credit union. In the event of a charter conversion, the paid-in capital transfers to the new institution. In the event of liquidation, the paid-in capital may be released to facilitate the payout of shares with the prior written approval of the OCCU Director.

(3) Callability. Paid-in capital accounts are callable on a pro-rata basis across an issuance class only at the option of the corporate credit union and only if the corporate credit union meets its minimum level of required capital and NEV ratios after the funds are called.

(4) Liquidation. In the event of liquidation of the corporate credit union, paid-in capital is payable only after satisfaction of all liabilities of the liquidation estate, including uninsured share obligations to shareholders, the NCUSIF, and membership capital holders.

(5) Merger. In the event of a merger of a corporate credit union, paid-in capital shall transfer to the continuing corporate credit union.

(6) Paid-in capital. Paid-in capital includes both member and nonmember paid-in capital.

(i) Member paid-in capital means paid-in capital that is held by the corporate credit union’s members. A corporate credit union may not condition membership, services, or prices for services on a credit union’s ownership of paid-in capital.

(ii) Nonmember paid-in capital means paid-in capital that is not held by the corporate credit union’s members.

(7) Grandfathering. A corporate credit union’s authority to include paid-in capital as a component of capital is governed by the regulation in effect at the time the paid-in capital was issued. When a grandfathered paid-in capital instrument has a remaining maturity of less than 3 years, the amount that may be considered paid-in capital is reduced by a constant monthly amortization that ensures the paid-in capital is fully amortized 1 year before the date of maturity. The full balance of grandfathered paid-in capital being amortized, not just the remaining non-amortized portion, is available to absorb losses in excess of retained earnings until the funds are released by the corporate credit union at maturity.

(d) Capital ratio. A corporate credit union will maintain a minimum capital ratio of 4 percent, except as otherwise provided in this part. A corporate credit union must calculate its capital ratio at least monthly.

(e) Individual capital ratio requirement—(1) When significant circumstances or events warrant, the OCCU Director may require a different minimum capital ratio for an individual corporate credit union based on its circumstances. Factors that may warrant a different minimum capital ratio include, but are not limited to:

(i) An expectation that the corporate credit union has or anticipates losses resulting in capital inadequacy;

(ii) Significant exposure exists, unsupported by adequate capital or risk management processes, due to credit, liquidity, market, fiduciary, operational, and similar types of risks;

(iii) A merger has been approved; or

(iv) An emergency exists because of a natural disaster.

(2) When the OCCU Director determines that a different minimum capital ratio is necessary or appropriate for a particular corporate credit union, he or she will notify the corporate credit union in writing of the proposed capital ratio and the date by which the capital ratio must be reached. The OCCU Director also will provide an explanation of why the proposed capital ratio is considered necessary or appropriate.

(3)(i) The corporate credit union may respond to any or all of the items in the notice. The response must be in writing and delivered to the OCCU Director within 30 calendar days after the date on which the corporate credit union received the notice. The OCCU Director may shorten the time period when, in its opinion, the condition of the corporate credit union so requires, provided that the corporate credit union is informed promptly of the new time period, or with the consent of the corporate credit union. In its discretion, the OCCU Director may extend the time period for good cause.
(ii) Failure to respond within 30 calendar days or such other time period as may be specified by the OCCU Director shall constitute a waiver of any objections to any item in the notice. Failure to address any item in a response shall constitute a waiver of any objection to that item.

(iii) After the close of the corporate credit union’s response period, the OCCU Director will decide, based on a review of the corporate credit union’s response and other information concerning the corporate credit union, whether a different minimum capital ratio should be established for the corporate credit union and, if so, the capital ratio and the date the requirement must be reached. The corporate credit union will be notified of the decision in writing. The notice will include an explanation of the decision, except for a decision not to establish a different minimum capital ratio for the corporate credit union.

(f) Failure to maintain minimum capital ratio requirement. When a corporate credit union’s capital ratio falls below the minimum required by paragraphs (d) or (e) of this section, or appendix B to this part, as applicable, operating management of the corporate credit union must notify its board of directors, supervisory committee, and the OCCU Director within 10 calendar days.

(g) Capital restoration plan. (1) A corporate credit union must submit a plan to restore and maintain its capital ratio at the minimum requirement when either of the following conditions exist:

(i) The capital ratio falls below the minimum requirement and is not restored to the minimum requirement by the next month end; or

(ii) Regardless of whether the capital ratio is restored by the next month end, the capital ratio falls below the minimum requirement for three months in any 12-month period.

(2) The capital restoration plan must, at a minimum, include the following:

(i) Reasons why the capital ratio fell below the minimum requirement;

(ii) Descriptions of steps to be taken to restore the capital ratio to the minimum requirement within specific time frames;

(iii) Actions to be taken to maintain the capital ratio at the minimum required level and increase it thereafter;

(iv) Balance sheet and income projections, including assumptions, for the current calendar year and one additional calendar year; and

(v) Certification from the board of directors that it will follow the proposed plan if approved by the OCCU Director.

(3) The capital restoration plan must be submitted to the OCCU Director within 30 calendar days of the occurrence. The OCCU Director will respond to the corporate credit union regarding the adequacy of the plan within 45 calendar days of its receipt.

(h) Capital directive. (1) If a corporate credit union fails to submit a capital restoration plan; or the plan submitted is not deemed adequate to either restore capital or restore capital within a reasonable time; or the credit union fails to implement its approved capital restoration plan, NCUA may issue a capital directive.

(2) A capital directive may order a corporate credit union to:

(i) Achieve adequate capitalization within a specified time frame by taking any action deemed necessary, including but not limited to the following:

(A) Increase the amount of capital to specific levels;

(B) Reduce dividends;

(C) Limit receipt of deposits to those made to existing accounts;

(D) Cease or limit issuance of new accounts or any or all classes of accounts;

(E) Cease or limit lending or making a particular type or category of loans;

(F) Cease or limit the purchase of specified investments;

(G) Limit operational expenditures to specified levels;

(H) Increase and maintain liquid assets at specified levels; and

(I) Restrict or suspend expanded authorities issued under appendix B of this part.

(ii) Adhere to a previously submitted plan to achieve adequate capitalization.

(iii) Submit and adhere to a capital plan acceptable to NCUA describing the means and a time schedule by
which the corporate credit union shall achieve adequate capitalization.

(iv) Meet with NCUA.

(v) Take a combination of these actions.

(3) Prior to issuing a capital directive, NCUA will notify a corporate credit union in writing of its intention to issue a capital directive.

(i) The notice will state:

(A) The reasons for the issuance of the directive; and

(B) The proposed content of the directive.

(ii) A corporate credit union must respond in writing within 30 calendar days of receipt of the notice stating that it either concurs or disagrees with the notice. If it disagrees with the notice, it must state the reasons why the directive should not be issued and/or propose alternative contents for the directive. The response should include all matters that the corporate credit union wishes to be considered. For good cause, including the following conditions, the response time may be shortened or lengthened:

(A) When the condition of the corporate requires, and the corporate credit union is notified of the shortened response period in the notice; 

(B) With the consent of the corporate credit union; or

(C) When the corporate credit union already has advised NCUA that it cannot or will not achieve adequate capitalization.

(iii) Failure to respond within 30 calendar days, or another time period specified in the notice, shall constitute a waiver of any objections to the proposed directive.

(4) After the closing date of the corporate credit union's response period, or the receipt of the response, if earlier, NCUA shall consider the response and may seek additional information or clarification. Based on the information provided during the response period, NCUA will determine whether or not to issue a capital directive and, if issued, the form it should take.

(5) Upon issuance, a capital directive and a statement of the reasons for its issuance will be delivered to the corporate credit union. A directive is effective immediately upon receipt by the corporate credit union, or upon such later date as may be specified therein, and shall remain effective and enforceable until it is stayed, modified, or terminated by NCUA.

(6) A capital directive may be issued in addition to, or in lieu of, any other action authorized by law in response to a corporate credit union's failure to achieve or maintain the applicable minimum capital ratios.

(7) Upon a change in circumstances, a corporate credit union may request reconsideration of the terms of the directive. Requests that are not based on a significant change in circumstances or are repetitive or frivolous will not be considered. Pending a decision on reconsideration, the directive shall continue in full force and effect.

(i) Earnings retention requirement. A corporate credit union must increase retained earnings if the prior month-end retained earnings ratio is less than 2 percent.

(1) Its retained earnings must increase:

(i) During the current month, by an amount equal to or greater than the monthly earnings retention amount; or

(ii) During the current and prior two months, by an amount equal to or greater than the quarterly earnings retention amount.

(2) Earnings retention amounts are calculated as follows:

(i) The monthly earnings retention amount is determined by multiplying the earnings retention factor by the prior month-end moving daily average net assets; and

(ii) The quarterly earnings retention amount is determined by multiplying the earnings retention factor by moving daily average net assets for each of the prior three month-ends.

(3) The earnings retention factor is determined as follows:

(i) If the prior month-end retained earnings ratio is less than 2 percent and the core capital ratio is less than 3 percent, the earnings retention factor is .15 percent per annum; or

(ii) If the prior month-end retained earnings ratio is less than 2 percent and the core capital ratio is equal to or greater than 3 percent, the earnings retention factor is .10 percent per annum.

(4) The OCCU Director may approve a decrease to the earnings retention
amount if it is determined a lesser amount is necessary to avoid a significant adverse impact upon a corporate credit union.

(5) Operating management of the corporate credit union must notify its board of directors, supervisory committee, the OCCU Director and, if applicable, the state regulator within 10 calendar days of determining that the retained earnings ratio has declined below 2 percent. If the decline in the retained earnings ratio is due, in full or in part, to a decline in the dollar amount of retained earnings and the retained earnings ratio is not restored to at least 2 percent by the next month end, a retained earnings action plan is required to be submitted within 30 calendar days.

(6) The retained earnings action plan must be submitted to the OCCU Director and, if applicable, the state regulator and, at a minimum, include the following:

(i) Reasons why the dollar amount of retained earnings has decreased;

(ii) Description of actions to be taken to increase the dollar amount of retained earnings within specific time frames; and

(iii) Monthly balance sheet and income projections, including assumptions, for the next 12-month period.

[62 FR 12938, Mar. 19, 1997, as amended at 67 FR 49540, Aug. 1, 2002] Effective Date Note: At 75 FR 64829, Oct. 20, 2010, §704.3 was revised, effective Oct. 20, 2011. For the convenience of the user, the revised text is set forth as follows:

§ 704.3, Nt.

12 CFR Ch. VII (1–1–11 Edition)

(a) Capital requirements. (1) A corporate credit union must maintain at all times:

(i) A leverage ratio of 4.0 percent or greater;

(ii) A Tier 1 risk-based capital ratio of 4.0 percent or greater; and

(iii) A total risk-based capital ratio of 8.0 percent or greater.

(2) To ensure it meets its capital requirements, a corporate credit union must develop and ensure implementation of written short- and long-term capital goals, objectives, and strategies which provide for the building of capital consistent with regulatory requirements, the maintenance of sufficient capital to support the risk exposures that may arise from current and projected activities, and the periodic review and reassessment of the capital position of the corporate credit union.

(3) Beginning with the first call report submitted on or after October 21, 2013, a corporate credit union must calculate and report to NCUA the ratio of its retained earnings to its moving daily average net assets. If this ratio is less than 0.45 percent, the corporate credit union must, within 30 days, submit a retained earnings accumulation plan to the NCUA for NCUA’s approval. The plan must contain a detailed explanation of how the corporate credit union will accumulate earnings sufficient to meet all its future minimum leverage ratio requirements, including specific semiannual milestones for accumulating retained earnings. In the case of a state-chartered corporate credit union, the NCUA will consult with the appropriate state supervisory authority (SSA) before making a determination to approve or disapprove the plan, and will provide the SSA a copy of the completed plan. If the corporate credit union fails to submit a plan acceptable to NCUA, or fails to comply with any element of a plan approved by NCUA, the corporate will immediately be classified as significantly undercapitalized or, if already significantly undercapitalized, as critically undercapitalized for purposes of prompt corrective actions. The corporate credit union will be subject to all the associated actions under §704.4.

(b) Requirements for nonperpetual capital accounts (NCAs)—(1) Form. NCA funds may be in the form of a term certificate or a no-maturity notice account.

(2) Disclosure. The terms and conditions of a nonperpetual capital account must be disclosed to the recorded owner of the account at the time the account is opened and at least annually thereafter:

(i) The initial NCA disclosure must be signed by either all of the directors of the member credit union or, if authorized by board resolution, the chair and secretary of the board; and

(ii) The annual disclosure notice must be signed by the chair of the corporate credit union. The chair must sign a statement that certifies that the notice has been sent to all entities with NCAs. The certification must be maintained in the corporate credit union’s files and be available for examiner review.

(3) Five-year remaining maturity. When a no-maturity NCA has been placed on notice, or a term account has a remaining maturity of less than five years, the corporate will reduce the amount of the account that can be considered as nonperpetual capital by a constant monthly amortization that ensures the capital is fully amortized one year before the date of maturity or one year before the end of the notice period. The full balance of an NCA being amortized, not just the remaining non-amortized portion, is available to absorb

§ 704.3, Nt.

12 CFR Ch. VII (1–1–11 Edition)
losses in excess of the sum of retained earnings and perpetual contributed capital until the funds are released by the corporate credit union at the time of maturity or the conclusion of the notice period.

(4) Release. Nonperpetual capital may not be released due solely to the merger, charter conversion, or liquidation of the account holder. In the event of a merger, the capital account transfers to the continuing entity. In the event of a charter conversion, the capital account transfers to the new institution. In the event of liquidation, the corporate credit union may redeem NCAs prior to maturity or prior to the end of the notice period only with the prior written approval of the NCUA and, for state chartered corporate credit unions, the approval of the appropriate state regulator.

(5) Redemption. A corporate credit union may redeem NCAs to facilitate the payout of shares, but only with the prior written approval of the NCUA.

(6) Sale. A member may transfer its interest in a nonperpetual capital account to another member or to a nonmember (other than a natural person). At least 14 days before consummating such a transfer, the member must notify the corporate credit union of the pending transfer. The corporate credit union must, within 10 days of such notice, provide the member and the potential transferee all financial information about the corporate credit union that is available to the public or that the corporate credit union has provided to its members, including any call report data submitted by the corporate credit union to NCUA but not yet posted on NCUA’s Web site.

(7) Merger. In the event of a merger of a corporate credit union, nonperpetual capital will transfer to the continuing corporate credit union. The minimum five-year notice period for withdrawal of no-maturity capital remains in effect.

(c) Requirements for perpetual contributed capital (PCC)—(1) Disclosure. The terms and conditions of any perpetual contributed capital instrument must be disclosed to the recorded owner of the instrument at the time the instrument is created and must be signed by either all of the directors of the member credit union or, if authorized by board resolution, the chair and secretary of the board.

(2) Release. Perpetual contributed capital may not be released due solely to the merger, charter conversion or liquidation of a member credit union. In the event of a merger, the perpetual contributed capital transfers to the continuing credit union. In the event of a charter conversion, the perpetual contributed capital transfers to the new institution. In the event of liquidation, the perpetual contributed capital may be released to facilitate the payout of shares with NCUA’s prior written approval.

(3) Callability. A corporate credit union may call perpetual contributed capital instruments only with the prior approval of the NCUA and, for state chartered corporate credit unions, the applicable state regulator. Perpetual contributed capital accounts are callable on a pro-rata basis across an issuance class.

(4) Perpetual contributed capital. A corporate credit union may issue perpetual contributed capital to both members and nonmembers.

(5) The holder of a PCC instrument may transfer its interests in the instrument to another member or to a nonmember (other than a natural person). At least 14 days before consummating such a transfer, the member must notify the corporate credit union of the pending transfer. The corporate credit union must, within 10 days of such notice, provide the member and the potential transferee all financial information about the corporate credit union that is available to the public or that the corporate credit union has provided to its members, including any call report data submitted by the corporate credit union to NCUA but not yet posted on NCUA’s Web site.

(6) A corporate credit union is permitted to condition membership, services, or prices for services on a member’s ownership of PCC, provided the corporate credit union gives existing members at least six months written notice of:

(i) The requirement to purchase PCC, including specific amounts; and

(ii) The effects of a failure to purchase the requisite PCC on the pricing of services or on the member’s access to membership or services.

(d) Individual minimum capital requirements. (1) General. The rules and procedures specified in this paragraph apply to the establishment of an individual minimum capital requirement for a corporate credit union that varies from any of the risk-based capital requirements(s) or leverage ratio requirements that would otherwise apply to the corporate credit union under this part.

(2) Appropriate considerations for establishing individual minimum capital requirements. Minimum capital levels higher than the risk-based capital requirements or the leverage ratio requirement under this part may be appropriate for individual corporate credit unions. The NCUA may establish increased individual minimum capital requirements, including modification of the minimum capital requirements related to being either significantly and critically undercapitalized for purposes of §704.4 of this part, upon a determination that the corporate credit union’s capital is or may become inadequate in view of the credit union’s circumstances. For example, higher capital levels may be appropriate when NCUA determines that:

(i) A corporate credit union is receiving special supervisory attention;
§ 704.3, Nf.

(i) A corporate credit union has or is expected to have losses resulting in capital inadequacy;
(ii) A corporate credit union has a high degree of exposure to interest rate risk, prepayment risk, credit risk, concentration risk, certain risks arising from nontraditional activities or similar risks, or a high proportion of off-balance sheet risk including standby letters of credit;
(iii) A corporate credit union has poor liquidity or cash flow;
(iv) A corporate credit union has poor capital and other indicators of financial stability, particularly as compared with those of similarly situated corporate credit unions; and
(v) The policies and practices of the corporate credit union’s directors, officers, and senior management as well as the internal control and internal audit systems for implementation of such adopted policies and practices.

(b) Procedures—(i) In the case of a state chartered corporate credit union, NCUA will consult with the appropriate state regulator when considering imposing a new minimum capital requirement.

(ii) When the NCUA determines that a minimum capital requirement is necessary or appropriate for a particular corporate credit union, it will notify the corporate credit union in writing of its proposed individual minimum capital requirement; the schedule for compliance with the new requirement; and the specific causes for determining that the higher individual minimum capital requirement is necessary or appropriate for the corporate credit union. The NCUA shall forward the notifying letter to the appropriate state supervisory authority (SSA) and provide a copy to the corporate credit union.

(iii) A corporate credit union’s response must include any information that the credit union wants the NCUA to consider in deciding whether to establish or to amend an individual minimum capital requirement for the corporate credit union, what the individual capital requirement should be, and, if applicable, what compliance schedule is appropriate for achieving the required capital level. The responses of the corporate credit union and SSA must be in writing and must be delivered to the NCUA within 30 days after the date on which the notification was received. The NCUA may extend the time period for good cause, and the time period for response by the insured corporate credit union may be shortened for good cause.

(A) When, in the opinion of the NCUA, the condition of the corporate credit union so requires, and the NCUA informs the corporate credit union of the shortened response period in the notice;

(B) With the consent of the corporate credit union; or

(C) When the corporate credit union already has advised the NCUA that it cannot or will not achieve its applicable minimum capital requirement.

(iv) Failure by the corporate credit union to respond within 30 days, or such other time period as may be specified by the NCUA, may constitute a waiver of any objections to the...
consider a corporate credit union's request such compliance. The NCUA may decline to the corporate credit union's schedule for individual minimum capital requirement or the specified date, the NCUA may amend the union's capital adequacy or its ability to circumstances affecting the corporate credit this section, there is a change in the cir-

sion is made under paragraph (b)(3)(iv) of 

section, that original decision and any compliance sched-

ule established in that decision will continue in full force and effect.

(e) Reservation of authority. The 

NCUA may disregard any transaction en-
tered into primarily for the purpose of reduc-
ing the minimum required amount of regu-

latory capital or otherwise evading the re-

quirements of this section.

(2) Period-end versus average figures. The 

NCUA reserves the right to require a corpo-

rate credit union to compute its capital ratios on the basis of period-end assets rath-
er than average assets when the NCUA deter-

mines this requirement is appropriate to carry out the purposes of this part.

(3) Reservation of authority. (i) Notwith-

standing the definitions of core and supple-

mentary capital in paragraph (d) of this sec-
tion, the NCUA may find that a particular asset or core or supplementary capital com-

ponent has characteristics or terms that di-

minish its contribution to a corporate credit union's ability to absorb losses, and the 

NCUA may require the discounting or deduc-
tion of such asset or component from the computation of core, supplementary, or total capital.

(ii) Notwithstanding appendix C to this Part, the NCUA will look to the substance of a transaction and may find that the assigned risk-weight for any asset, or credit equiva-

lent amount or credit conversion factor for any off-balance sheet item does not appro-

priately reflect the risks imposed on the cor-

dporate credit union. The NCUA may require the corporate credit union to apply another risk-weight, credit equivalent amount, or credit conversion factor that NCUA deems appropriate.

(4) Where practicable, the NCUA will con-

sult with the appropriate state regulator be-

fore taking any action under this paragraph (e) that involves a state chartered corporate credit union.

(5) Before taking any action under this paragraph (e), NCUA will provide the corporate credit union with written notice of the intended action and the reasons for such action. The corporate credit union will have
§ 704.4 Board responsibilities.

(a) General. A corporate credit union’s board of directors must approve comprehensive written strategic plans and policies, review them annually, and provide them upon request to the auditors, supervisory committee, and NCUA.

(b) Policies. A corporate credit union’s policies must be commensurate with the scope and complexity of the corporate credit union.

(c) Other requirements. The board of directors of a corporate credit union must ensure:

(1) Senior managers have an in-depth, working knowledge of their direct areas of responsibility and are capable of identifying, hiring, and retaining qualified staff;

(2) Qualified personnel are employed or under contract for all line support and audit areas, and designated backup personnel or resources with adequate cross-training are in place;

(3) GAAP is followed, except where law or regulation has provided for a departure from GAAP;

(4) Accurate balance sheets, income statements, and internal risk assessments (e.g., risk management measures of liquidity, market, and credit risk associated with current activities) are produced timely in accordance with §§704.6, 704.8, and 704.9;

(5) Systems are audited periodically in accordance with industry-established standards;

(6) Financial performance is evaluated to ensure that the objectives of the corporate credit union and the responsibilities of management are met; and

(7) Planning addresses the retention of external consultants, as appropriate, to review the adequacy of technical, human, and financial resources dedicated to support major risk areas.

Effective Date Notes: 1. At 75 FR 64836, Oct. 20, 2010, §704.4 was redesignated to 704.13, effective Jan. 18, 2011.

2. At 75 FR 64836, Oct. 20, 2010, §704.4 was added, effective Oct. 20, 2011. For the convenience of the user, the added text is set forth as follows:
