(b) Upon request by the Commission, a designated contract market shall file with the Commission a written demonstration, containing such supporting data, information and documents, in the form and manner and within such time as the Commission may specify, that the designated contract market is in compliance with one or more designation criteria or core principles as specified in the request, or that is requested by the Commission to enable the Commission to satisfy its obligations under the Act.

APPENDIX A TO PART 38—GUIDANCE ON COMPLIANCE WITH DESIGNATION CRITERIA

This appendix provides guidance on meeting the criteria for designation under Sections 5(b) and 6 of the Act and this part, both initially and on an ongoing basis. The guidance following each designation criterion is illustrative only of the types of matters an applicant may address, as applicable, and is not intended to be used as a mandatory checklist. Addressing the issues and questions set forth in this appendix would help the Commission in its consideration of whether the application has met the criteria for designation. To the extent that compliance with, or satisfaction of, a criterion for designation is not self-explanatory from the face of the contract market's rules (as defined in §40.1 of this chapter), the application should include an explanation or other form of documentation demonstrating that the applicant meets the designation criteria of Section 5(b) of the Act.

Designation Criterion 1 of section 5(b) of the Act: *IN GENERAL—To be designated as a contract market, the board of trade shall demonstrate to the Commission that the board of trade meets the criteria specified in this appendix.*

A board of trade preparing to submit to the Commission an application for designation as a contract market is encouraged to contact Commission staff for guidance and assistance in preparing an application. Applicants may submit a draft application for review and feedback prior to the submission of an actual application without triggering the application review procedures of §38.3.

Designation Criterion 2 of section 5(b) of the Act: *PREVENTION OF MARKET MANIPULATION—The board of trade shall have the capacity to prevent market manipulation through market surveillance, compliance, and enforcement practices and procedures, including methods for conducting real-time monitoring of*

trading and comprehensive and accurate trade reconstructions.

A designation application should demonstrate a capacity to prevent market manipulation, including that the contract market has trading and participation rules deterring abuses and a dedicated regulatory department, or an effective delegation of that function.

Designation Criterion 3 of section 5(b) of the Act: *FAIR AND EQUITABLE TRADING—The board of trade shall establish and enforce trading rules to ensure fair and equitable trading through the facilities of the contract market, and the capacity to detect, investigate, and discipline any person that violates the rules. The rules may authorize—(A) transfer trades or office trades; (B) an exchange of—(i) futures in connection with a cash commodity transaction; (ii) futures for cash commodities; or (iii) futures for swaps; or (C) a futures commission merchant, acting as principal or agent, to enter into or confirm the execution of a contract for the purchase or sale of a commodity for future delivery if the contract is reported, recorded, or cleared in accordance with the rules of the contract market or a derivatives clearing organization.*

(a) Establishing and enforcing trading rules to ensure fair and equitable trading on a contract market, among other things, includes providing to market participants, on a fair, equitable and timely basis, information regarding, prices, bids and offers, as applicable to the market.

(b) Such trading rules should be designed with adequate specificity.

(c) A contract market that authorizes transfer trades or office trades; an exchange of futures for physicals or futures for swaps; or any other non-competitive transactions, including block trades, should have rules particularly authorizing such transactions and establishing appropriate recordkeeping requirements.

Designation Criterion 4 of section 5(b) of the Act: *TRADE EXECUTION FACILITY—The board of trade shall—(A) establish and enforce rules defining, or specifications detailing, the manner of operation of the trade execution facility maintained by the board of trade, including rules or specifications describing the operation of any electronic matching platform; and (B) demonstrate that the trade execution facility operates in accordance with the rules or specifications.*

(a) An application of a board of trade to be designated as a contract market should include the system's trade-matching algorithm and order entry procedures. An application involving a trade-matching algorithm that is based on order priority factors other than price and time should include a brief explanation of the algorithm.

(b) A designated contract market's specifications on initial and periodic objective
