

## § 707.1

707.5 Policy.

### Subpart B—Water Resources Council Implementing Procedures

707.6 Early involvement in private, State, local, and other non-Federal activities requiring Federal action.

707.7 Ensuring that environmental documents are actually considered in agency decisionmaking.

707.8 Typical classes of action requiring similar treatment under NEPA.

707.9 Tiering.

707.10 Scoping.

707.11 Environmental information.

AUTHORITY: National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*); E.O. 11991, 42 FR 26967; 3 CFR 1977 Compl. p. 123.

SOURCE: 44 FR 69922, Dec. 5, 1979, unless otherwise noted.

### Subpart A—General

#### § 707.1 Background.

(a) The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) establishes national policies and goals for the protection and enhancement of the environment. Section 102(2) of NEPA contains certain policy statements and procedural requirements directed toward the attainment of such goals. In particular, all Federal agencies are required to give appropriate consideration to the environmental effects of their proposed actions in their decisionmaking and to prepare detailed environmental statements on recommendations or reports on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment.

(b) Executive Order 11991 of May 24, 1977, amended E.O. 11514 and directed the Council on Environmental Quality (CEQ) to issue regulations to implement the procedural provisions of NEPA. Accordingly, CEQ issued final NEPA regulations (40 CFR Parts 1500–1508) on November 29, 1978, which are binding on all Federal agencies as of July 30, 1979. Section 1507.3(a) of CEQ regulations provides that each Federal agency shall as necessary adopt implementing procedures to supplement the regulations. Section 1507.3(b) of the CEQ NEPA regulations identifies those

## 18 CFR Ch. VI (4–1–11 Edition)

sections of the regulations which must be addressed in agency procedures.

#### § 707.2 Purpose.

The purpose of this NEPA rule is to establish Water Resources Council (WRC) policy and procedures which supplement the CEQ NEPA regulations by making them more specifically applicable to our activities and which implement § 1507.3 (a) and (b) of the CEQ NEPA regulations. This rule will be revised to incorporate detailed procedures integrating NEPA and the Principles and Standards (P&S) and applicable parts of the procedures for Federal participants in the preparation of comprehensive regional or river basin plans when these procedures are developed. This NEPA rule must be used in conjunction with the CEQ NEPA regulations. Compliance with both the CEQ NEPA regulations and this NEPA rule is required. Information in the CEQ NEPA regulations generally is not repeated here to avoid needless duplication. This NEPA rule supersedes WRC Policy Statement No. 2—Environmental Statements-Framework Studies and Assessments and Regional or River Basin Plans.

#### § 707.3 Applicability.

This NEPA rule applies to the WRC as an independent executive agency and to Title II river basin commissions (RBC's) and other entities (such as interagency committees) preparing studies and plans for WRC review and transmittal to the President. Although Title III State planning grants do not normally require environmental assessments or statements (§ 707.8 (a)(3)), the WRC will encourage States receiving grants to give appropriate consideration to the environmental effects of their proposed actions and to incorporate suitable environmental conditions, to the extent permitted by State law. The preamble to the WRC Title III guidelines will reflect this policy.

#### § 707.4 Definitions.

(a) *Responsible Federal Official (RFO)*. The “Responsible Federal Official (RFO)” is the official of the Federal Government designated by this rule

## Water Resources Council

## § 707.5

who shall be responsible for the implementation of NEPA, including regulations issued by the CEQ (40 CFR Parts 1500 through 1508) and the rule. Of particular importance, the RFO determines the need for an Environmental Assessment or Environmental Impact Statement (EIS) in accordance with § 707.8 (a)(2) and (b), and if an EIS is required, files the draft and final EIS, makes the Record of Decision and assures appropriate public involvement in accordance with 40 CFR 1506.6. The Chairman of the RBC's are the RFO's for the purpose of ensuring compliance with the provisions of NEPA and the P&S for those activities which are funded in whole or in part through the WRC and carried out by the RBC's, such as framework studies, special studies, comprehensive coordinated joint plans, regional or river basin (Level B) plans and revisions thereof. The Chairman of the WRC, or his designee, is the RFO for complying with the provisions of NEPA and the P&S for those framework studies, regional or river basin plans, comprehensive coordinated joint plans, and special studies which are funded by the WRC and carried out by WRC interagency committees and WRC coordinating committees; principles, standards and procedures for planning water and related land resources; rules and regulations of the WRC, and other activities of the WRC.

(b) *Major Federal Action*. "Major Federal action" as defined in the CEQ NEPA regulations (40 CFR 1508.18) includes actions with effects that may be major and which are potentially subject to Federal control and responsibility. Such actions include WRC interagency committee, and WRC coordinating committee adoption, approval or submittal of plans for water and related land resources. For the purpose of this rule, RBC adoption, approval or submittal of a plan for water and related land resources is considered a major Federal action by virtue of the scope and significant environmental consequences of such actions, the participation of Federal officials in these RBC actions, and the WRC requirements for Federal agency consistency with approved regional water resource management plans (WRC Policy State-

ment No. 4—The Utilization of Comprehensive Regional Water Resource Management Plans).

### § 707.5 Policy.

(a) *General*. The WRC and the RBC's administer certain programs that must comply with both NEPA and the P&S. Generally, the environmental analysis done during the development of the Environmental Quality (EQ) account under the P&S partially overlaps the analysis required in an EIS, presenting an opportunity for integration. The requirements of NEPA and the P&S will be carried out by integrating the two processes to the fullest extent practicable and by combining to the fullest extent practicable the Environmental Assessment or, when required, Environmental Impact Statement, with each study or plan into a single document that will comply fully with the requirements of both processes, as provided by the CEQ NEPA regulations (40 CFR 1502.10 and 1506.4).

(b) *Public participation*. For each environmental assessment and impact statement, the appropriate RFO will establish a specific program and schedule for public participation of all interested parties in the NEPA process, and shall otherwise provide for public involvement in accordance with the CEQ NEPA regulations (40 CFR 1506.6).

(c) *Environmental Impact Statements*. Environmental Impact Statements (EIS's) as required under Section 102(2)(C) of NEPA will be prepared by river basin commissions, interagency committee, or WRC coordinating committees for comprehensive coordinated joint plans and regional or river basin (Level B) plans, or revisions thereof. The Environmental Impact Statement will be prepared concurrently with the preparation of the study or plan. The statement will reflect the level of planning involved and will address those environmental considerations and alternatives relevant to decisionmaking at that level (see § 707.9 Tiering). Review and comment on the draft study or plan and the incorporated draft environmental impact statement will be performed simultaneously, and the final combined report will incorporate and discuss the comments received on the draft.
