HTSUS. “HTSUS” means the Harmonized Tariff Schedule of the United States.

Knit-to-shape articles. “Knit-to-shape,” when used with reference to sweaters or other apparel articles, means any apparel article of which 50 percent or more of the exterior surface area is formed by major parts that have been knitted or crocheted directly to the shape used in the apparel article, with no consideration being given to patch pockets, appliques, or the like. Minor cutting, trimming, or sewing of those major parts will not affect the determination of whether an apparel article is “knit-to-shape.”

Knit-to-shape components. “Knit-to-shape,” when used with reference to textile components, means components that are knitted or crocheted from a yarn directly to a specific shape containing a self-start edge. Minor cutting or trimming will not affect the determination of whether a component is “knit-to-shape.”

Major parts. “Major parts” means integral components of an apparel article but does not include collars, cuffs, waistbands, plackets, pockets, linings, paddings, trim, accessories, or similar parts or components.

NAFTA. “NAFTA” means the North American Free Trade Agreement entered into by the United States, Canada, and Mexico on December 17, 1992.

Originating. “Originating” means having the country of origin determined by application of the provisions of §102.21 of this chapter.

Preferential treatment. “Preferential treatment” means entry, or withdrawal from warehouse for consumption, in the customs territory of the United States free of duty and free of any quantitative limitations as provided in 19 U.S.C. 3721.

Wholly assembled in. When used with reference to a textile or apparel article in the context of one or more beneficiary countries or one or more lesser developed beneficiary countries, the expression “wholly assembled in” means that all of the components of the textile or apparel article (including thread, decorative embellishments, buttons, zippers, or similar components) were joined together in one or more beneficiary countries or one or more lesser developed beneficiary countries.

Wholly formed fabrics. “Wholly formed,” when used with reference to fabric(s), means that all of the production processes, starting with polymers, fibers, filaments, textile strips, yarns, twine, cordage, rope, or strips of fabric and ending with a fabric by a weaving, knitting, needling, tufting, felting, entangling or other process, took place in the United States or in one or more beneficiary countries.

Wholly formed on seamless knitting machines. “Wholly formed on seamless knitting machines,” when used to describe apparel articles, has reference to a process that created a knit-to-shape apparel article by feeding yarn(s) into a knitting machine to result in that article. When taken from the knitting machine, an apparel article created by this process either is in its final form or requires only minor cutting or trimming or the addition of minor components or parts such as patch pockets, appliques, capping, or elastic strip.

Wholly formed yarns. “Wholly formed,” when used with reference to yarns, means that all of the production processes, starting with the extrusion of filament, strip, film, or sheet and including slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with a yarn or plied yarn, took place in a single country.

§10.213 Articles eligible for preferential treatment.

(a) General. The preferential treatment referred to in §10.211 applies to the following textile and apparel articles that are imported directly into the customs territory of the United States from a beneficiary country:

1. Apparel articles sewn or otherwise assembled in one or more beneficiary countries from fabrics wholly formed and cut, or from components knit-to-shape, in the United States, from yarns wholly formed in the United States, (including fabrics not formed from yarns, if those fabrics are classifiable under heading 5602 or 5603 of the HTSUS and are wholly formed and cut
§ 10.213

in the United States) that are entered under subheading 9802.00.80 of the HTSUS;

(2) Apparel articles sewn or otherwise assembled in one or more beneficiary countries from fabrics wholly formed and cut, or from components knit-to-shape, in the United States, from yarns wholly formed in the United States, (including fabrics not formed from yarns, if those fabrics are classifiable under heading 5602 or 5603 of the HTSUS and are wholly formed and cut in the United States) that are entered under Chapter 61 or 62 of the HTSUS, if, after that assembly, the articles would have qualified for entry under subheading 9802.00.80 of the HTSUS but for the fact that the articles were embroidered or subjected to stone-washing, enzyme-washing, acid washing, perma-pressing, oven-baking, bleaching, garment-dyeing, screen printing, or other similar processes in a beneficiary country;

(3) Apparel articles sewn or otherwise assembled in one or more beneficiary countries with thread formed in the United States from fabrics wholly formed in the United States and cut in one or more beneficiary countries from yarns wholly formed in the United States, or from components knit-to-shape in the United States from yarns wholly formed in the United States, or both (including fabrics not formed from yarns, if those fabrics are classifiable under heading 5602 or 5603 of the HTSUS and are wholly formed in the United States).

(4) Apparel articles wholly assembled in one or more beneficiary countries from fabric wholly formed in one or more beneficiary countries from yarns originating either in the United States or one or more beneficiary countries (including fabrics not formed from yarns, if those fabrics are classified under heading 5602 or 5603 of the HTSUS and are wholly formed in one or more beneficiary countries), or from components knit-to-shape in one or more beneficiary countries from yarns originating either in the United States or in one or more beneficiary countries, or apparel articles wholly formed on seamless knitting machines in a beneficiary country from yarns originating either in the United States or in one or more beneficiary countries, subject to the applicable quantitative limit published in the Federal Register pursuant to U.S. Note 2, Subchapter XIX, Chapter 98, HTSUS;

(5) Apparel articles wholly assembled, or knit-to-shape and wholly assembled, or both, in one or more lesser developed beneficiary countries regardless of the country of origin of the fabric or the yarn used to make the articles, subject to the applicable quantitative limit published in the Federal Register pursuant to U.S. Note 2, Subchapter XIX, Chapter 98, HTSUS;

(6) Sweaters, in chief weight of cashmere, knit-to-shape in one or more beneficiary countries and classifiable under subheading 6110.10 of the HTSUS;

(7) Sweaters, containing 50 percent or more by weight of wool measuring 21.5 microns in diameter or finer, knit-to-shape in one or more beneficiary countries;

(8) Apparel articles, other than brasieres classifiable under subheading 6212.10, HTSUS, that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary countries, from fabrics or yarn that is not formed in the United States or a beneficiary country, provided that apparel articles of those fabrics or yarn would be considered an originating good under General Note 12(t), HTSUS, if the apparel articles had been imported directly from Canada or Mexico;

(9) Apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more beneficiary countries from fabrics or yarn that the President or his designee has designated in the Federal Register as not available in commercial quantities in the United States:

(10) A handloomed, handmade, or folklore article of a beneficiary country or countries that is certified as a handloomed, handmade, or folklore article by the competent authority of the beneficiary country or countries, provided that the President or his designee has determined that the article in question will be treated as being a handloomed, handmade, or folklore article.
(11) Apparel articles sewn or otherwise assembled in one or more beneficiary countries with thread formed in the United States:
   (i) From components cut in the United States and in one or more beneficiary countries from fabric wholly formed in the United States from yarns wholly formed in the United States (including fabrics not formed from yarns, if those fabrics are classifiable under heading 5602 or 5603 of the HTSUS);
   (ii) From components knit-to-shape in the United States and one or more beneficiary countries from yarns wholly formed in the United States; or
   (iii) From any combination of two or more of the cutting or knitting-to-shape operations described in paragraph (a)(11)(i) or paragraph (a)(11)(ii) of this section.

(b) Special rules for certain component materials—(1) General. An article otherwise described under paragraph (a) of this section will not be ineligible for the preferential treatment referred to in §10.211 because the article contains:
   (i) Findings and trimmings of foreign origin, if the value of those findings and trimmings does not exceed 25 percent of the cost of the components of the assembled article. For purposes of this section “findings and trimmings” include, but are not limited to, hooks and eyes, snaps, buttons, “bow buds,” decorative lace trim, elastic strips (but only if they are each less than 1 inch in width and are used in the production of brassieres), zippers (including zipper tapes), labels, and sewing thread except in the case of an article described in paragraph (a)(3) of this section;
   (ii) Interlinings of foreign origin, if the value of those interlinings does not exceed 25 percent of the cost of the components of the assembled article. For purposes of this section “interlinings” include only a chest type plate, a “hymo” piece, or “sleeve header,” of woven or weft-inserted warp knit construction and of coarse animal hair or man-made filaments;
   (iii) Any combination of findings and trimmings of foreign origin and interlinings of foreign origin, if the total value of those findings and trimmings and interlinings does not exceed 25 percent of the cost of the components of the assembled article; or
   (iv) Fibers or yarns not wholly formed in the United States or one or more beneficiary countries if the total weight of all those fibers and yarns is not more than 7 percent of the total weight of the article.

(2) “Cost” and “value” defined. The “cost” of components and the “value” of findings and trimmings or interlinings referred to in paragraph (b)(1) of this section means:
   (i) The price of the components, findings and trimmings, or interlinings when last purchased, f.o.b. port of exportation, as set out in the invoice or other commercial documents, or, if the price is other than f.o.b. port of exportation:
      (A) The price as set out in the invoice or other commercial documents adjusted to arrive at an f.o.b. port of exportation price; or
      (B) If no exportation to a beneficiary country is involved, the price as set out in the invoice or other commercial documents, less the freight, insurance, packing and other costs incurred in transporting the components, findings and trimmings, or interlinings to the place of production if included in that price; or
   (ii) If the price cannot be determined under paragraph (b)(2)(i) of this section or if Customs finds that price to be unreasonable, all reasonable expenses incurred in the growth, production, manufacture, or other processing of the components, findings and trimmings, or interlinings, including the cost or value of materials and general expenses, plus a reasonable amount for profit, and the freight, insurance, packing, and other costs, if any, incurred in transporting the components, findings and trimmings, or interlinings to the port of exportation.

(3) Treatment of fibers and yarns as findings or trimmings. If any fibers or yarns not wholly formed in the United States or one or more beneficiary countries are used in an article as a finding or trimming described in paragraph (b)(1)(i) of this section, the fibers or yarns will be considered to be a finding or trimming for purposes of paragraph (b)(1) of this section.

(c) Imported directly defined. For purposes of paragraph (a) of this section, the words “imported directly” mean:
(1) Direct shipment from any beneficiary country to the United States without passing through the territory of any non-beneficiary country;

(2) If the shipment is from any beneficiary country to the United States through the territory of any non-beneficiary country, the articles in the shipment do not enter into the commerce of any non-beneficiary country while en route to the United States and the invoices, bills of lading, and other shipping documents show the United States as the final destination; or

(3) If the shipment is from any beneficiary country to the United States through the territory of any non-beneficiary country, and the invoices and other documents do not show the United States as the final destination, the articles in the shipment upon arrival in the United States are imported directly only if they:

(i) Remained under the control of the customs authority of the intermediate country;

(ii) Did not enter into the commerce of the intermediate country except for the purpose of sale other than at retail, and the port director is satisfied that the importation results from the original commercial transaction between the importer and the producer or the producer's sales agent; and

(iii) Were not subjected to operations other than loading or unloading, and other activities necessary to preserve the articles in good condition.

§ 10.214 Certificate of Origin.

(a) General. A Certificate of Origin must be employed to certify that a textile or apparel article being exported from a beneficiary country to the United States qualifies for the preferential treatment referred to in §10.211. The Certificate of Origin must be prepared by the exporter in the beneficiary country in the form specified in paragraph (b) of this section. Where the beneficiary country exporter is not the producer of the article, that exporter may complete and sign a Certificate of Origin on the basis of:

(1) Its reasonable reliance on the producer’s written representation that the article qualifies for preferential treatment; or

(2) A completed and signed Certificate of Origin for the article voluntarily provided to the exporter by the producer.

(b) Form of Certificate. The Certificate of Origin referred to in paragraph (a) of this section must be in the following format:
