

Social Security Administration

§ 404.1088

or her respective distributive share of the gross income and deductions.

[70 FR 41955, July 21, 2005]

§ 404.1087 Figuring partner's net earnings from self-employment for taxable year which ends as a result of death.

(a) *General.* In the case of a deceased partner whose taxable year ends because of death, the deceased partner's net earnings from self-employment includes the amount of his or her distributive share of partnership ordinary income or loss for the partnership's taxable year that is attributable to an interest in the partnership through the month of death.

(b) *Computation.* (1) The deceased partner's distributive share of partnership ordinary income or loss for the partnership taxable year in which death occurred is determined by applying the rules contained in paragraphs (d) and (f) of § 404.1081.

(2) The portion of the distributive share to be included in the deceased partner's net earnings from self-employment for his or her last taxable year is determined by treating the ordinary income or loss constituting the distributive share as having been realized or sustained ratably over the partnership taxable year during which the deceased partner had an interest in the partnership and during which the deceased partner's estate, or any other person succeeding by reason of the death to rights to his partnership interest, held an interest in the partnership.

(c) *Deceased partner's distributive share.* A deceased partner's distributive share includes the distributive share of the estate or of any other person succeeding to the interest of a deceased partner. It does not include any share attributable to a partnership interest that was not held by the deceased partner at the time of death. If a deceased partner's estate should acquire an interest in a partnership in addition to the interest to which it succeeded upon the death of the deceased partner, the amount of the distributive share attributable to the additional interest acquired by the estate is not included in computing the deceased partner's distributive share of the partnership's

ordinary income or loss for the partnership taxable year.

(d) *Options available to farmers.* In determining the applicability of the optional method of figuring net earnings from self-employment to a member of a farm partnership it is necessary to determine the partner's distributive share of partnership gross income or distributive share of income described in section 702(a)(8) of the Code.

§ 404.1088 Retirement payment to retired partners.

(a) *In general.* If you are a retired partner, in figuring your net earnings from self-employment you must exclude payments made to you on a periodic basis by a partnership on account of your retirement and which are to continue until your death. This exclusion applies only if the payments are made under a written plan which meets the requirements set out in 26 CFR 1.1402(a)-(17) and the conditions in paragraph (b) of this section are met. The necessary requirements and conditions must be met throughout the entire partnership's taxable year for the payments to be excluded so that either all or none of the payments are excluded.

(b) *Other conditions.* You must have been paid your full share of the partnership's capital before the close of the partnership's taxable year in which retirement payments are made. Also, no member of the partnership can have any financial obligations to you (in his or her capacity as a partner) except to make the retirement payments. Lastly, you cannot perform any services for the partnership in the partnership's taxable year which falls wholly or partially in your taxable year in which you receive the retirement payments.

Example: D, a partner in the DEF partnership, retired from the partnership as of December 31, 1976. The taxable year of both D and the partnership is the calendar year. During the partnership's taxable year ending December 31, 1977, D rendered no service to any trade or business carried on by the partnership. On or before December 31, 1977, all obligations (other than retirement payments under the plan) from the other partners to D were liquidated, and D's share of the capital of the partnership was paid to him. Retirement payments received by D under the partnership's plan in his taxable year ending
