

(b) *What we mean by "a continuous period of 9 months"*. A continuous period of 9 months ordinarily means a period of 9 consecutive calendar months. Exception: When an individual does not perform SGA in 9 consecutive calendar months, he or she will be considered to have done so if—

(1) The individual performs 9 months of SGA within 10 consecutive months and has monthly earnings that meet or exceed the guidelines in § 404.1574(b)(2), or § 404.1584(d) if the individual is statutorily blind; or

(2) The individual performs at least 9 months of SGA within 12 consecutive months, and the reason for not performing SGA in 2 or 3 of those months was due to circumstances beyond his or her control and unrelated to the impairment (e.g., the employer closed down for 3 months).

(c) *What work we consider*. In determining if a continuous period of SGA has been completed, all of an individual's work activity may be evaluated for purposes of this section, including work performed before October 1981, during the waiting period, during the trial work period and after entitlement to disability benefits terminated. We will ordinarily consider only the first 9 months of SGA that occur. The exception will be if an individual who completed 9 months of SGA later stops performing SGA, receives VR services and then performs SGA for a 9-month period. See § 404.2115 for the use of the continuous period in determining payment for VR services.

[48 FR 6293, Feb. 10, 1983, as amended at 55 FR 8454, Mar. 8, 1990]

§ 404.2111 Criteria for determining when VR services will be considered to have contributed to a continuous period of 9 months.

The State VR agency or alternate participant may be paid for VR services if such services contribute to the individual's performance of a continuous 9-month period of SGA. The following criteria apply to individuals who received more than just evaluation services. If a State VR agency or alternate participant claims payment for services to an individual who received only evaluation services, it must establish that the individual's continuous

period or medical recovery (if medical recovery occurred before completion of a continuous period) would not have occurred without the services provided. In applying the criteria below, we will consider services described in § 404.2114 that were initiated, coordinated or provided, including services before October 1, 1981.

(a) *Continuous period without medical recovery*. If an individual who has completed a "continuous period" of SGA has not medically recovered as of the date of completion of the period, the determination as to whether VR services contributed will depend on whether the continuous period began one year or less after VR services ended or more than one year after VR services ended.

(1) *One year or less*. Any VR services which significantly motivated or assisted the individual in returning to, or continuing in, SGA will be considered to have contributed to the continuous period.

(2) *More than one year*. (i) If the continuous period was preceded by transitional work activity (employment or self-employment which gradually evolved, with or without periodic interruption, into SGA), and that work activity began less than a year after VR services ended, any VR services which significantly motivated or assisted the individual in returning to, or continuing in, SGA will be considered to have contributed to the continuous period.

(ii) If the continuous period was not preceded by transitional work activity that began less than a year after VR services ended, VR services will be considered to have contributed to the continuous period only if it is reasonable to conclude that the work activity which constitutes a continuous period could not have occurred without the VR services (e.g., training).

(b) *Continuous period with medical recovery occurring before completion*. (1) If an individual medically recovers before a continuous period has been completed, VR services under paragraph (a) of this section will not be payable unless some VR services contributed to the medical recovery. VR services will be considered to have contributed to the medical recovery if—

§ 404.2112

(i) The individualized written rehabilitation program (IWRP) or, in the case of an alternate participant, a similar document, included medical services; and

(ii) The medical recovery occurred, at least in part, because of these medical services. (For example, the individual's medical recovery was based on improvement in a back condition which, at least in part, stemmed from surgery initiated, coordinated or provided under an IWRP).

(2) In some instances, the State VR agency or alternate participant will not have provided, initiated, or coordinated medical services. If this happens, payment for VR services may still be possible under paragraph (a) of this section if: (i) The medical recovery was not expected by us; and (ii) the individual's impairment is determined by us to be of such a nature that any medical services provided would not ordinarily have resulted in, or contributed to, the medical cessation.

[48 FR 6293, Feb. 10, 1983, as amended at 59 FR 11914, Mar. 15, 1994]

§ 404.2112 Payment for VR services in a case where an individual continues to receive disability payments based on participation in an approved VR program.

Sections 404.1586(g), 404.316(c), 404.337(c), and 404.352(c) explain the criteria we will use in determining if an individual whose disability has ceased should continue to receive disability benefits from us because of his or her continued participation in a VR program. A VR agency or alternate participant can be paid for the cost of VR services provided to an individual if the individual was receiving benefits in a month or months, after October 1984, based on § 404.316(c), 404.337(c), or 404.352(c). If this requirement is met, a VR agency or alternate participant can be paid for the costs of VR services provided within the period specified in § 404.2115, subject to the other payment and administrative provisions of this subpart.

[55 FR 8455, Mar. 8, 1990]

20 CFR Ch. III (4-1-11 Edition)

§ 404.2114 Services for which payment may be made.

(a) *General.* Payment may be made for VR services provided by a State VR agency in accordance with title I of the Rehabilitation Act of 1973, as amended, or by an alternate participant under a negotiated plan, subject to the limitations and conditions in this subpart. VR services for which payment may be made under this subpart include only those services described in paragraph (b) of this section which are—

(1) Necessary to determine an individual's eligibility for VR services or the nature and scope of the services to be provided; or

(2) Provided by a State VR agency under an IWRP, or by an alternate participant under a similar document, but only if the services could reasonably be expected to motivate or assist the individual in returning to, or continuing in, SGA.

(b) *Specific services.* Payment may be made under this subpart only for the following VR services:

(1) An assessment for determining an individual's eligibility for VR services and vocational rehabilitation needs by qualified personnel, including, if appropriate, an assessment by personnel skilled in rehabilitation technology, and which includes determining—

(i) The nature and extent of the physical or mental impairment(s) and the resultant impact on the individual's employability;

(ii) The likelihood that an individual will benefit from vocational rehabilitation services in terms of employability; and

(iii) An employment goal consistent with the capacities of the individual and employment opportunities;

(2) Counseling and guidance, including personal adjustment counseling, and those referrals and other services necessary to help an individual secure needed services from other agencies;

(3) Physical and mental restoration services necessary to correct or substantially modify a physical or mental condition which is stable or slowly progressive and which constitutes an impediment to suitable employment at or above the SGA level;
