

Social Security Administration

§ 404.408b

(2) If the insured did not have a period of disability at the time of his or her entitlement or death, you must have been receiving at least one-half support from the insured either—

(i) At the time he or she became entitled to old-age insurance benefits; or

(ii) If deceased, at the time of his or her death.

(d) *Amount and priority of reduction.*

(1) If you became eligible for a Government pension after June 1983, we will reduce (to zero, if necessary) your monthly Social Security benefits as a spouse by two-thirds the amount of your monthly pension. If the reduction is not a multiple of 10 cents, we will round it to the next higher multiple of 10 cents.

(2) If you became eligible for a Government pension before July 1983 and do not meet one of the exceptions in paragraph (b) of this section, we will reduce (to zero, if necessary) your monthly Social Security benefits as a spouse by the full amount of your pension for months before December 1984 and by two-thirds the amount of your monthly pension for months after November 1984. If the reduction is not a multiple of 10 cents, we will round it to the next higher multiple of 10 cents.

(3) Your benefit as a spouse will be reduced, if necessary, for age and for simultaneous entitlement to other Social Security benefits before it is reduced because you are receiving a Government pension. In addition, this reduction follows the order of priority as stated in § 404.402(b).

(4) If the monthly benefit payable to you after the required reduction(s) is not a multiple of \$1.00, we will reduce it to the next lower multiple of \$1.00 as required by § 404.304(f).

(e) *When effective.* This reduction was put into the Social Security Act by the Social Security Amendments of 1977. It only applies to applications for benefits filed in or after December 1977 and only to benefits for December 1977 and later.

§ 404.408b Reduction of retroactive monthly social security benefits where supplemental security income (SSI) payments were received for the same period.

(a) *When reduction is required.* We will reduce your retroactive social security benefits if—

(1) You are entitled to monthly social security benefits for a month or months before the first month in which those benefits are paid; and

(2) SSI payments (including federally administered State supplementary payments) which were made to you for the same month or months would have been reduced or not made if your social security benefits had been paid when regularly due instead of retroactively.

(b) *Amount of reduction.* Your retroactive monthly social security benefits will be reduced by the amount of the SSI payments (including federally administered State supplementary payments) that would not have been paid to you, if you had received your monthly social security benefits when they were regularly due instead of retroactively.

(c) *Benefits subject to reduction.* The reduction described in this section applies only to monthly social security benefits. Social security benefits which we pay to you for any month after you have begun receiving recurring monthly social security benefits, and for which you did not have to file a new application, are not subject to reduction. The lump-sum death payment, which is not a monthly benefit, is not subject to reduction.

(d) *Refiguring the amount of the reduction.* We will refigure the amount of the reduction if there are subsequent changes affecting your claim which relate to the reduction period described in paragraph (a) of this section. Refiguring is generally required where there is a change in your month of entitlement or the amount of your social security benefits or SSI payments (including federally administered State supplementary payments) for the reduction period.

(e) *Reimbursement of reduced retroactive monthly social security benefits.* The amount of the reduction will be—

§ 404.409

(1) First used to reimburse the States for the amount of any federally administered State supplementary payments that would not have been made to you if the monthly social security benefits had been paid when regularly due instead of retroactively; and

(2) The remainder, if any, shall be covered into the general fund of the U.S. Treasury for the amount of SSI benefits that would not have been paid to you if the monthly social security benefits had been paid to you when regularly due instead of retroactively.

1/2/1961—1/1/1962	66 years and 10 months.
1/2/1962 and later	67 years.

(c) *Can I still retire before full retirement age?* You may still elect early retirement. You may receive old-age, wife's or husband's benefits at age 62. You may receive widow's or widower's benefits at age 60. Those benefits will be reduced as explained in § 404.410.

[68 FR 4707, Jan. 30, 2003]

§ 404.410 How does SSA reduce my benefits when my entitlement begins before full retirement age?

Generally your old-age, wife's, husband's, widow's, or widower's benefits are reduced if entitlement begins before the month you attain full retirement age (as defined in § 404.409). However, your benefits as a wife or husband are not reduced for any month in which you have in your care a child of the worker on whose earnings record you are entitled. The child must be entitled to child's benefits. Your benefits as a widow or widower are not reduced below the benefit amount you would receive as a mother or father for any month in which you have in your care a child of the worker on whose record you are entitled. The child must be entitled to child's benefits. Subject to §§ 404.411 through 404.413, reductions in benefits are made in the amounts described.

(a) *How does SSA reduce my old-age benefits?* The reduction in your primary insurance amount is based on the number of months of entitlement prior to the month you attain full retirement age. The reduction is $\frac{5}{9}$ of 1 percent for each of the first 36 months and $\frac{5}{12}$ of 1 percent for each month in excess of 36.

Example: Alex's full retirement age for unreduced benefits is 65 years and 8 months. She elects to begin receiving benefits at age 62. Her primary insurance amount of \$980.50 must be reduced because of her entitlement to benefits 44 months prior to full retirement age. The reduction is 36 months at $\frac{5}{9}$ of 1 percent and 8 months at $\frac{5}{12}$ of 1 percent.

$$980.50 \times 36 \times \frac{5}{9} \times .01 = \$196.10$$

$$980.50 \times 8 \times \frac{5}{12} \times .01 = \$32.68$$
