

## § 410.703

## 20 CFR Ch. III (4-1-11 Edition)

in a mine shall not be used as conclusive evidence that the miner is not totally disabled.

(2) A deceased miner's employment in a mine at the time of death shall not be used as conclusive evidence that the miner was not totally disabled.

(3) Any miner not totally disabled by complicated pneumoconiosis who has been determined to be eligible for benefits as a result of a claim filed while the miner is engaged in coal mine employment shall be entitled to such benefits if his or her employment terminates within one year after the date the determination becomes final.

(g) *Survivor entitlement for deceased miner—25 years or more coal mine employment.* If a miner died on or before March 1, 1978, and had worked for 25 years or more in one or more coal mines before June 30, 1971, the eligible survivors of the miner shall be entitled to the payment of benefits at the same rate as that under section 412(a)(2) of the Act, unless it is established that at the time of the miner's death the miner was not partially or totally disabled due to pneumoconiosis.

(h) *Miner defined.* A miner is any person who works or has worked in or around a coal mine or coal preparation facility in the extraction, preparation or transportation of coal, and any person who works or has worked in coal mine construction or maintenance in or around a coal mine or coal preparation facility. A coal mine construction or transportation worker shall be considered a miner to the extent such individual is or was exposed to coal dust as a result of his or her employment in or around a coal mine or preparation facility. In the case of an individual employed in coal transportation or coal mine construction, there shall be a rebuttable presumption that such individual was exposed to coal dust during all periods of such employment occurring in or around a coal mine or coal preparation facility for purposes of determining whether such individual is or was a miner. The presumption may be rebutted by evidence which demonstrates that the individual was not regularly exposed to coal dust during his or her employment in or around a coal mine or preparation facility or

that the individual was not regularly employed in or around a coal mine or coal preparation facility. An individual employed by a coal mine operator, regardless of the nature of such individual's employment, shall be considered a miner unless such individual was not employed in or around a coal mine or coal preparation facility. A person who is or was a self employed miner, independent contractor, or coal mine worker, as described in this paragraph, shall be considered a miner for the purposes of this subpart.

(i) *X-ray rereading prohibition.* Where there is other evidence, such as the kind in § 410.414(c), that a miner has a pulmonary or respiratory impairment, a board certified or board eligible radiologist's interpretation of a chest X-ray taken by a radiologist or qualified technician will be accepted if: (1) It is of a quality sufficient to demonstrate the presence of pneumoconiosis and; (2) it was submitted in support of a claim, unless it is established that the claim has been fraudulently represented.

(j) *Acceptance of autopsy reports.* Unless there is reason to believe that an autopsy report is not accurate, or that the condition of the miner is being fraudulently misrepresented, an autopsy report concerning the presence of pneumoconiosis and the stage of advancement of the disease will be accepted if it is already on file.

(k) *Acceptance of affidavits—miner deceased.* Where there is no medical evidence or other relevant evidence (see § 410.414(c)) to establish total disability or death due to pneumoconiosis of a deceased miner, affidavits from the spouse and other individuals having knowledge of the deceased miner's physical condition will be sufficient to establish total disability or death due to pneumoconiosis if they are already on file.

[43 FR 34781, Aug. 7, 1978, as amended at 44 FR 10058, Feb. 16, 1979]

### § 410.703 Adjudicatory rules for determining entitlement to benefits.

(a) *General.* Section 402(f)(2) of the Act provides that the criteria and standards to be applied to a claim reviewed under section 435 of the Act, for determining whether a miner is or was totally disabled due to pneumoconiosis

or died due to pneumoconiosis, shall be no more restrictive than the criteria applicable to a claim filed with the Social Security Administration on or before June 30, 1973, under part B of title IV of the Act. In keeping with this provision, the interim evidentiary rules and disability criteria contained in §410.490 will be applicable for this review.

(b) *Payment provisions.* The DOL has sole responsibility for assigning liability for payment purposes. The DOL regulations relating to the amount of benefits payable, the manner of payment and all other provisions published at 20 CFR part 725 shall be applicable to a claim approved under this subpart.

(c) *Date from which benefits are payable.* Benefits for claims reviewed under this subpart G for which entitlement to benefits is established under the BLBRA of 1977 are payable on a retroactive basis for a period which begins no earlier than January 1, 1974.

#### §410.704 Review procedures.

(a) *Notification.* Each claimant who has filed a claim for benefits under part B of title IV of the Act, and whose claim is either pending before the Social Security Administration or the courts or has been denied on or before March 1, 1978, will be mailed a notice advising that, upon the request of the claimant, the claim shall be:

(1) Reviewed by the Social Security Administration or DOL, Office of Workers' Compensation Programs to see whether entitlement to benefits may be established under the BLBRA of 1977; and

(2) If review by the Social Security Administration is requested, the review will be made on the basis of the evidence on file as of March 1, 1978; and

(3) If review by the Office of Workers' Compensation Programs is requested, the Office of Workers' Compensation Programs will provide an opportunity for additional evidence to be submitted for consideration prior to a determination.

(b) Where the claimant is mentally incompetent or physically incapable, or is a minor, review of the claim may be elected by those people described in §410.222. Where the original claimant is deceased, any person who may be enti-

tled to benefits as a survivor of the claimant, including those described in §410.570(c), may elect review of the claim.

(c) *Effect of review of a pending part B claim under the BLBRA of 1977 on the pending claim.* Part B claims pending before the Social Security Administration or the courts will continue to be processed under the old law at the same time that these claims are being reviewed by the Social Security Administration, at the claimant's request, under the BLBRA of 1977. Claimants would then have two separate and independent claims for benefits pending. Where claims for benefits are reviewed, upon request, under this subpart G and it is determined that entitlement to benefits is established under the BLBRA of 1977, part C benefits may be paid back to January 1, 1974. Where pending part B claims continue to be processed under the old law and it is determined that the claimant is entitled to benefits under the old law, then the benefits may include payment for periods prior to January 1, 1974. Part C benefits payable to an individual for periods beginning with January 1, 1974, are offset by part B benefits payable for the same periods to the individual. Election by claimants to have their pending claims reviewed under the BLBRA of 1977 for payment of benefits back to January 1, 1974, will not affect the processing of their pending part B claims under the old law for payment of benefits prior to January 1, 1974.

(d) *Response to notification.* A request for review by the Social Security Administration or the Office of Workers' Compensation Programs, must be received by the Social Security Administration within 6 months from the date on which the notice is mailed. Upon receipt, the request will be dated and made a part of the claims file. If a request for review by the Social Security Administration or the Office of Workers' Compensation Program is not received by the Social Security Administration within 6 months from the date the notice is mailed, the claimant shall be considered to have waived the right of review afforded by this subpart G unless *good cause* can be established for not responding within this time period.
