

does not include the housing component of a welfare payment; a social security payment; or a federal, state, or local tax concession (such as relief from local real property taxes).

§ 983.55 Prohibition of excess public assistance.

(a) *Subsidy layering requirements.* The PHA may provide PBV assistance only in accordance with HUD subsidy layering regulations (24 CFR 4.13) and other requirements. The subsidy layering review is intended to prevent excessive public assistance for the housing by combining (layering) housing assistance payment subsidy under the PBV program with other governmental housing assistance from federal, state, or local agencies, including assistance such as tax concessions or tax credits.

(b) *When subsidy layering review is conducted.* The PHA may not enter an Agreement or HAP contract until HUD or an independent entity approved by HUD has conducted any required subsidy layering review and determined that the PBV assistance is in accordance with HUD subsidy layering requirements.

(c) *Owner certification.* The HAP contract must contain the owner's certification that the project has not received and will not receive (before or during the term of the HAP contract) any public assistance for acquisition, development, or operation of the housing other than assistance disclosed in the subsidy layering review in accordance with HUD requirements.

§ 983.56 Cap on number of PBV units in each building.

(a) *25 percent per building cap.* Except as provided in paragraph (b) of this section, the PHA may not select a proposal to provide PBV assistance for units in a building or enter into an Agreement or HAP contract to provide PBV assistance for units in a building, if the total number of dwelling units in the building that will receive PBV assistance during the term of the PBV HAP is more than 25 percent of the number of dwelling units (assisted or unassisted) in the building.

(b) *Exception to 25 percent per building cap—(1) When PBV units are not counted*

against cap. In the following cases, PBV units are not counted against the 25 percent per building cap:

- (i) Units in a single-family building;
- (ii) Excepted units in a multifamily building.

(2) Terms (i) "Excepted units" means units in a multifamily building that are specifically made available for qualifying families.

(ii) "Qualifying families" means:

- (A) Elderly or disabled families; or
- (B) Families receiving supportive services. PHAs must include in the PHA administrative plan the type of services offered to families for a project to qualify for the exception and the extent to which such services will be provided. It is not necessary that the services be provided at or by the project, if they are approved services. To qualify, a family must have at least one member receiving at least one qualifying supportive service. A PHA may not require participation in medical or disability-related services other than drug and alcohol treatment in the case of current abusers as a condition of living in an excepted unit, although such services may be offered. If a family at the time of initial tenancy is receiving, and while the resident of an excepted unit has received, FSS supportive services or any other supportive services as defined in the PHA administrative plan, and successfully completes the FSS contract of participation or the supportive services requirement, the unit continues to count as an excepted unit for as long as the family resides in the unit. If a family in an excepted unit fails without good cause to complete its FSS contract of participation or if the family fails to complete the supportive services requirement as outlined in the PHA administrative plan, the PHA will take the actions provided under § 983.261(d), and the owner may terminate the lease in accordance with § 983.257(c). Also, at the time of initial lease execution between the family and the owner, the family and the PHA must sign a statement of family responsibility. The statement of family responsibility must contain all family obligations including the family's participation in a service program under this section. Failure by the family without good

§983.57

24 CFR Ch. IX (4-1-11 Edition)

cause to fulfill its service obligation will require the PHA to terminate assistance. If the unit at the time of such termination is an excepted unit, the exception continues to apply to the unit as long as the unit is made available to another qualifying family.

(C) The PHA must monitor the excepted family's continued receipt of supportive services and take appropriate action regarding those families that fail without good cause to complete their supportive services requirement. The PHA administrative plan must state the form and frequency of such monitoring.

(3) *Set-aside for qualifying families.* (i) In leasing units in a multifamily building pursuant to the PBV HAP, the owner must set aside the number of excepted units made available for occupancy by qualifying families.

(ii) The PHA may refer only qualifying families for occupancy of excepted units.

(c) *Additional, local requirements promoting partially assisted buildings.* A PHA may establish local requirements designed to promote PBV assistance in partially assisted buildings. For example, a PHA may:

(1) Establish a per-building cap on the number of units that will receive PBV assistance or other project-based assistance in a multifamily building containing excepted units or in a single-family building,

(2) Determine not to provide PBV assistance for excepted units, or

(3) Establish a per-building cap of less than 25 percent.

§983.57 Site selection standards.

(a) *Applicability.* The site selection requirements in paragraph (d) of this section apply only to site selection for existing housing and rehabilitated PBV housing. The site selection requirements in paragraph (e) of this section apply only to site selection for newly constructed PBV housing. Other provisions of this section apply to selection of a site for any form of PBV housing, including existing housing, newly constructed housing, and rehabilitated housing.

(b) *Compliance with PBV goals, civil rights requirements, and HQS.* The PHA may not select a proposal for existing,

newly constructed, or rehabilitated PBV housing on a site or enter into an Agreement or HAP contract for units on the site, unless the PHA has determined that:

(1) Project-based assistance for housing at the selected site is consistent with the goal of deconcentrating poverty and expanding housing and economic opportunities. The standard for deconcentrating poverty and expanding housing and economic opportunities must be consistent with the PHA Plan under 24 CFR part 903 and the PHA Administrative Plan. In developing the standards to apply in determining whether a proposed PBV development will be selected, a PHA must consider the following:

(i) Whether the census tract in which the proposed PBV development will be located is in a HUD-designated Enterprise Zone, Economic Community, or Renewal Community;

(ii) Whether a PBV development will be located in a census tract where the concentration of assisted units will be or has decreased as a result of public housing demolition;

(iii) Whether the census tract in which the proposed PBV development will be located is undergoing significant revitalization;

(iv) Whether state, local, or federal dollars have been invested in the area that has assisted in the achievement of the statutory requirement;

(v) Whether new market rate units are being developed in the same census tract where the proposed PBV development will be located and the likelihood that such market rate units will positively impact the poverty rate in the area;

(vi) If the poverty rate in the area where the proposed PBV development will be located is greater than 20 percent, the PHA should consider whether in the past five years there has been an overall decline in the poverty rate;

(vii) Whether there are meaningful opportunities for educational and economic advancement in the census tract where the proposed PBV development will be located.

(2) The site is suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil
