Example 3. Veteran’s organizations Y and X, both tax-exempt organizations, are organized under the laws of State N. State N has a statutory provision that permits bingo games to be conducted by for-profit organizations. In addition, State N permits bingo games to be conducted by for-profit organizations in county R. Several for-profit organizations conduct nightly bingo games in county S. Y conducts weekly bingo games in city S. X conducts weekly bingo games in county R. Since State law confines the conduct of bingo games by for-profit organizations to county S, and since bingo games are regularly carried on there by those organizations, Y’s bingo games conducted in city S constitute unrelated trade or business. However, X’s bingo games conducted in county R outside of city S do not constitute unrelated trade or business.

(d) Bingo game defined. A bingo game is a game of chance played with cards that are generally printed with five rows of five squares each. Participants place markers over randomly called numbers on the cards in an attempt to form a preselected pattern such as a horizontal, vertical, or diagonal line, or all four corners. The first participant to form the preselected pattern wins the game. As used in this section, the term bingo game means any game of bingo of the type described above in which wagers are placed, winners are determined, and prizes or other property is distributed in the presence of all persons placing wagers in that game. The term bingo game does not refer to any game of chance (including, but not limited to, keno games, dice games, card games, and lotteries) other than the type of game described in this paragraph.

(e) Effective date. Section 513(f) and this section apply to taxable years beginning after December 31, 1969.

[T.D. 7669, 45 FR 33970, May 21, 1980]

§ 1.513–6 Certain hospital services not unrelated trade or business.

(a) In general. Under section 513(e), the furnishing of a service listed in section 513(e)(1)(A) by a hospital to one or more other hospitals will not constitute unrelated trade or business if—

(1) The service is provided solely to hospitals that have facilities to serve not more than 100 inpatients,

(2) The service would, if performed by the recipient hospital, constitute an activity consistent with that hospital’s exempt purposes, and

(3) The service is provided at a fee not in excess of actual cost, including straight line depreciation and a reasonable rate of return on the capital goods used to provide the service. For purposes of this section, a rate of return on capital goods will be considered reasonable provided that it does not exceed, on an annual basis, the percentage described below which is based on the average of the rates of interest on special issues of public debt obligations issued to the Federal Hospital Insurance Trust Fund for each of the months included in the taxable year of the hospital during which the capital goods are used in providing the service. Determinations as to the cost of services and the applicable rate of return should be made as prescribed by 42 U.S.C. 1395x(v)(1) (A) and (B) and the regulations thereunder (permitting a health care facility to be reimbursed under the Medicare program for the reasonable cost of (its) services, including, in the case of certain proprietary facilities, a reasonable return on equity capital). For taxable years beginning on or before May 14, 1986, the rate of return shall be one and one-half times the average of the rates of interest on public debt obligations described above which were in effect on or before April 20, 1983.

(b) Hospital defined. As used in this section the word hospital means a hospital described in section 170(b)(1)(A)(iii).

(c) Example. The provisions of this section are illustrated by the following example:

Example. A large metropolitan hospital provides various services to other hospitals. The hospital furnishes a purchasing service to hospitals N and O, a data processing service to hospitals R and S, and a food service to hospitals X and Y. All the hospitals are described in section 170(b)(1)(A)(iii). All the hospitals have facilities to serve not more than 100 inpatients except hospital N. The services are furnished at cost to all hospitals except that hospital R is charged a fee in excess of cost for its use of the data processing service. The purchasing service constitutes unrelated trade or business because it is not provided solely to hospitals having facilities to serve not more than 100 inpatients.
§ 1.513–7 Travel and tour activities of tax exempt organizations.

(a) Travel tour activities that constitute a trade or business, as defined in §1.513–1(b), and that are not substantially related to the purposes for which exemption has been granted to the organization constitute an unrelated trade or business with respect to that organization. Whether travel tour activities conducted by an organization are substantially related to the organization’s exempt purpose is determined by looking at all relevant facts and circumstances, including, but not limited to, how a travel tour is developed, promoted and operated. Section 513(c) and §1.513–1(b) also apply to travel tour activity. Application of the rules of section 513(c) and §1.513–1(b) may result in different treatment for individual tours within an organization’s travel tour program.

(b) Examples. The provisions of this section are illustrated by the following examples. In all of these examples, the travel tours are priced to produce a profit for the exempt organization. The examples are as follows:

Example 1. O, a university alumni association, is exempt from federal income tax under section 501(a) as an educational organization described in section 501(c)(3). As part of its activities, O operates a travel tour program. The program is open to all current members of O and their guests. O works with travel agencies to schedule approximately 10 tours annually to various destinations around the world. Members of O pay $x to the organizing travel agency to participate in a tour. The travel agency pays O a per person fee for each participant. Although the literature advertising the tours encourages O’s members to continue their lifelong learning by joining the tours, and a faculty member of O’s related university frequently joins the tour as a guest of the alumni association, none of the tours includes any scheduled instruction or curriculum related to the destinations being visited. The travel tours made available to O’s members do not contribute importantly to the accomplishment of O’s educational purpose. Rather, O’s program is designed to generate revenues for O by regularly offering its members travel services. Accordingly, O’s tour program is an unrelated trade or business within the meaning of section 513(a).

Example 2. N is an organization formed for the purpose of educating individuals about the geography and culture of the United States. It is exempt from federal income tax under section 501(a) as an educational and cultural organization described in section 501(c)(3). N engages in a number of activities to accomplish its purposes, including offering courses and publishing periodicals and books. As one of its activities, N conducts study tours to national parks and other locations within the United States. The study tours are conducted by teachers and other personnel certified by the Board of Education of the State of P. The tours are directed toward students enrolled in degree programs at educational institutions in P, as reflected in the promotional materials, but are open to all who agree to participate in the required study program. Each tour’s study program consists of instruction on subjects related to the location being visited on the tour. During the tour, five or six hours per day are devoted to organized study, preparation of reports, lectures, instruction and recitation by the students. Each tour group brings along a library of material related to the subject being studied on the tour. Examinations are given at the end of each tour and the P StateBoard of Education awards academic credit for tour participation. Because the tours offered by N include a substantial amount of required study, lectures, report preparation, examinations and qualify for academic credit, the tours are substantially related to N’s educational purpose. Accordingly, N’s tour program is not an unrelated trade or business within the meaning of section 513(a).

Example 3. R is a section 501(c)(4) social welfare organization devoted to advocacy on a particular issue. On a regular basis throughout the year, R organizes travel tours for its members to Washington, DC. While in Washington, the members follow a schedule according to which they spend substantially all of their time during normal business hours over several days attending meetings with legislators and government officials and receiving briefings on policy developments related to the issue that is R’s focus. Members do have some time on their own in the evenings to engage in recreational or social activities of their own choosing. Bringing members to Washington to participate in advocacy on behalf of the organization and learn about developments relating to the organization’s principal focus
