

### § 1.851-3

### 26 CFR Ch. I (4-1-11 Edition)

requires that at the close of each quarter of the taxable year at least 50 percent of the value of the total assets of the taxpayer corporation be represented by one or more of the following:

(i) Cash and cash items, including receivables;

(ii) Government securities;

(iii) Securities of other regulated investment companies; or

(iv) Securities (other than those described in subdivisions (ii) and (iii) of this subparagraph) of any one or more issuers which meet the following limitations: (a) The entire amount of the securities of the issuer owned by the taxpayer corporation is not greater in value than 5 percent of the value of the total assets of the taxpayer corporation, and (b) the entire amount of the securities of such issuer owned by the taxpayer corporation does not represent more than 10 percent of the outstanding voting securities of such issuer. For the modification of the percentage limitations applicable in the case of certain venture capital investment companies, see section 851(e) and § 1.851-6.

Assuming that at least 50 percent of the value of the total assets of the corporation satisfies the requirements specified in this subparagraph, and that the limiting provisions of subparagraph (B) of section 851(b)(4) and subparagraph (2) of this paragraph are not violated, the corporation will satisfy the requirements of section 851(b)(4), notwithstanding that the remaining assets do not satisfy the diversification requirements of subparagraph (A) of section 851(b)(4). For example, a corporation may own all the stock of another corporation, provided it otherwise meets the requirements of subparagraphs (A) and (B) of section 851(b)(4).

(2) Subparagraph (B) of section 851(b)(4) prohibits the investment at the close of each quarter of the taxable year of more than 25 percent of the value of the total assets of the corporation (including the 50 percent or more mentioned in subparagraph (A) of section 851(b)(4)) in the securities (other than Government securities or the securities of other regulated investment companies) of any one issuer, or of two

or more issuers which the taxpayer company controls and which are engaged in the same or similar trades or businesses or related trades or businesses, including such issuers as are merely a part of a unit contributing to the completion and sale of a product or the rendering of a particular service. Two or more issuers are not considered as being in the same or similar trades or businesses merely because they are engaged in the broad field of manufacturing or of any other general classification of industry, but issuers shall be construed to be engaged in the same or similar trades or businesses if they are engaged in a distinct branch of business, trade, or manufacture in which they render the same kind of service or produce or deal in the same kind of product, and such service or products fulfill the same economic need. If two or more issuers produce more than one product or render more than one type of service, then the chief product or service of each shall be the basis for determining whether they are in the same trade or business.

#### § 1.851-3 Rules applicable to section 851(b)(4).

In determining the value of the taxpayer's investment in the securities of any one issuer, for the purposes of subparagraph (B) of section 851(b)(4), there shall be included its proper proportion of the investment of any other corporation, a member of a controlled group, in the securities of such issuer.
