

§ 19.74

(13) The following information if the applicant intends to operate as a distiller:

(i) Total proof gallons of spirits that can be produced daily;

(ii) A statement of production procedures in accordance with § 19.77; and

(iii) A statement as to whether spirits will be redistilled;

(14) The following information if the applicant intends to operate as a warehouseman:

(i) A description of the storage system; and

(ii) Total amount of bulk wine gallons that can be stored; and

(15) The following information if the applicant intends to operate as a processor:

(i) A statement whether spirits will or will not be bottled, denatured, redistilled, and whether articles will be manufactured; and

(ii) A description of the storage system for spirits bottled and cased or otherwise packaged and placed in approved containers for removal from bonded premises.

(b) *Other business.* If the applicant intends to conduct any other business on the distilled spirits plant premises as authorized under § 19.55, the following information must be submitted with the application:

(1) A description of the business;

(2) A list of buildings and equipment that will be used; and

(3) A statement of the relationship of the business to the distilled spirits operations at the plant.

(c) *Additional information.* The applicant must furnish any additional information needed by TTB to determine if the application for registration should be approved.

§ 19.75 Major equipment.

As required by § 19.73(a)(9), the application for registration must include a list of the major plant equipment. If the equipment is set up and used for the production, storage, or processing of distilled spirits, wine, denatured spirits, or articles, the list must provide the following information:

(a) The serial number and capacity of each tank in the plant. The list does not need to include any bulk containers having a capacity of less than 101 wine gallons on the plant premises if those containers do not meet the criteria of a tank under § 19.182 (perks, small totes, etc.);

(b) The serial number, kind, capacity, and intended use of each still in the plant. The capacity is the estimated maximum proof gallons of spirits capable of being produced every 24 hours, or for column stills a statement of the diameter of the base and number of plates; and

(c) The serial number of each condenser.
