(3) The boundary then follows the unimproved road north to its end, then goes east in a straight line until it reaches the 1800 ' contour line;
(4) The boundary then follows the $1800^{\prime}$ contour line in a northeasterly direction to the point, near Sawmill Gulch, where the contour line crosses Seiad Creek and turns south and west;
(5) The boundary continues to follow the $1800^{\prime}$ contour line as it proceeds southwest for approximately 4.5 miles, then turns sharply south-southeast for approximately 0.3 miles, until the contour line turns sharply east at a point just north of the Klamath River;
(6) The boundary then diverges from the $1800^{\prime}$ contour line and proceeds south-southeast in a straight line, across the Klamath River and State Route 96, until it intersects with the 1600' contour line;
(7) The boundary then follows the $1600^{\prime}$ contour line south and west, then north and west, roughly following the course of the Klamath River, until it reaches an unnamed peak 1744 feet high;
(8) The boundary continues along the $1600^{\prime}$ contour line as it diverges from the Klamath River and proceeds south, just to the east of an unnamed light duty road, to the point where that road crosses Grider Creek;
(9) The boundary diverges from the contour line and proceeds west in a straight line across the road and Grider Creek until it intersects with the $1600^{\prime}$ contour line on the west side of Grider Creek;
(10) The boundary then follows the $1600^{\prime}$ contour line north, west and north again until it reaches a point where the contour line turns west, just south of the Klamath River;
(11) The boundary diverges from the $1600^{\prime}$ contour line and proceeds in a straight line in a northeasterly direction, back to the point of beginning.
[T.D. ATF-357, 59 FR 26114, May 19, 1994]

## §9.149 St. Helena.

(a) Name. The name of the viticultural area described in this section is "St. Helena."
(b) Approved maps. The appropriate maps for determining the boundary of the St. Helena viticultural area are three U.S.G.S. 7.5 minute series topo-
graphical maps of the $1: 24,000$ scale. They are titled:
(1) St. Helena Quadrangle, California, edition of 1960, revised 1993;
(2) Calistoga Quadrangle, California, edition of 1958, photorevised 1980;
(3) Rutherford Quadrangle, California, edition of 1951, photorevised 1968, photoinspected 1973.
(c) Boundary. The St. Helena viticultural area is located in Napa County in the State of California. The boundary is as follows:
(1) Beginning on the Rutherford Quadrangle map at the point of intersection between State Highway 29 and a county road shown on the map as Zinfandel Avenue, known locally as Zinfandel Lane, the boundary proceeds in a southwest direction along Zinfandel Avenue to its intersection with the north fork of Bale Slough (blueline stream) near the 201 foot elevation marker;
(2) Thence in a northwesterly direction approximately 2,750 feet along the north fork of Bale Slough to a point of intersection with a southwesterly straight line projection of a light duty road locally known as Inglewood Avenue;
(3) Thence in a straight line in a southwesterly direction along this projected extension of Inglewood Avenue approximately 2,300 feet to its intersection with the 500 foot contour line in Section 7, Township 7 North (T7N), Range 5 West (R5W);
(4) Thence along the 500 foot contour line in a generally northwesterly direction through Sections 7, 1 and 2, to its intersection of the western border of Section 2, T7N, R6W;
(5) Thence northerly along the western border of Section 2 approximately 500 feet to its intersection with Sulphur Creek in Sulphur Canyon in the northwest corner of Section 2, T7N, R6W;
(6) Thence along Sulphur Creek in an easterly direction approximately 350 feet to its intersection with the 400 foot contour line;
(7) Thence along the 400 foot contour line in a generally easterly, then northwesterly, direction past the city of St. Helena (on the St. Helena Quadrangle map) to a point of intersection
with a southwesterly straight line projection of the county road shown as Bale Lane in the Carne Humana Rancho on the Calistoga Quadrangle map;
(8) Thence along the projected straight line extension of Bale Lane in a northeasterly direction approximately 700 feet to the intersection of State Highway 29 and Bale Lane and continuing northeasterly along Bale Lane to its intersection with the Silverado Trail;
(9) Thence in a northwesterly direction along the Silverado Trail approximately 1,500 feet to an unmarked driveway on the north side of the Silverado Trail near the 275 foot elevation marker;
(10) Thence approximately 300 feet northeasterly along the driveway to and beyond its point of intersection with another driveway and continuing in a straight line projection to the 400 foot contour line;
(11) Thence in a northerly and then generally southeasterly direction along the 400 foot contour line through Sections 10 (projected), 11, 12, 13, 24 and 25 in T8N, R6W, Section 30 in T8N, R5W, Sections 25 and 24 in T8N, R6W, Sections 19 and 30 in T8N, R5W to a point of intersection with the city limits of St. Helena on the eastern boundary of Section 30 in T8N, R5W, on the St. Helena Quadrangle map;
(12) Thence north, east and south along the city limits of St. Helena to the third point of intersection with the county road known as Howell Mountain Road in Section 29, T8N, R5W;
(13) Thence in a northeasterly direction approximately 900 feet along Howell Mountain Road to its intersection with Conn Valley Road;
(14) Thence northeasterly and then southeasterly along Conn Valley Road to its intersection with the eastern boundary of Section 28, T8N, R5W;
(15) Thence south approximately 5,200 feet along the eastern boundary of Sections 28 and 33 to a point of intersection with the 380 foot contour line near the southeast corner of Section 33, T8N, R5W, on the Rutherford Quadrangle map;
(16) Thence in a northwesterly direction along the 380 foot contour line in Section 33 to a point of intersection
with a northeasterly straight line projection of Zinfandel Avenue;
(17) Thence in a southwesterly direction approximately 950 feet along this straight line projection of Zinfandel Avenue to its intersection with the Silverado Trail;
(18) Thence continuing along Zinfandel Avenue in a southwesterly direction to its intersection with State Highway 29, the point of beginning.
[T.D. ATF-366, 60 FR 47061, Sept. 11, 1995]

## §9.150 Cucamonga Valley.

(a) Name. The name of the viticultural area described in this section is "Cucamonga Valley."
(b) Approved maps. The appropriate maps for determining the boundary of the Cucamonga Valley viticultural area are the following ten U.S.G.S. topographical maps (7.5 minute series 1:24000 scale):
(1) Mt. Baldy, Calif., 1967, photorevised 1988;
(2) Cucamonga Peak, Calif., 1966, photorevised 1988;
(3) Devore, Calif., 1966, photorevised 1988;
(4) San Bernardino North, Calif., 1967, photorevised 1988;
(5) Ontario, Calif., 1967, photorevised 1981;
(6) Guasti, Calif., 1966, photorevised 1981;
(7) Fontana, Calif., 1967, photorevised 1980;
(8) San Bernardino South, Calif., 1967, photorevised 1980;
(9) Prado Dam, Calif., 1967, photorevised 1981;
(10) Corona North, Calif., 1967, photorevised 1981.
(c) Boundary. The Cucamonga Valley viticultural area is located in San Bernardino and Riverside Counties, California. The boundary is as follows:
(1) The beginning point is the intersection of Euclid Avenue and 24th Street on the Mt. Baldy, Calif. U.S.G.S. map;
(2) From the beginning point, the boundary follows 24th Street east for approximately 0.3 mile, until it reaches the intersection of 24 th Street with two unnamed light-duty streets to the north;
(3) The boundary then diverges from 24th Street and goes straight north for
