

in the preceding paragraphs of this section, in monetary amounts the total of which is equivalent, under the rules therein stated, to the determined fringe benefits specified in the contract. For example, if an applicable determination specifies that 20 cents per hour is to be paid into a pension fund, this fringe benefit obligation will be deemed to be met if instead, hospitalization benefits costing 15 cents an hour and a cash equivalent payment of 5 cents an hour are provided.

(e) *Effect of equivalents in computing overtime pay.* Section 6 of the Act excludes from the regular or basic hourly rate of an employee, for purposes of determining the overtime pay to which the employee is entitled under any other Federal law, those fringe benefit payments computed under the Act which are excluded from the regular rate under the Fair Labor Standards Act by provisions of section 7(e) (formerly designated as section 7(d)) of that Act (29 U.S.C. 207(e)). Fringe benefit payments which qualify for such exclusion are described in subpart C of Regulations, 29 CFR part 778. When such fringe benefits are required to be furnished to service employees engaged in contract performance, the right to compute overtime pay in accordance with the above rule is not lost to a contractor or subcontractor because it discharges its obligation under this Act to furnish such fringe benefits through alternative equivalents as provided in this section. If it furnishes equivalent benefits or makes cash payments, or both, to such an employee as authorized herein, the amounts thereof, which discharge the employer's obligation to furnish such specified fringe benefits, may be excluded pursuant to this Act from the employee's regular or basic rate of pay in computing any overtime pay due the employee under any other Federal law. No such exclusion can operate, however, to reduce an employee's regular or basic rate of pay below the monetary wage rate specified as the applicable minimum wage rates under sections 2(a)(1), 2(b), or 4(c) of this Act or under other law or an employment contract.

§4.178 Computation of hours worked.

Since employees subject to the Act are entitled to the minimum compensation specified under its provisions for each hour worked in performance of a covered contract, a computation of their hours worked in each workweek when such work under the contract is performed is essential. Determinations of hours worked will be made in accordance with the principles applied under the Fair Labor Standards Act as set forth in part 785 of this title which is incorporated herein by reference. In general, the hours worked by an employee include all periods in which the employee is suffered or permitted to work whether or not required to do so, and all time during which the employee is required to be on duty or to be on the employer's premises or to be at a prescribed workplace. The hours worked which are subject to the compensation provisions of the Act are those in which the employee is engaged in performing work on contracts subject to the Act. However, unless such hours are adequately segregated, as indicated in §4.179, compensation in accordance with the Act will be required for all hours of work in any workweek in which the employee performs any work in connection with the contract, in the absence of affirmative proof to the contrary that such work did not continue throughout the workweek.

§4.179 Identification of contract work.

Contractors and subcontractors under contracts subject to the Act are required to comply with its compensation requirements throughout the period of performance on the contract and to do so with respect to all employees who in any workweek are engaged in performing work on such contracts. If such a contractor during any workweek is not exclusively engaged in performing such contracts, or if while so engaged it has employees who spend a portion but not all of their worktime in the workweek in performing work on such contracts, it is necessary for the contractor to identify accurately in its records, or by other means, those periods in each such workweek when the contractor and each such employee performed work on such contracts. In
