

§ 778.312

basic workday or workweek shall receive 6 hours' pay at the rate of \$7.50 per hour (a total payment of \$45) regardless of the time actually consumed in performance. The applicable maximum hours standard is 40 hours in a workweek.

(2) Suppose an employee under such an agreement works the following schedule:

	M	T	W	T	F	S	S
Hours within basic workday	8	8	7	8	8	0	0
Pay under contract	\$40	\$40	\$35	\$40	\$40	0	0
Hours outside basic workday	2	2 ¹	1	0	0	4	0
Pay under contract	\$15	\$45	\$7.50	0	0	\$30	0

¹ Hours spent in the performance of special work.

(3) To determine the regular rate, the total compensation (except statutory exclusions) must be divided by the total number of hours worked. The only sums to be excluded in this situation are the extra premiums provided by a premium rate (a rate per hour) for work outside the basic workday and workweek, which qualify for exclusion under section 7(e)(7) of the Act, as discussed in § 778.204. The \$15 paid on Monday, the \$7.50 paid on Wednesday and the \$30 paid on Saturday are paid pursuant to rates which qualify as premium rates under section 7(e)(7) of the Act. The total extra compensation (over the straight time pay for these hours) provided by these premium rates is \$17.50. The sum of \$17.50 should be subtracted from the total of \$292.50 due the employee under the employment agreement. No part of the \$45 payment for the special work performed on Tuesday qualifies for exclusion. The remaining \$275 must thus be divided by 48 hours to determine the regular rate—\$5.73 per hour. The employee is owed an additional one-half this rate under the Act for each of 8 overtime hours worked—\$22.92. The extra compensation in the amount of \$17.50 payable pursuant to contract premium rates which qualify as overtime premiums may be credited toward the \$22.92 owed as statutory overtime premiums. No part of the \$45 payment may be so credited. The employer must pay the employee an additional \$5.42 as

29 CFR Ch. V (7-1-11 Edition)

statutory overtime pay—a total of \$297.92 for the week.

“TASK” BASIS OF PAYMENT

§ 778.312 Pay for task without regard to actual hours.

(a) Under some employment agreements employees are paid according to a job or task rate without regard to the number of hours consumed in completing the task. Such agreements take various forms but the two most usual forms are the following:

(1) It is determined (sometimes on the basis of a time study) that an employee (or group) should complete a particular task in 8 hours. Upon the completion of the task the employee is credited with 8 “hours” of work though in fact he may have worked more or less than 8 hours to complete the task. At the end of the week an employee entitled to statutory overtime compensation for work in excess of 40 hours is paid at an established hourly rate for the first 40 of the “hours” so credited and at one and one-half times such rate for the “hours” so credited in excess of 40. The number of “hours” credited to the employee bears no necessary relationship to the number of hours actually worked. It may be greater or less. “Overtime” may be payable in some cases after 20 hours of work; in others only after 50 hours or any other number of hours.

(2) A similar task is set up and 8 hours' pay at the established rate is credited for the completion of the task in 8 hours or less. If the employee fails to complete the task in 8 hours he is paid at the established rate for each of the first 8 hours he actually worked. For work in excess of 8 hours or after the task is completed (whichever occurs first) he is paid one and one-half times the established rate for each such hour worked. He is owed overtime compensation under the Act for hours worked in the workweek in excess of 40 but is paid his weekly overtime compensation at the premium rate for the hours in excess of 40 actual or “task” hours (or combination thereof) for which he received pay at the established rate. “Overtime” pay under this

Wage and Hour Division, Labor

§ 778.313

plan may be due after 20 hours of work, 25 or any other number up to 40.

(b) These employees are in actual fact compensated on a daily rate of pay basis. In plans of the first type, the established hourly rate never controls the compensation which any employee actually receives. Therefore, the established rate cannot be his regular rate. In plans of the second type the rate is operative only for the slower employees who exceed the time allotted to complete the task; for them it operates in a manner similar to a minimum hourly guarantee for piece workers, as discussed in § 778.111. On such days as it is operative it is a genuine rate; at other times it is not.

(c) Since the premium rates (at one and one-half times the established hourly rate) are payable under both plans for hours worked within the basic or normal workday (if one is established) and without regard to whether the hours are or are not in excess of 8 per day or 40 per week, they cannot qualify as overtime premiums under section 7(e) (5), (6), or (7) of the Act. They must therefore be included in the regular rate and no part of them may be credited against statutory overtime compensation due. Under plans of the second type, however, where the pay of an employee on a given day is actually controlled by the established hourly

rate (because he fails to complete the task in the 8-hour period) and he is paid at one and one-half times the established rate for hours in excess of 8 hours actually worked, the premium rate paid on that day will qualify as an overtime premium under section 7(e)(5).

§ 778.313 Computing overtime pay under the Act for employees compensated on task basis.

(a) An example of the operation of a plan of the second type discussed in § 778.312 may serve to illustrate the effects on statutory overtime computations of payment on a task basis. Assume the following facts: The employment agreement establishes a basic hourly rate of \$5 per hour, provides for the payment of \$7.50 per hour for overtime work (in excess of the basic workday or workweek) and defines the basic workday as 8 hours, and the basic workweek as 40 hours, Monday through Friday. It further provides that the assembling of a machine constitutes a day's work. An employee who completes the assembling job in less than 8 hours will be paid 8 hours' pay at the established rate of \$5 per hour and will receive pay at the "overtime" rate for hours worked after the completion of the task. An employee works the following hours in a particular week:

	M	T	W	T	F	S	S
Hours spent on task	6	7	7	9	8½	6	0
Day's pay under contract	\$40	\$40	\$40	\$40	\$40	\$60	0
Additional hours	2	0	2	0	½	0	0
Additional pay under contract	\$15	0	\$15	\$7.50	\$7.50	0	0

(b) In the example in paragraph (a) of this section the employee has actually worked a total of 48 hours and is owed under the contract a total of \$305 for the week. The only sums which can be excluded as overtime premiums from this total before the regular rate is determined are the extra \$2.50 payments for the extra hour on Thursday and Friday made because of work actually in excess of 8 hours. The payment of the other premium rates under the contract is either without regard to whether or not the hours they compensated were in excess of a bona fide daily or weekly standard or without re-

gard to the number of overtime hours worked. Thus only the sum of \$5 is excluded from the total. The remaining \$300 is divided by 48 hours to determine the regular rate—\$6.25 per hour. One-half this rate is due under the Act as extra compensation for each of the 8 overtime hours—\$25. The \$5 payment under the contract for actual excess hours may be credited and the balance—\$20—is owed in addition to the \$305 due under the contract.
