

§ 784.124

apply, for example, to an employee employed by a vessel owner to watch the fishing vessel, its equipment, and the catch when it comes to port, checks the mooring lines, operate bilge pumps and heating and cooling systems on the vessel, and assist in the loading and unloading of the fishing equipment and the catch. Work of the kinds referred to may be exempt when performed by the fisherman himself or necessary to the conduct of the fishing organization. However, the exemption would not apply to employees of a manufacturer of supplies or to employees of independent shops which repair boats and equipment. (*Dize v. Maddix*, 144 F. 2d 584, affirmed 324 U.S. 697.)

§ 784.124 Going to and returning from work.

The phrase "including the going to and returning from work" relates to the preceding named operations which pertain to the procuring and appropriation of seafood and other forms of aquatic life from nature. The expression obviously includes the time spent by fishermen and others who go to and from the fishing grounds or other locations where the aquatic life is reduced to possession. If going to work requires fishermen to prepare and carry the equipment required for the fishing operation, this would be included within the exemption. In performing such travel the fishermen may be required to row, guide or sail the boat or otherwise assist in its operation. Similarly, if an employee were digging for clams or other shellfish or gathering seaweed on the sand or rocks it might be necessary to drive a truck or other vehicle to reach his destination. Such activities are exempt within the meaning of this language. However, the phrase does not apply to employees who are not employed in the activities involved in the acquisition of aquatic animal or vegetable life, such as those going to or returning from work at processing or refrigerator plants or wholesale establishments.

§ 784.125 Loading and unloading.

The term "loading and unloading" applies to activities connected with the removal of aquatic products from the fishing vessel and their initial move-

29 CFR Ch. V (7-1-11 Edition)

ment to markets or processing plants. The term, however, is not without limitation. The statute by its clear language makes these activities exempt only when performed by any employee employed in the procurement activities enumerated in section 13(a)(5). This limitation is confirmed by the legislative history of the 1961 amendments which effectuated this change in the application of this term (S. Rep. 145, 87th Cong., first session, p. 33). Consequently, members of the fishing crew engaged in loading and unloading the catch of the vessel to another vessel at sea, or at the dockside would be engaging in exempt activities within the meaning of section 13(a)(5). On the other hand, dock workers performing the same kind of tasks would not be within the exemption.

§ 784.126 Operation of the fishing vessel.

In extending the minimum wage to seamen on American vessels by limiting the exemption from minimum wages and overtime provided by section 13(a)(12) of the Act to "any employee employed as a seaman on a vessel other than an American vessel", and at the same time extending the minimum wage to "onshore" but not "offshore" operations concerned with aquatic products, the Congress, in the 1961 amendments to the Act, did not indicate any intent to remove the crews of fishing vessels engaged in operations named in section 13(a)(5) from the exemption provided by that section. The exemption provided by section 13(a)(12), above noted, and the general exemption in section 13(b)(6) from overtime for "any employee employed as a seaman" (whether or not on an American vessel) apply, in general to employees, working aboard vessels, whose services are rendered primarily as an aid to navigation. It appears, however, that it is not the custom or practice in the fishing industry for a fishing vessel to have two crews; namely, a fishing crew whose duty it is primarily to fish and to perform other duties incidental thereto and a navigational crew whose duty it is primarily to operate the boat. Where, as is the typical situation, there is but one crew which performs all these functions, the section 13(a)(5)

Wage and Hour Division, Labor

§ 784.130

exemptions would apply to its members. For a further explanation of the seaman's exemption, see part 783 of this chapter.

§ 784.127 Office and clerical employees under section 13(a)(5).

Office and clerical employees, such as bookkeepers, stenographers, typists, and others who perform general office work of a firm engaged in operating fishing boats are not for that reason within the section 13(a)(5) exemption. Under the principles stated in § 784.106, their general office activities are not a part of any of the named operations even when they are selling, taking, and putting up orders, on recording sales, taking cash or making telephone connections for customer or dealer calls. Employment in the specific activities enumerated in the preceding sentence would ordinarily, however, be exempt under section 13(b)(4) since such activities constitute "marketing" or "distributing" within the meaning of that exemption (see § 784.153). In certain circumstances, office or clerical employees may come within the section 13(a)(5) exemption. If, for example, it is necessary to the conduct of the fishing operations that such employees accompany a fishing expedition to the fishing grounds to perform certain work required there in connection with the catch, their employment under such circumstances may, as a practical matter, be directly and necessarily a part of the operations for which exemption was intended, in which event the exemption would apply to them.

FIRST PROCESSING, CANNING, OR PACKING OF MARINE PRODUCTS UNDER SECTION 13(a)(5)

§ 784.128 Requirements for exemption of first processing, etc., at sea.

A complete exemption from minimum and overtime wages is provided by section 13(a)(5) for employees employed in the operations of first processing, canning, or packing of marine products at sea as an incident to, or in conjunction with "such" fishing operations—that is, the fishing operations of the fishing vessel (S. Rep. 145, 87th Cong., first session, p. 33). To qualify under this part of the exemption, there

must be a showing that: (a) The work of the employees is such that they are, within the meaning of the Act, employed in one or more of the named operations of first processing, canning or packing, (b) such operations are performed as an incident to, or in conjunction with, fishing operations of the vessel, (c) such operations are performed at sea, and (d) such operations are performed on the marine product specified in the statute.

§ 784.129 "Marine products".

The marine products which form the basis of the exemption are the "fish, shellfish, crustaceas, sponges, seaweeds, or other aquatic forms of animal and vegetable life" mentioned in section 13(a)(5). The exemption contemplates aquatic products currently or recently acquired and in the form obtained from the sea, since the language of the exemption clearly indicates the named operations of first processing, canning, or packing must be performed "at sea" and "as an incident to or in conjunction with", fishing operations. Also, such "marine products" are limited to aquatic forms of "life."

§ 784.130 "At sea."

The "at sea" requirement must be construed in context and in such manner as to accomplish the statutory objective. The section 13(a)(5) exemption is for the "catching, taking, propagating, harvesting," etc., of "aquatic forms of animal and vegetable life." There is no limitation as to where these activities must take place other than, as the legislative history indicates, that they are "offshore" activities. Since the purpose of the 1961 amendments is to exempt the "first processing, canning, or packing such marine products at sea as an incident to, or in conjunction with, such fishing operations," it would frustrate this objective to give the phrase "at sea" a technical or special meaning. For example, to define "at sea" to include only bodies of water subject to the ebb and flow of the tides or to saline waters would exclude the Great Lakes which obviously would not comport with the legislative intent. On the other hand, one performing the named activities of
