

## § 784.148

product are engaged in exempt activities. In addition, can loft workers, those engaged in removing and carrying supplies from the stock room for current use in canning operations, and employees whose duty it is to re-form cans, when canning operations are going on, for current use, are engaged in exempt activities. Similarly, the repairing, oiling, or greasing during the active season of canning machinery or equipment currently used in the actual canning operations are exempt activities. The making of repairs in the production room such as to the floor around the canning machinery or equipment would also be deemed exempt activities where the repairs are essential to the continued canning operations or to prevent interruptions in the canning operations. These examples are illustrative but not exhaustive. Employees engaged in other activities which are similarly integrated with and necessary to the actual conduct of the canning operations will also come within the exemption. Employees whose work is not directly and necessarily a part of the canning operations are not exempt. See §§ 784.106, 784.140, and 784.141.

### PROCESSING, FREEZING, AND CURING

#### § 784.148 General scope of processing, freezing, and curing activities.

Processing, freezing, and curing embrace a variety of operations that change the form of the "aquatic forms of animal and vegetable life." They include such operations as filleting, cutting, scaling, salting, smoking, drying, pickling, curing, freezing, extracting oil, manufacturing meal or fertilizer, drying seaweed preparatory to the manufacture of agar, drying and cleaning sponges (*Feming v. Hawkeye Pearl Button Co.*, 113 F. 2d 52).

#### § 784.149 Typical operations that may qualify for exemption.

Such operations as transporting the specified aquatic products to the processing plant; moving the products from place to place in the plant; cutting, trimming, eviscerating, peeling, shelling, and otherwise working on the products; packing the products; and moving the products from the produc-

## 29 CFR Ch. V (7-1-11 Edition)

tion line to storage or to the shipping platform are typical of the operations in processing plants which are included in the exemption. Removal of waste, such as clam and oyster shells, operation of processing and packing machinery, and providing steam and brine for the processing operations (see *Mitchell v. Trade Winds Inc.*, 289 F. 2d 278, explaining *Waller v. Humphreys*, 133 F. 2d 193) are also included. As for the application of the exemption to office, maintenance, warehouse, and other employees, see the discussion in § 784.106 *et seq.*, and §§ 784.140 and 784.141.

#### § 784.150 Named operations performed on previously processed aquatic products.

It will be noted that section 13(b)(4) refers to employees employed in "processing" the named aquatic commodities and not just to "first processing" as does the provision in section 13(a)(5) for such processing at sea. Accordingly, if the aquatic products, though subjected to a processing operation, are still in a perishable state, the subsequent performance of any of the enumerated operations on the still perishable products will be within the exemption no matter who the employer performing the exempt operations may be. He may be the same employer who performed the prior processing or other exempt operation, another processor, or a wholesaler, as the case may be. As noted in § 784.138(b), the Department has not questioned the applicability of the foregoing rule where the operation is performed on frozen, salted, smoked, or cured fish.

#### § 784.151 Operations performed after product is rendered nonperishable.

As indicated in § 784.138, after the character of the aquatic products as taken from nature has been altered by the performance of the enumerated operations so as to render them nonperishable (e.g., drying and cleaning sponges) section 13(b)(4) provides no exemption for any subsequent operations on the preserved products, unless the subsequent operation is performed as an integrated part of the operations named in the exemption which are performed by an employer on aquatic commodities described in section 13(b)(4)
