

Subpart CC—Arizona**§ 1952.350 Description of the plan as initially approved.**

(a)(1) The plan identifies the Arizona Industrial Commission, Division of Occupational Safety and Health, as the State agency designated to administer the plan throughout the State. It adopts the definition of occupational safety and health issues expressed in § 1902.2(c)(1) of this chapter. The State intends to adopt all Federal standards except those found in 29 CFR parts 1915, 1916, 1917 and 1918 (ship repairing, shipbuilding, shipbreaking, and longshoring) and those subparts of parts 1910 and 1926 pertaining to industries which are not applicable to Arizona. In addition, the State intends to enforce elevator (ANSI) and boiler pressure vessel (ASME) standards for which there are no Federal counterparts.

(2) The plan provides a description of personnel employed under a merit system; the coverage of employees of political subdivisions; procedures for the development and promulgation of standards, including standards for the protection of employees against new and unforeseen hazards; and procedures for the prompt restraint or elimination of imminent danger situations.

(b)(1) The plan includes legislation enacted by the Arizona Legislature during its 1974 legislative session amending title 23, article 10 of the Arizona Revised Statutes to bring them into conformity with the requirements of part 1902 of this chapter. Under the legislation the Industrial Commission will have full authority to enforce and administer laws respecting the safety and health of employees in all workplaces of the State.

(2) The legislation is intended, among other things, to assure inspections in response to employee complaints; give employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representatives when no compliance action is taken as a result of alleged violations; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of

employment; adequate safeguards to protect trade secrets; sanctions against employers for violations of standards and orders; employer right of review to an Occupational Safety and Health Review Board and then the courts, and employee participation in review proceedings. The plan also proposes a program of voluntary compliance by employers and employees, including a provision for on-site consultation. The State's consultation program should not detract from its enforcement program and the State has given assurances that it will meet the conditions set forth in the Washington Decision (38 FR 2421, January 26, 1973).

(c) The Arizona Plan includes the following documents as of the date of approval:

(1) The plan description documents, in two volumes.

(2) A copy of the enabling legislation as amended and enacted by the State Legislature in its 1974 Session.

(3) Letters from Donald G. Wiseman, Director of the Division of Occupational Safety and Health of the Arizona Industrial Commission to Barry J. White, Associate Assistant Secretary for Regional Programs on October 15, 18, and 24, 1974 submitting information, clarifications, and revisions on several issues raised during the review process, including proposals to be submitted to the Arizona Legislature during its 1975 Session.

§ 1952.353 Compliance staffing benchmarks.

Under the terms of the 1978 Court Order in *AFL-CIO v. Marshall*, compliance staffing levels (benchmarks) necessary for a "fully effective" enforcement program were required to be established for each State operating an approved State plan. In September 1984, Arizona in conjunction with OSHA, completed a reassessment of the levels initially established in 1980 and proposed revised compliance staffing benchmarks of 9 safety and 6 health compliance officers. After opportunity for public comment and service on the AFL-CIO, the Assistant Secretary approved these revised staffing requirements on June 20, 1985.

(a) In accordance with section 18(e) of the Act and procedures in 29 CFR part 1902, and after a determination that the State met the "fully effective" compliance staffing benchmarks as revised in 1984 in response to a Court Order in *AFL-CIO v. Marshall*, (CA 74-406), and was satisfactorily providing reports to OSHA through participation in the Federal-State Unified Management Information System, the Assistant Secretary evaluated actual operations under the State plan for a period of at least one year following certification of completion of developmental steps (46 FR 46320). Based on the 18(e) Evaluation Report (October 1982-March
