

§219.414 How will MMS determine each Gulf producing State's share of the qualified OCS revenues?

(a) The MMS will determine the geographic centers of each applicable leased tract and, using the great circle distance method, will determine the closest distance from the geographic centers of each applicable leased tract to each Gulf producing State's coastline.

(b) Based on these distances, we will calculate the qualified OCS revenues to be disbursed to each Gulf producing State using the following procedure:

(1) For each Gulf producing State, we will calculate and total, over all applicable leased tracts, the mathematical inverses of the distances between the points on the State's coastline that are closest to the geographic centers of the applicable leased tracts and the geographic centers of the applicable leased tracts. For applicable leased tracts intersected by the planning area administrative boundary line, the geographic center used for the inverse distance determination will be the geographic center of the entire lease as if it were not intersected.

(2) For each Gulf producing State, we will divide the sum of each State's inverse distances, from all applicable leased tracts, by the sum of the inverse distances from all applicable leased tracts across all four Gulf producing States. We will multiply the result by the amount of qualified OCS revenues to be shared as shown below. In the formulas, I_{AL} , I_{LA} , I_{MS} , and I_{TX} represent the sum of the inverses of the closest distances between Alabama, Louisiana, Mississippi, and Texas and all applicable leased tracts, respectively.

$$\text{Alabama Share} = (I_{AL} \div (I_{AL} + I_{LA} + I_{MS} + I_{TX})) \times \text{Qualified OCS Revenues}$$

$$\text{Louisiana Share} = (I_{LA} \div (I_{AL} + I_{LA} + I_{MS} + I_{TX})) \times \text{Qualified OCS Revenues}$$

$$\text{Mississippi Share} = (I_{MS} \div (I_{AL} + I_{LA} + I_{MS} + I_{TX})) \times \text{Qualified OCS Revenues}$$

$$\text{Texas Share} = (I_{TX} \div (I_{AL} + I_{LA} + I_{MS} + I_{TX})) \times \text{Qualified OCS Revenues}$$

(3) If in any fiscal year, this calculation results in less than a 10 percent allocation of the qualified OCS revenues to any Gulf producing State, we will recalculate the distribution. We will allocate 10 percent of the qualified OCS revenues to the State and recalculate

the other States' shares of the remaining qualified OCS revenues omitting the State receiving the 10 percent minimum share and its 10 percent share from the calculation.

§219.415 How will bonus and royalty credits affect revenues allocated to Gulf producing States?

If bonus and royalty credits issued under Section 104(c) of the Gulf of Mexico Energy Security Act are used to pay bonuses or royalties on leases in the 181 Area located in the Eastern Planning Area and the 181 South Area, then there will be a corresponding reduction in qualified OCS revenues available for distribution.

§219.416 How will the qualified OCS revenues be allocated to coastal political subdivisions within the Gulf producing States?

The MMS will disburse funds to the coastal political subdivisions in accordance with the following criteria:

(a) Twenty-five percent of the qualified OCS revenues will be allocated to a Gulf producing State's coastal political subdivisions in the proportion that each coastal political subdivision's population bears to the population of all coastal political subdivisions in the producing State;

(b) Twenty-five percent of the qualified OCS revenues will be allocated to a Gulf producing State's coastal political subdivisions in the proportion that each coastal political subdivision's miles of coastline bears to the number of miles of coastline of all coastal political subdivisions in the producing State. Except that, for the State of Louisiana, proxy coastline lengths for coastal political subdivisions without a coastline will be considered to be $\frac{1}{3}$ the average length of the coastline of all political subdivisions within Louisiana having a coastline.

(c) Fifty percent of the revenues will be allocated to a Gulf producing State's coastal political subdivisions in amounts that are inversely proportional to the respective distances between the geographic center of each applicable leased tract and the point in each coastal political subdivision that is closest to the geographic center of each applicable leased tract. Except that, an applicable leased tract will be

§219.417

30 CFR Ch. II (7-1-11 Edition)

excluded from this calculation if any portion of the tract is located in a geographic area that was subject to a leasing moratorium on January 1, 2005, unless that tract was in production on that date.

§219.417 How will MMS disburse qualified OCS revenues to the coastal political subdivisions if, during any fiscal year, there are no applicable leased tracts in the 181 Area in the Eastern Gulf of Mexico Planning Area?

If, during any fiscal year, there are no applicable leased tracts in the 181 Area in the Eastern Gulf of Mexico Planning Area, MMS will disburse funds to the coastal political subdivisions in accordance with the following criteria:

(a) Fifty percent of the revenues will be allocated to a Gulf producing State's coastal political subdivisions in the proportion that each coastal political subdivision's population bears to the population of all coastal political subdivisions in the State; and

(b) Fifty percent of the revenues will be allocated to a Gulf producing State's coastal political subdivisions in the proportion that each coastal political subdivision's miles of coastline bears to the number of miles of coastline of all coastal political subdivisions in the State. Except that, for the State of Louisiana, proxy coastline lengths for coastal political subdivisions without a coastline will be considered to be $\frac{1}{3}$ the average length of the coastline of all political subdivisions within Louisiana having a coastline.

§219.418 When will funds be disbursed to Gulf producing States and eligible coastal political subdivisions?

(a) The MMS will disburse allocated funds in the fiscal year after MMS collects the qualified OCS revenues. For example, MMS will disburse funds in fiscal year 2010 from the qualified OCS revenues collected during fiscal year 2009.

(b) We intend to disburse funds on or before March 31st of the year following the fiscal year of qualified OCS revenues.
