Ocean Energy Bureau, Interior

- (c) Unusual solid and liquid wastes. A description of the quantity, composition, and method of disposal of any unusual solid and liquid wastes (attributable to your proposed exploration activities) likely to be generated by the onshore support facilities you will use. Unusual wastes are those wastes not specifically addressed in the relevant National Pollution Discharge Elimination System (NPDES) permit.
- (d) Waste disposal. A description of the onshore facilities you will use to store and dispose of solid and liquid wastes generated by your proposed exploration activities (see §250.217) and the types and quantities of such wastes.

§ 250.226 What Coastal Zone Management Act (CZMA) information must accompany the EP?

The following CZMA information must accompany your EP:

- (a) Consistency certification. A copy of your consistency certification under section 307(c)(3)(B) of the CZMA (16 U.S.C. 1456(c)(3)(B)) and 15 CFR 930.76(d) stating that the proposed exploration activities described in detail in this EP comply with (name of State(s)) approved coastal management program(s) and will be conducted in a manner that is consistent with such program(s): and
- (b) Other information. "Information" as required by 15 CFR 930.76(a) and 15 CFR 930.58(a)(2)) and "Analysis" as required by 15 CFR 930.58(a)(3).

§ 250.227 What environmental impact analysis (EIA) information must accompany the EP?

The following EIA information must accompany your EP:

- (a) General requirements. Your EIA must:
- (1) Assess the potential environmental impacts of your proposed exploration activities;
 - (2) Be project specific; and
- (3) Be as detailed as necessary to assist the Regional Supervisor in complying with the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) and other relevant Federal laws such as the ESA and the MMPA.

- (b) Resources, conditions, and activities. Your EIA must describe those resources, conditions, and activities listed below that could be affected by your proposed exploration activities, or that could affect the construction and operation of facilities or structures, or the activities proposed in your EP.
- (1) Meteorology, oceanography, geology, and shallow geological or manmade hazards:
 - (2) Air and water quality;
- (3) Benthic communities, marine mammals, sea turtles, coastal and marine birds, fish and shellfish, and plant life:
- (4) Threatened or endangered species and their critical habitat as defined by the Endangered Species Act of 1973;
- (5) Sensitive biological resources or habitats such as essential fish habitat, refuges, preserves, special management areas identified in coastal management programs, sanctuaries, rookeries, and calving grounds;
 - (6) Archaeological resources;
- (7) Socioeconomic resources including employment, existing offshore and coastal infrastructure (including major sources of supplies, services, energy, and water), land use, subsistence resources and harvest practices, recreation, recreational and commercial fishing (including typical fishing seasons, location, and type), minority and lower income groups, and coastal zone management programs;
- (8) Coastal and marine uses such as military activities, shipping, and mineral exploration or development; and
- (9) Other resources, conditions, and activities identified by the Regional Supervisor.
- (c) ${\it Environmental impacts.}$ Your EIA must:
- (1) Analyze the potential direct and indirect impacts (including those from accidents, cooling water intake structures, and those identified in relevant ESA biological opinions such as, but not limited to, those from noise, vessel collisions, and marine trash and debris) that your proposed exploration activities will have on the identified resources, conditions, and activities;
- (2) Analyze any potential cumulative impacts from other activities to those identified resources, conditions, and

§ 250.228

activities potentially impacted by your proposed exploration activities;

- (3) Describe the type, severity, and duration of these potential impacts and their biological, physical, and other consequences and implications;
- (4) Describe potential measures to minimize or mitigate these potential impacts; and
- (5) Summarize the information you incorporate by reference.
- (d) Consultation. Your EIA must include a list of agencies and persons with whom you consulted, or with whom you will be consulting, regarding potential impacts associated with your proposed exploration activities.
- (e) References cited. Your EIA must include a list of the references that you cite in the EIA.

[70 FR 51501, Aug. 30, 2005, as amended at 72 FR 18585, Apr. 13, 2007]

§ 250.228 What administrative information must accompany the EP?

The following administrative information must accompany your EP:

- (a) Exempted information description (public information copies only). A description of the general subject matter of the proprietary information that is included in the proprietary copies of your EP or its accompanying information
- (b) Bibliography. (1) If you reference a previously submitted EP, DPP, DOCD, study report, survey report, or other material in your EP or its accompanying information, a list of the referenced material; and
- (2) The location(s) where the Regional Supervisor can inspect the cited referenced material if you have not submitted it.

REVIEW AND DECISION PROCESS FOR THE EP

§ 250.231 After receiving the EP, what will MMS do?

- (a) Determine whether deemed submitted. Within 15 working days after receiving your proposed EP and its accompanying information, the Regional Supervisor will review your submission and deem your EP submitted if:
- (1) The submitted information, including the information that must accompany the EP (refer to the list in

§250.212), fulfills requirements and is sufficiently accurate;

- (2) You have provided all needed additional information (see §250.201(b)); and
- (3) You have provided the required number of copies (see §250.206(a)).
- (b) Identify problems and deficiencies. If the Regional Supervisor determines that you have not met one or more of the conditions in paragraph (a) of this section, the Regional Supervisor will notify you of the problem or deficiency within 15 working days after the Regional Supervisor receives your EP and its accompanying information. The Regional Supervisor will not deem your EP submitted until you have corrected all problems or deficiencies identified in the notice.
- (c) Deemed submitted notification. The Regional Supervisor will notify you when the EP is deemed submitted.

§ 250.232 What actions will MMS take after the EP is deemed submitted?

- (a) State and CZMA consistency reviews. Within 2 working days after deeming your EP submitted under §250.231, the Regional Supervisor will use receipted mail or alternative method to send a public information copy of the EP and its accompanying information to the following:
- (1) The Governor of each affected State. The Governor has 21 calendar days after receiving your deemed-submitted EP to submit comments. The Regional Supervisor will not consider comments received after the deadline.
- (2) The CZMA agency of each affected State. The CZMA consistency review period under section 307(c)(3)(B)(ii) of the CZMA (16 U.S.C. 1456(c)(3)(B)(ii)) and 15 CFR 930.78 begins when the State's CZMA agency receives a copy of your deemed-submitted EP, consistency certification, and required necessary data and information (see 15 CFR 930.77(a)(1)).
- (b) MMS compliance review. The Regional Supervisor will review the exploration activities described in your proposed EP to ensure that they conform to the performance standards in § 250.202.
- (c) MMS environmental impact evaluation. The Regional Supervisor will evaluate the environmental impacts of
