last increased,¹ whichever occurs later, is determined using the applicable guaranteed minimum investment yield. This value is then used as the base upon which interest accrues during the extended maturity period at the guaranteed minimum investment yield in effect for savings bonds at the beginning of that period. The resulting semiannual values are then compared with the corresponding values determined by using the applicable market-based variable investment yields.

(2) *Market-based variable investment yield and resulting values during and extended maturity period.* The market-based variable investment yield from the first semiannual interest accrual date occurring on or after November 1, 1982 to each semiannual interest accrual date occurring on or after November 1, 1987, is determined as specified in paragraph (c) of this section. The value of a note on its first semiannual interest accrual date occurring on or after November 1, 1982 is used as the base upon which interest accrues during an extended maturity period at the applicable market-based variable investment yield. If redeemed, the note will receive the higher of the two values produced by using the applicable guaranteed minimum investment yield and the applicable market-based variable investment yield.

(e) *Market-based variable investment yields and tables of redemption values.* The market-based variable investment yields for notes redeemed during each 6-month period, beginning on May 1 and November 1 of each year, are made available prior to each of those dates by the Bureau of the Public Debt, Parkersburg, West Virginia 26106-1328, accompanied by tables of the redemption values of notes for the following 6 months, based on either the applicable market-based variable investment yields or guaranteed minimum investment yields.

¹The 11-year bonus was the last increase in the guaranteed minimum investment yield (see paragraph (b)(2)). Savings notes which were eligible to receive this bonus received it on the first semiannual interest accrual date which occurred on or after January 1, 1991.
