

(k) Slowly and repeatedly raising and lowering arms outstretched to each side;

(l) The radiotelegraph alarm signal;

(m) The radiotelephone alarm signal;

(n) Signals transmitted by emergency position-indicating radio beacons;

(o) Signals transmitted by radiocommunication systems, including survival craft radar transponders meeting the requirements of 47 CFR 80.1095.

(p) A high intensity white light flashing at regular intervals from 50 to 70 times per minute.

[CGD 81-007, 47 FR 16174, Apr. 15, 1982, as amended by CGD 89-024, 55 FR 3947, Feb. 6, 1990; CGD 94-011, 63 FR 5732, Feb. 4, 1998]

§ 87.3 Exclusive use.

The use or exhibition of any of the foregoing signals except for the purpose of indicating distress and need of assistance and the use of other signals which may be confused with any of the above signals is prohibited.

[CGD 81-007, 47 FR 16174, Apr. 15, 1982]

§ 87.5 Supplemental signals.

Attention is drawn to the relevant sections of the International Code of Signals, the Merchant Ship Search and Rescue Manual, the International Telecommunication Union Radio Regulations and the following signals:

(a) A piece of orange-colored canvas with either a black square and circle or other appropriate symbol (for identification from the air);

(b) A dye marker.

[CGD 81-007, 47 FR 16174, Apr. 15, 1982, as amended by CGD 89-024, 55 FR 3947, Feb. 6, 1990]

PART 88—ANNEX V: PILOT RULES

Sec.

88.01 Purpose and applicability.

88.03 Definitions.

88.05 Copy of rules.

88.09 Temporary exemption from light and shape requirements when operating under bridges.

88.11 Law enforcement vessels.

88.12 Public safety activities.

88.13 Lights on moored barges.

88.15 Lights on dredge pipelines.

AUTHORITY: 33 U.S.C. 2071.

SOURCE: CGD 80-158, 47 FR 16175, Apr. 15, 1982, unless otherwise noted.

§ 88.01 Purpose and applicability.

This part applies to all vessels operating on United States inland waters and to United States vessels operating on the Canadian waters of the Great Lakes to the extent there is no conflict with Canadian law.

§ 88.03 Definitions.

The terms used in this part have the same meaning as defined in the Inland Navigational Rules Act of 1980.

§ 88.05 Copy of rules.

The operator of each self-propelled vessel 12 meters or more in length shall carry on board and maintain for ready reference a copy of the Inland Navigation Rules.

[USCG-2005-21531, 70 FR 36349, June 23, 2005]

§ 88.09 Temporary exemption from light and shape requirements when operating under bridges.

A vessel's navigation lights and shapes may be lowered if necessary to pass under a bridge.

§ 88.11 Law enforcement vessels.

(a) Law enforcement vessels may display a flashing blue light when engaged in direct law enforcement or public safety activities. This light must be located so that it does not interfere with the visibility of the vessel's navigation lights.

(b) The blue light described in this section may be displayed by law enforcement vessels of the United States and the States and their political subdivisions.

[CGD 80-158, 47 FR 16175, Apr. 15, 1982, as amended by CGD 90-032, 56 FR 33385, July 22, 1991]

§ 88.12 Public safety activities.

(a) Vessels engaged in government sanctioned public safety activities, and commercial vessels performing similar functions, may display an alternately flashing red and yellow light signal. This identification light signal must be located so that it does not interfere with the visibility of the vessel's navigation lights. The identification light

§ 88.13

33 CFR Ch. I (7-1-11 Edition)

signal may be used only as an identification signal and conveys no special privilege. Vessels using the identification light signal during public safety activities must abide by the Inland Navigation Rules, and must not presume that the light or the exigency gives them precedence or right of way.

(b) Public safety activities include but are not limited to patrolling marine parades, regattas, or special water celebrations; traffic control; salvage; firefighting; medical assistance; assisting disabled vessels; and search and rescue.

[CGD 90-032, 56 FR 33386, July 22, 1991]

§ 88.13 Lights on moored barges.

(a) The following barges shall display at night and if practicable in periods of restricted visibility the lights described in paragraph (b) of this section:

(1) Every barge projecting into a buoyed or restricted channel.

(2) Every barge so moored that it reduces the available navigable width of any channel to less than 80 meters.

(3) Barges moored in groups more than two barges wide or to a maximum width of over 25 meters.

(4) Every barge not moored parallel to the bank or dock.

(b) Barges described in paragraph (a) of this section shall carry two unobstructed all-round white lights of an intensity to be visible for at least 1 nautical mile and meeting the technical requirements as prescribed in § 84.15 of this chapter.

(c) A barge or group of barges at anchor or made fast to one or more mooring buoys or other similar device, in lieu of the provisions of Inland Navigation Rule 30, may carry unobstructed all-round white lights of an intensity to be visible for at least 1 nautical mile that meet the requirements of § 84.15 of this chapter and shall be arranged as follows:

(1) Any barge that projects from a group formation, shall be lighted on its outboard corners.

(2) On a single barge moored in water where other vessels normally navigate on both sides of the barge, lights shall be placed to mark the corner extremities of the barge.

(3) On barges moored in group formation, moored in water where other ves-

sels normally navigate on both sides of the group, lights shall be placed to mark the corner extremities of the group.

(d) The following are exempt from the requirements of this section:

(1) A barge or group of barges moored in a slip or slough used primarily for mooring purposes.

(2) A barge or group of barges moored behind a pierhead.

(3) A barge less than 20 meters in length when moored in a special anchorage area designated in accordance with § 109.10 of this chapter.

(e) Barges moored in well-illuminated areas are exempt from the lighting requirements of this section. These areas are as follows:

CHICAGO SANITARY SHIP CANAL

- (1) Mile 293.2 to 293.9
- (3) Mile 295.2 to 296.1
- (5) Mile 297.5 to 297.8

[CGD 80-158, 47 FR 16175, Apr. 15, 1982, as amended by CGD 94-011, 63 FR 5732, Feb. 4, 1998]

§ 88.15 Lights on dredge pipelines.

Dredge pipelines that are floating or supported on trestles shall display the following lights at night and in periods of restricted visibility.

(a) One row of yellow lights. The lights must be:

(1) Flashing 50 to 70 times per minute,

(2) Visible all around the horizon,

(3) Visible for at least 2 miles on a clear dark night,

(4) Not less than 1 and not more than 3.5 meters above the water,

(5) Approximately equally spaced, and

(6) Not more than 10 meters apart where the pipeline crosses a navigable channel. Where the pipeline does not cross a navigable channel the lights must be sufficient in number to clearly show the pipeline's length and course.

(b) Two red lights at each end of the pipeline, including the ends in a channel where the pipeline is separated to allow vessels to pass (whether open or closed). The lights must be:

(1) Visible all around the horizon, and

(2) Visible for at least 2 miles on a clear dark night, and

(3) One meter apart in a vertical line with the lower light at the same height above the water as the flashing yellow light.

PART 89—INLAND NAVIGATION RULES: IMPLEMENTING RULES

Subpart A—Certificate of Alternative Compliance

Sec.

89.1 Definitions.

89.3 General.

89.5 Application for a Certificate of Alternative Compliance.

89.9 Certificate of Alternative Compliance: Contents.

89.17 Certificate of Alternative Compliance: Termination.

89.18 Record of certification of vessels of special construction or purpose.

Subpart B—Waters Upon Which Certain Inland Navigation Rules Apply

89.21 Purpose.

89.23 Definitions.

89.25 Waters upon which Inland Rules 9(a)(ii), 14(d), and 15(b) apply.

89.27 Waters upon which Inland Rule 24(i) applies.

AUTHORITY: 33 U.S.C. 2071; 49 CFR 1.46(n)(14).

SOURCE: CGD 80-157, 47 FR 13801, Apr. 1, 1982, unless otherwise noted.

Subpart A—Certificate of Alternative Compliance

§ 89.1 Definitions.

As used in this subpart:

Inland Rules refers to the Inland Navigation Rules contained in the Inland Navigational Rules Act of 1980 (Pub. L. 96-591) and the technical annexes established under that act.

A vessel of special construction or purpose means a vessel designed or modified to perform a special function and whose arrangement is thereby made relatively inflexible.

Interference with the special function of the vessel occurs when installation or use of lights, shapes, or sound-signaling appliances under the Inland Rules prevents or significantly hinders the operation in which the vessel is usually engaged.

[CGD 80-157, 47 FR 13801, Apr. 1, 1982, as amended by CGD 83-028, 49 FR 33876, Aug. 27, 1984]

§ 89.3 General.

Vessels of special construction or purpose which cannot fully comply with the light, shape, and sound signal provisions of the Inland Rules without interfering with their special function may instead meet alternative requirements. The Chief of the Marine Safety Division in each Coast Guard District Office makes this determination and requires that alternative compliance be as close as possible with the Inland Rules. These regulations set out the procedure by which a vessel may be certified for alternative compliance. The information collection and record-keeping requirements in §§ 89.5 and 89.18 have been approved by the Office
