Coast Guard, DHS

§ 88.12 Public safety activities.

(a) Vessels engaged in government sanctioned public safety activities, and commercial vessels performing similar functions, may display an alternately flashing red and yellow light signal. This identification light signal must be located so that it does not interfere with the visibility of the vessel’s navigation lights. The identification light signal shall consist of at least one alternating red and yellow light source, with the red source being on at least 4 out of every 6 flashes. The light source shall be visible from all directions for a distance of not less than 5 miles. The light shall be alternately visible for at least 10 seconds, and shall be displayed with at least 4 flashes per minute. The light shall be located such that it does not interfere with the visibility of the vessel’s navigation lights. The identification light signal shall be displayed only when the vessel is engaged in government sanctioned public safety activities or performing similar functions.

§ 88.13 Lights on moored barges.

Lights on moored barges shall be displayed in a manner that does not interfere with the visibility of the vessel’s navigation lights. The lights shall be alternately visible for at least 10 seconds, and shall be displayed with at least 4 flashes per minute. The lights shall be located such that they do not interfere with the visibility of the vessel’s navigation lights. The lights shall be displayed only when the vessel is engaged in government sanctioned public safety activities or performing similar functions.

§ 88.15 Lights on dredge pipelines.

Lights on dredge pipelines shall be displayed in a manner that does not interfere with the visibility of the vessel’s navigation lights. The lights shall be alternately visible for at least 10 seconds, and shall be displayed with at least 4 flashes per minute. The lights shall be located such that they do not interfere with the visibility of the vessel’s navigation lights. The lights shall be displayed only when the vessel is engaged in government sanctioned public safety activities or performing similar functions.
