

Example 2. "Non-supplanting." The LEA from the example of supplanting that has the \$300,000 roof commitment has also received a \$400,000 estimate for the replacement of its facility's heating, ventilation, and air conditioning (HVAC) system. The LEA has not made any commitments for the HVAC system because it has no remaining funds available to pay for that work. Since other funds are not available, it would not be supplanting if the LEA received an emergency grant under this program to pay for the HVAC system.

§ 222.176 What definitions apply to this program?

(a) In addition to the terms referenced in 34 CFR 222.2, the following definitions apply to this program:

Bond limit means the cap or limit that a State may impose on an LEA's capacity for bonded indebtedness. For applicants in States that place no limit on an LEA's capacity for bonded in-

debtedness, the Secretary shall consider the LEA's bond limit to be 10 percent of its total assessed valuation.

Construction means

(1) Preparing drawings and specifications for school facilities;

(2) Repairing, renovating, or altering school facilities;

(3) Extending school facilities as described in § 222.172(b);

(4) Erecting or building school facilities, as described in § 222.172(c); and

(5) Inspections or supervision related to school facilities projects.

Emergency means a school facility condition that is so injurious or hazardous that it either poses an immediate threat to the health and safety of the facility's students and staff or can be reasonably expected to pose such a threat in the near future. These conditions can include deficiencies in the following building features: a roof; electrical wiring; a plumbing or sewage system; heating, ventilation, or air conditioning; the need to bring a school facility into compliance with fire and safety codes, or providing accessibility for the disabled as part of a larger project.

Level of bonded indebtedness means the amount of long-term debt issued by an LEA divided by the LEA's bonding capacity.

Minimal capacity to issue bonds means that the total assessed value of real property in an LEA that may be taxed for school purposes is at least \$25,000,000 but not more than \$50,000,000.

Modernization means the repair, renovation, alteration, or extension of a public elementary or secondary school facility in order to support a contemporary educational program for an LEA's students in normal capacity, and in accordance with the laws, standards, or common practices in the LEA's State.

No practical capacity to issue bonds means that the total assessed value of real property in an LEA that may be taxed for school purposes is less than \$25,000,000.

School facility means a building used to provide free public education, including instructional, resource, food service, and general or administrative
