

## National Park Service, Interior

## § 3.14

(b) The results of chemical or other quantitative tests are intended to supplement the elements of probable cause used as the basis for the arrest of an operator charged with a violation of § 13.10. If the alcohol concentration in the operator's blood or breath at the time of testing is less than alcohol concentrations specified in § 13.10(a)(2), this fact does not give rise to any presumption that the operator is or is not under the influence of alcohol.

(c) The provisions of paragraph (b) of this section are not intended to limit the introduction of any other competent evidence bearing upon the question of whether the operator, at the time of the alleged violation, was under the influence of alcohol, or a drug, or drugs, or any combination thereof.

### § 3.12 May I use a vessel to tow a person for water skiing or other similar activities?

(a) The towing of a person by a vessel is allowed only in designated waters, and in accordance with conditions established by the superintendent under §§ 1.5 and 1.7 of this chapter.

(b) Towing a person using a parasail, hang-glider or other airborne device may be allowed only in accordance with a permit issued by the superintendent under § 1.6 of this chapter.

(c) Where towing is designated, the following conditions apply:

(1) Towing is allowed only between the hours of sunrise and sunset.

(2) In addition to the boat operator, a person at least 12 years of age must be present to observe the action of the person being towed.

(3) A person being towed must wear a United States Coast Guard approved Type I, II, III, or V PFD.

(4) A person being towed may not commit any act in a manner that endangers, or is likely to endanger, any person or damage property.

(5) Operating a vessel that does not have the capacity to carry the person(s) being towed in addition to the operator and observer is prohibited.

(6) No person shall operate a power driven vessel using a tow rope 20 feet or less in length when towing a person.

### § 3.13 What conditions apply to the use of Marine Sanitation Devices (MSD)?

(a) Discharging sewage from any vessel, whether treated or not, in any body of fresh water is prohibited.

(b) The owner or operator of any vessel on park fresh water that is equipped with toilet facilities and/or a MSD that is capable of discharge, must lock or otherwise secure the valves or mechanism of the device. Acceptable methods of securing the device include:

(1) Closing the seacock and removing the handle;

(2) Padlocking the seacock in the closed position;

(3) Using a non-releasable wire-tie to hold the seacock in the closed position; or

(4) Locking the door to the space enclosing the toilets with a padlock or door handle key lock.

(c) The superintendent may modify the requirements of this section through a special regulation.

### § 3.14 Am I required to remove a sunken, grounded, or disabled vessel?

(a) Except as provided in paragraph (b) of this section, the owners or authorized salvager of a sunken, grounded, or disabled vessel must remove the vessel, all component parts and equipment, and all associated cargo thereof in accordance with procedures established by the superintendent. In establishing removal procedures, the superintendent is authorized to:

(1) Establish a reasonable date by which vessel removal operations must be complete;

(2) Determine times and means of access to and from the vessel; and

(3) Specify the manner or method of removal.

(b) The superintendent may waive the requirements of paragraph (a) of this section or prohibit removal of the vessel, equipment, or cargo upon a written determination that:

(1) The removal would constitute an unacceptable risk to human life;

(2) The removal would result in extensive resource damage; or

(3) The removal is impracticable or impossible.
