livestock, he is not entitled to compensation.

§ 222.7 Cooperation in management.

(a) Cooperation with local livestock associations—

(1) Authority. The Chief, Forest Service, is authorized to recognize, cooperate with, and assist local livestock associations in the management of the livestock and range resources on a single range allotment, associated groups of allotments, or other association-controlled lands on which the members' livestock are permitted to graze.

(2) Purposes. These associations will provide the means for the members to:

(i) Manage their permitted livestock and the range resources.

(ii) Meet jointly with Forest officers to discuss and formulate programs for management of their livestock and the range resources.

(iii) Express their wishes through their designated officers or committees.

(iv) Share costs for handling of livestock, construction and maintenance of range improvements or other accepted programs deemed needed for proper management of the permitted livestock and range resources.

(v) Formulate association special rules needed to ensure proper resource management.

(3) Requirements for recognition. The requirements for receiving recognition by the Forest Supervisor are:

(i) The members of the association must constitute a majority of the grazing permittees on the range allotment or allotments involved.

(ii) The officers of the association must be elected by a majority of the association members or of a quorum as specified by the association's constitution and bylaws.

(iii) The officers other than the Secretary and Treasurer must be grazing permittees on the range allotment or allotments involved.

(iv) The association's activities must be governed by a constitution and bylaws acceptable to the Forest Supervisor and approved by him.

(b) Withdrawal of recognition. The Forest Supervisor may withdraw his recognition of the association whenever:

(i) The majority of the grazing permittees request that the association be dissolved.

(ii) The association becomes inactive, and does not meet in annual or special meetings during a consecutive 2-year period.

(b) Cooperation with National, State, and county livestock organizations.

The policies and programs of National, State, and county livestock organizations give direction to, and reflect in, the practices of their members. Good working relationships with these groups is conducive to the betterment of range management on both public and private lands. The Chief, Forest Service, will endeavor to establish and maintain close working relationships with National livestock organizations who have an interest in the administration of National Forest System lands, and will cooperate with State and county livestock organizations who have similar interests.

(c) Interagency cooperation. The Chief, Forest Service, will cooperate with other Federal agencies which have an interest in improving range management on public and private lands.

(d) Cooperation with others. The Chief, Forest Service, will cooperate with other agencies, institutions, organizations, and individuals who have interest in improving range management on public and private lands.

§ 222.8 Cooperation in control of estray or unbranded livestock, animal diseases, noxious farm weeds, and use of pesticides.

(a) Insofar as it involves National Forest System lands and other lands under Forest Service control or the livestock which graze thereupon, the Chief, Forest Service, will cooperate with:

(1) State, county, and Federal agencies in the application and enforcement of all laws and regulations relating to
livestock diseases, sanitation and noxious farm weeds.

(2) The Animal and Plant Health Inspection Service and other Federal or State agencies and institutions in surveillance of pesticides spray programs; and

(3) State cattle and sheep sanitary or brand boards in control of estray and unbranded livestock to the extent it does not conflict with the Wild Free-Roaming Horse and Burro Act of December 15, 1971.

(b) The Chief, Forest Service, will cooperate with county or other local weed control districts in analyzing noxious farm weed problems and developing control programs in areas of which the National Forests and National Grasslands are a part.

§ 222.9 Range improvements.

(a) The Chief, Forest Service, is authorized to install and maintain structural and nonstructural range improvements needed to manage the range resource on National Forest System lands and other lands controlled by the Forest Service.

(b) Such improvements may be constructed or installed and maintained, or work performed by individuals, organizations or agencies other than the Forest Service subject to the following:

(1) All improvements must be authorized by cooperative agreement or memorandum of understanding, the provisions of which become a part of the grazing permit(s).

(2) Title to permanent structural range improvements shall rest in the United States.

(3) Title to temporary structural range improvements may be retained by the Cooperator where no part of the cost for the improvement is borne by the United States.

(4) Title to nonstructural range improvements shall vest in the United States.

(5) Range improvement work performed by a cooperator or permittee on National Forest System lands shall not confer the exclusive right to use the improvement or the land influenced.

(c) A user of the range resource on National Forest System lands and other lands under Forest Service control may be required by the Chief, Forest Service, to maintain improvements to specified standards.

(d) Grazing fees or the number of animal months charged shall not be adjusted to compensate permittees for range improvement work performed on National Forest System lands: Provided, That, in accordance with section 32(c), title III, Bankhead-Jones Farm Tenant Act, the cost to grazing users in complying with requirements of a grazing permit or agreement may be considered in determining the annual grazing fee on National Grasslands or land utilization projects if it has not been used in establishing the grazing base value.

§ 222.10 Range betterment fund.

In addition to range development which is accomplished through funds from the rangeland management budget line item and the Granger-Thye Act, and deposited and nondeposited cooperative funds, range development may also be accomplished through use of the range betterment fund as follows:

(a) On National Forest land within the 16 contiguous western States, the Chief, Forest Service, shall implement range improvement programs where necessary to arrest range deterioration and improve forage conditions with resulting benefits to wildlife, watershed protection, and livestock production. One-half of the available funds will be expended on the National Forest where derived. The remaining one-half of the fund will be allocated for range rehabilitation, protection and improvements on National Forest lands within the Forest Service Regions where they were derived. During the planning process there will be consultation with grazing permittees who will be affected by the range rehabilitation, protection and improvements, and other interested persons or organizations.

(b) Range betterment funds shall be utilized only for on-the-ground expenditure for range land betterment, including, but not limited to, seeding and reseeding, fence construction, water development, weed and other plant
