§ 17.45 Hospital care for research purposes.

Subject to the provisions of §17.62(g), any person who is a bona fide volunteer may be admitted to a Department of Veterans Affairs hospital when the treatment to be rendered is part of an approved Department of Veterans Affairs research project and there are insufficient veteran-patients suitable for the project.

§ 17.46 Eligibility for hospital, domiciliary or nursing home care of persons discharged or released from active military, naval, or air service.

(a) In furnishing hospital care under 38 U.S.C. 1710(a)(1), VA officials shall:

(1) If the veteran is in immediate need of hospitalization, furnish care at VA facility where the veteran applies or, if that facility is incapable of furnishing care, arrange to admit the veteran to the nearest VA medical center, or Department of Defense hospital with which VA has a sharing agreement under 38 U.S.C. 8111, which is capable of providing the needed care, or if VA or DOD facilities are not available, arrange for care on a contract basis if authorized by 38 U.S.C. 1703 and 38 CFR 17.52; or

(2) If the veteran needs non-immediate hospitalization, schedule the veteran for admission at VA facility where the veteran applies, if the schedule permits, or refer the veteran for admission or scheduling for admission at the nearest VA medical center, or Department of Defense facility with which VA has a sharing agreement under 38 U.S.C. 8111.

(b) Domiciliary care may be furnished when needed to:

(1) Any veteran whose annual income does not exceed the maximum annual rate of pension payable to a veteran in need of regular aid and attendance, or

(2) Any veteran who the Secretary determines had no adequate means of support. An additional requirement for eligibility for domiciliary care is the ability of the veteran to perform the following:

(i) Perform without assistance daily ablutions, such as brushing teeth; bathing; combing hair; body eliminations.

(ii) Dress self, with a minimum of assistance.

(iii) Proceed to and return from the dining hall without aid.

§ 17.47 Considerations applicable in determining eligibility for hospital, nursing home or domiciliary care.

(a)(1) For applicants discharged or released for disability incurred or aggravated in line of duty and who are not in receipt of compensation for service-connected or service-aggravated disability, the official records of the Armed Forces relative to findings of line of duty for its purposes will be accepted in determining eligibility for hospital care. Where the official records of the Armed Forces show a disability incurred or aggravated in line of duty during the said enlistment; and the disability so recorded is considered in medical judgment to be or to have been of such character, duration, and degree as to have justified a discharge or release for disability had the period of enlistment not expired or other reason for discharge or release been given, the Under Secretary for Health, upon consideration of a clear, full statement of circumstances, is authorized to approve admission of the applicant for hospital care, provided other eligibility requirements are met. A typical case of this kind will be one where the applicant was under treatment for the said disability recorded during his or her service at the time discharge or release was given for the reason other than disability.

(b)(1) Under 38 U.S.C. 1710(a)(1), veterans who are receiving disability compensation awarded under § 3.800 of this chapter, where a disease, injury or the aggravation of an existing disease or have jurisdiction if the applicant was filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the head of the field facility receiving the application for hospital care, will govern the facility Director’s disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Armed Forces show that the disability for which a veteran was discharged or released from the Armed Forces under other than dishonorable conditions was incurred or aggravated in the line of duty, such showing will be accepted for the purpose of determining his or her eligibility for hospitalization, notwithstanding the fact that the Department of Veterans Affairs has made a determination in connection with a claim for monetary benefits that the disability was incurred or aggravated not in line of duty.

(iv) Feed Self.
(v) Secure medical attention on an ambulatory basis or by use of personally propelled wheelchair.
(vi) Have voluntary control over body eliminations or control by use of an appropriate prosthesis.
(vii) Make rational and competent decisions as to his or her desire to remain or leave the facility.
