

**§41.515**

**38 CFR Ch. I (7-1-11 Edition)**

major program. Except for audit follow-up, the auditor is not required under this part to perform audit procedures for such a Federal program; therefore, the auditor will normally not find questioned costs for a program, which is not audited as a major program. However, if the auditor does become aware of questioned costs for a Federal program which is not audited as a major program (e.g., as part of audit follow-up or other audit procedures) and the known questioned costs are greater than \$10,000, then the auditor shall report this as an audit finding.

(5) The circumstances concerning why the auditor's report on compliance for major programs is other than an unqualified opinion, unless such circumstances are otherwise reported as audit findings in the schedule of findings and questioned costs for Federal awards.

(6) Known fraud affecting a Federal award, unless such fraud is otherwise reported as an audit finding in the schedule of findings and questioned costs for Federal awards. This paragraph does not require the auditor to make an additional reporting when the auditor confirms that the fraud was reported outside of the auditor's reports under the direct reporting requirements of GAGAS.

(7) Instances where the results of audit follow-up procedures disclosed that the summary schedule of prior audit findings prepared by the auditee in accordance with §41.315(b) materially misrepresents the status of any prior audit finding.

(b) *Audit finding detail.* Audit findings shall be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for Federal agencies and pass-through entities to arrive at a management decision. The following specific information shall be included, as applicable, in audit findings:

(1) Federal program and specific Federal award identification including the CFDA title and number, Federal award number and year, name of Federal agency, and name of the applicable pass-through entity. When information, such as the CFDA title and number or Federal award number, is not

available, the auditor shall provide the best information available to describe the Federal award.

(2) The criteria or specific requirement upon which the audit finding is based, including statutory, regulatory, or other citation.

(3) The condition found, including facts that support the deficiency identified in the audit finding.

(4) Identification of questioned costs and how they were computed.

(5) Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether the audit findings represent an isolated instance or a systemic problem. Where appropriate, instances identified shall be related to the universe and the number of cases examined and be quantified in terms of dollar value.

(6) The possible asserted effect to provide sufficient information to the auditee and Federal agency, or pass-through entity in the case of a sub-recipient, to permit them to determine the cause and effect to facilitate prompt and proper corrective action.

(7) Recommendations to prevent future occurrences of the deficiency identified in the audit finding.

(8) Views of responsible officials of the auditee when there is disagreement with the audit findings, to the extent practical.

(c) *Reference numbers.* Each audit finding in the schedule of findings and questioned costs shall include a reference number to allow for easy referencing of the audit findings during follow-up.

(Authority: Pub. L. 104-156; 110 Stat. 1396)

**§41.515 Audit working papers.**

(a) *Retention of working papers.* The auditor shall retain working papers and reports for a minimum of three years after the date of issuance of the auditor's report(s) to the auditee, unless the auditor is notified in writing by the cognizant agency for audit, oversight agency for audit, or pass-through entity to extend the retention period. When the auditor is aware that the Federal awarding agency, pass-through entity, or auditee is contesting an audit finding, the auditor shall contact the parties contesting the

audit finding for guidance prior to destruction of the working papers and reports.

(b) *Access to working papers.* Audit working papers shall be made available upon request to the cognizant or oversight agency for audit or its designee, a Federal agency providing direct or indirect funding, or GAO at the completion of the audit, as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities consistent with the purposes of this part. Access to working papers includes the right of Federal agencies to obtain copies of working papers, as is reasonable and necessary.

(Authority: Pub. L. 104-156; 110 Stat. 1396)

**§ 41.520 Major program determination.**

(a) *General.* The auditor shall use a risk-based approach to determine which Federal programs are major programs. This risk-based approach shall include consideration of: Current and prior audit experience, oversight by Federal agencies and pass-through entities, and the inherent risk of the Federal program. The process in paragraphs (b) through (i) of this section shall be followed.

(b) *Step 1.* (1) The auditor shall identify the larger Federal programs, which shall be labeled Type A programs. Type A programs are defined as Federal programs with Federal awards expended during the audit period exceeding the larger of:

(i) \$300,000 or three percent (.03) of total Federal awards expended in the case of an auditee for which total Federal awards expended equal or exceed \$300,000 but are less than or equal to \$100 million.

(ii) \$3 million or three-tenths of one percent (.003) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed \$100 million but are less than or equal to \$10 billion.

(iii) \$30 million or 15 hundredths of one percent (.0015) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed \$10 billion.

(2) Federal programs not labeled Type A under paragraph (b)(1) of this section shall be labeled Type B programs.

(3) The inclusion of large loan and loan guarantees (loans) should not result in the exclusion of other programs as Type A programs. When a Federal program providing loans significantly affects the number or size of Type A programs, the auditor shall consider this Federal program as a Type A program and exclude its values in determining other Type A programs.

(4) For biennial audits permitted under § 41.220, the determination of Type A and Type B programs shall be based upon the Federal awards expended during the two-year period.

(c) *Step 2.* (1) The auditor shall identify Type A programs, which are low-risk. For a Type A program to be considered low-risk, it shall have been audited as a major program in at least one of the two most recent audit periods (in the most recent audit period in the case of a biennial audit), and, in the most recent audit period, it shall have had no audit findings under § 41.510(a). However, the auditor may use judgment and consider that audit findings from questioned costs under § 41.510(a)(3) and § 41.510(a)(4), fraud under § 41.510(a)(6), and audit follow-up for the summary schedule of prior audit findings under § 41.510(a)(7) do not preclude the Type A program from being low-risk. The auditor shall consider: the criteria in §§ 41.525(c), 41.525(d)(1), 41.525(d)(2), and 41.525(d)(3); the results of audit follow-up; whether any changes in personnel or systems affecting a Type A program have significantly increased risk; and apply professional judgment in determining whether a Type A program is low-risk.

(2) Notwithstanding paragraph (c)(1) of this section, OMB may approve a Federal awarding agency's request that a Type A program at certain recipients may not be considered low-risk. For example, it may be necessary for a large Type A program to be audited as major each year at particular recipients to allow the Federal agency to comply with the Government Management Reform Act of 1994 (31 U.S.C. 3515). The Federal agency shall notify the recipient and, if known, the auditor at least 180 days prior to the end of the fiscal year to be audited of OMB's approval.

(d) *Step 3.* (1) The auditor shall identify Type B programs, which are high-
