\section*{§ 180.176 Mancozeb; tolerances for residues.}

\begin{itemize}
\item[(a)] \textit{General.} Tolerances are established for residues of mancozeb (a coordination product of zinc ion and maneb (manganese ethylenebisdithiocarbamate)), including its metabolites and degradates, in or on the commodities in the following table. Compliance with the tolerance levels specified in this paragraph is to be determined by measuring only those mancozeb residues convertible to and expressed in terms of the degrade carbon disulfide.
