§ 180.479 Halosulfuron-methyl; tolerances for residues.

(a) General. (1) Tolerances are established for residues of the herbicide halosulfuron-methyl, methyl 5-[(4,6-dimethoxy-2-pyrimidinyl)amino]carbonylaminosulfonfyl]-3-chloro-1-methyl-1H-pyrazole-4-carboxylate, including its metabolites and degradates, in or on the commodities in the following table. Compliance with the tolerance levels specified in the following table is to be determined by measuring only halosulfuron-methyl.

(b) Section 18 emergency exemptions.

(c) Tolerances with regional registrations.

(d) Indirect or inadvertent residues.

§ 180.480 Fenbuconazole; tolerances for residues.

(a) General. Tolerances are established for combined residues of the fungicide fenbuconazole, alpha-[(4-chlorophenyl)-ethyl]-alpha-phenyl-3-pyridiniumamino]carbonylaminosulfonfyl]-3-chloro-1-methyl-1H-pyrazole-4-carboxylate, including its metabolites and degradates, in or on the commodities in the following table. Compliance with the tolerance levels specified in the following table is to be determined by measuring combined residues of fenbuconazole and its metabolites and degradates.
