levels specified below is to be determined by measuring only metalaxyl (methyl \(N\)-[2,6-dimethylphenyl]-\(N\)-(methoxyacetyl))-DL-alaninate).

(b) Section 18 emergency exemptions. [Reserved]

(c) Tolerances with regional registrations. [Reserved]

(d) Indirect or inadvertent residues. [Reserved]

§ 180.547 Prohexadione calcium; tolerances for residues.

(a) General. Tolerances are established for residues of the plant growth regulator, prohexadione calcium (calcium 3-oxido-5-oxo-4-

1Registration is limited to grass grown for seed."

(b) Section 18 emergency exemptions. [Reserved]

(c) Tolerances with regional registrations. [Reserved]

(d) Indirect or inadvertent residues. [Reserved]

[65 FR 25660, May 3, 2000, as amended at 66 FR 29712, June 1, 2001]

§ 180.548 Tralkoxydim; tolerances for residues.

(a) General. Tolerances are established for residues of the herbicide, tralkoxydim, 2-Cyclohexen-1-one, 2-[1-(ethoxyimino)propyl]-3-hydroxy-5-

2,4,6-trimethylphenyl)-(9Cl) in or on the raw agricultural commodities:

(b) Section 18 emergency exemptions. [Reserved]

(c) Tolerances with regional registrations. [Reserved]

(d) Indirect or inadvertent residues. [Reserved]

§ 180.549 Diflufenketal; tolerances for residues.

(a) General. Tolerances are established for residues of the herbicide, diflufenketal, 2-(1-[(3,5-difluorophenylamino)]carbonyl)hydroazomethylic acid, and its metabolites convertible to 8-methylypyridin[2,3-d]pyridazine-5(6H)-one, expressed as diflufenketal, in or on the raw agricultural commodities:

(b) Section 18 emergency exemptions. [Reserved]

(c) Tolerances with regional registrations. [Reserved]

(d) Indirect or inadvertent residues. [Reserved]
