(1) The compressor type (screw, sliding vane, etc.).
(2) Number of compressor stages.
(3) Maximum pressure (psi).
(4) Air intake system of compressor:
   (i) Number of filters;
   (ii) Type of filters.
(5) The engine system:
   (i) Number of cylinders and configuration (L-6, V-8, V-12);
   (ii) Displacement;
   (iii) Horsepower;
   (iv) Full load rpm.
(6) Type cooling system, e.g., air cooled, water cooled.
(7) Fan:
   (i) Diameter;
   (ii) Maximum fan rpm.
(8) The compressor enclosure:
   (i) Height, length, and width;
   (ii) Acoustic material manufacturer, type, part number.
(9) The induction system (engine):
   (i) Natural;
   (ii) Turbocharged.
(10) The muffler:
    (i) Manufacturer;
    (ii) Manufacturer part number;
    (iii) Quantity of mufflers used;
(11) Category parameters listed at §204.55–2.

§ 204.56 Testing by the Administrator.

(a)(1) The Administrator may require that any compressor tested or scheduled to be tested pursuant to these regulations or any other untested compressors be submitted to him, at such place and time as he may designate, for the purpose of conducting tests in accordance with the test procedures described in §204.54 to determine whether such compressors conform to applicable regulations.

(a)(2) The Administrator may specify that he will conduct such testing at the manufacturer’s facility, in which case instrumentation and equipment of the type required by these regulations shall be made available by the manufacturer for test operations. The Administrator may conduct such tests with his own equipment, which shall be equal to or exceed the performance that contrasts with the background of the label:
   (i) The label heading: Compressor Noise Emission Control Information;
   (ii) Full corporate name and trademark of manufacturer;
   (iii) Date of manufacture, which may consist of a serial number or code in those instances where records are specified and maintained.
   (iv) The statement:

This Compressor Conforms to U.S. E.P.A. Regulations for Noise Emissions Applicable to Portable Air Compressors. The following acts or the causing thereof by any person are prohibited by the Noise Control Act of 1972:
(A) The removal or rendering inoperative, other than for the purpose of maintenance, repair, or replacement, of any noise control device or element of design (listed in the owner's manual) incorporated into this compressor in compliance with the Noise Control Act;
(B) The use of this compressor after such device or element of design has been removed or rendered inoperative.

(b) Compressors manufactured solely for use outside the United States shall be clearly labeled “For Export Only.”
